1. That in relation to the following development application:

APPLICATION		PREMISES	
APPLICANT	D, D, M, B, P & P Lavers	ADDRESS	104 Henry Hannam Drive, Mareeba
DATE LODGED	16 February 2024	RPD	Lot 2 on SP261006
TYPE OF APPROVAL	Development Permit		
PROPOSED DEVELOPMENT	Reconfiguring a Lot – Subdivision (1 lot into 2 lots)		

and in accordance with the Planning Act 2016, the applicant be notified that the application for a development permit for the development specified in (A) is:

Refused by Council for reasons set out in (B).

(A) REFUSED DEVELOPMENT: Development Permit for Reconfiguring a Lot – Subdivision (1 lot into 2 lots)

(B) ASSESSMENT MANAGER'S REASONS FOR REFUSAL:

1. The proposed development is in conflict with the following aspects of the Strategic Framework:

3.3 Settlement pattern and built environment

3.3.1 Strategic outcomes

- (5) Primary industries in *Rural areas* are not compromised or fragmented by incompatible and/or unsustainable development, including but not limited to subdivision that results in a detrimental impact on rural productivity or fragments rural land. The valued, relaxed rural lifestyle, character and scenic qualities of the *rural area* are preserved and enhanced. The *rural area* is largely maintained to its current extent, while accommodating

development directly associated with or reliant on natural resources including rural activities and tourism. *Rural areas* protect the shire's *agricultural area* and ensure food security. *Other rural areas* predominantly remain agricultural grazing properties.

- (9) New subdivisions which propose lots less than the minimum lot size of 60ha are not supported within the Rural zone, except for where:
 - (a) The subdivision results in no additional lots (boundary realignment) and does not create an additional *rural lifestyle* lot or *rural residential purposes* lot; or
 - (b) The subdivision is limited to one additional lot created to accommodate a *public reconfiguration purpose*.

3.3.11 Element – Rural areas

3.3.11.1 Specific outcomes

- (2) Land in *rural areas* is maintained in large lot sizes, to ensure that regional landscape and rural production values are not compromised by fragmentation, alienation or incompatible land uses. Subdivision of land is not supported on lots less than 60ha in the Rural zone except for where:
 - (a) The subdivision results in no additional lots (boundary realignment) and does not create an additional *rural lifestyle* lot or *rural residential purposes* lot; or
 - (b) The subdivision is limited to one additional lot created to accommodate a *public reconfiguration purpose*.
- (6) *Agricultural areas* will be retained in large holdings (60ha or greater) and not fragmented or compromised by unsuitable development. Uses and development within this precinct will not cause land use conflicts with primary production or will ensure these conflicts are mitigated.
- (7) *Rural areas* preserve lands for future uses beyond the life of the planning scheme.

3.6 Transport and infrastructure

3.6.1 Strategic outcomes

- (12) Subdivision of land in the Rural zone to create lots less than 60ha is not consistent with facilitating appropriately sequenced and coordinated development, except for where:

- (a) The subdivision results in no additional lots (boundary realignment) and does not create an additional *rural lifestyle* lot or *rural residential purposes* lot; or
- (b) The subdivision is limited to one (1) additional lot created to accommodate a *public reconfiguration purpose*.

3.7 Economic development

3.7.2 Element – Rural and Agricultural land

3.7.2.1 Specific outcomes

- (1) *Agricultural areas* are preserved for the purpose of primary production and are protected from fragmentation, alienation and incompatible development.
 - (2) *Other rural areas* are maintained in economically viable holdings and continue to develop and expand their rural infrastructure and operations.
 - (5) Development ensures rural activities in all *rural areas* are not compromised by incompatible development and fragmentation.
2. The proposed development conflicts with Overall outcome (3)(a) and Performance outcome PO9 of the Rural zone code:
- (a) Areas for primary production and other rural activities are conserved and not fragmented below 60ha unless for a public reconfiguration purpose;

PO9 - Rural uses

Areas for use for primary production and rural activities are conserved and protected from fragmentation, alienation and degradation.

3. The proposed development conflicts with Overall outcome (2)(a) and Performance outcomes PO3 and PO6 of the Agricultural land overlay code:
- (a) The alienation, fragmentation or reduction in primary production potential of land within the 'Class A' area or 'Class B' area is avoided, except where:
 - (i) an overriding need exists for the development in terms of public benefit,
 - (ii) no suitable alternative site exists; and
 - (iii) the fragmentation or reduced production potential of agricultural land is minimised;

PO3

Development in the 'Class A' area or 'Class B' area identified on the Agricultural land overlay maps (OM-001a-n):

- (a) ensures that agricultural land is not permanently alienated;
- (b) ensures that agricultural land is preserved for agricultural purposes; and

- (c) does not constrain the viability or use of agricultural land.

PO6

Any Reconfiguring a lot in the 'Class A' area, 'Class B' area or the 'Broadhectare rural' area identified on the Agricultural land overlay maps (OM-001a-n), including boundary realignments, only occurs where it:

- (a) improves agricultural efficiency;
- (b) facilitates agricultural activity; or
- (c) facilitates conservation outcomes; or
- (d) resolves boundary issues where a structure is built over the boundary line of two (2) lots.

- 4. The proposed development conflicts with Overall outcome (2)(i) and Performance outcome PO1.1 of the Reconfiguring a lot code:
 - (i) Subdivision within the Rural zone maintains lots equal to or larger than 60ha, except for where:
 - (a) The subdivision results in no additional lots (boundary realignment) and does not create an additional *rural lifestyle* lot or *rural residential purposes* lot; or
 - (b) The subdivision is limited to the creation of one additional allotment to accommodate a *public reconfiguration purpose*;

PO1.1 – Area and frontage of lots – Rural zone

No lots are created with an area of less than 60ha, except for where:

- (a) The subdivision results in no additional lots (boundary realignment) and does not create an additional *rural lifestyle* lot or *rural residential purposes* lot; or
- (b) The subdivision is limited to the creation of one additional allotment to accommodate a *public reconfiguration purpose*.

Note: This also applies to applications for boundary realignment.

- 5. There are not sufficient town planning grounds to justify approval of the application despite these identified conflicts.
