and in accordance with the Planning Act 2016, the applicant be notified that the application for a development permit for the development specified in (A) is:

Approved by Council in accordance with the approved plans/documents listed in (B), subject to assessment manager conditions in (C), assessment manager’s advice in (D), relevant period in (E), further permits in (F), and further approvals from Council listed in (G);

And

The assessment manager does not consider that the assessment manager’s decision conflicts with a relevant instrument.

(A) APPROVED DEVELOPMENT: Development Permit for Reconfiguring a Lot - Subdivision (1 into 2 lots)

(B) APPROVED PLANS:

Plan/Document Number	Plan/Document Title	Prepared by	Dated
-	2 Kearney Street - New Lot	F Harvie	-

(C) ASSESSMENT MANAGER'S CONDITIONS (COUNCIL)

(a) Development assessable against the Planning Scheme

1. Development must be carried out generally in accordance with the approved plans and the facts and circumstances of the use as submitted with the application, subject to any alterations:
 - found necessary by Council's delegated officer at the time of examination of the engineering plans or during construction of the development because of particular engineering requirements; and
 - to ensure compliance with the following conditions of approval.
2. Timing of Effect
 - 2.1 The conditions of the development permit must be complied with to the satisfaction of Council's delegated officer prior to the endorsement of the plan of survey, except where specified otherwise in these conditions of approval.
3. General
 - 3.1 The development approval would not have been issued if not for the conditions requiring the construction of infrastructure or the payment of infrastructure charges within the conditions of approval or the Adopted Infrastructure Charges Notice.
 - 3.2 The applicant/developer is responsible for the cost of necessary alterations to existing public utility mains, services or installations required by works in relation to the proposed development or any works required by condition(s) of this approval.
 - 3.3 All payments or bonds required to be made to the Council pursuant to any condition of this approval must be made prior the endorsement of the plan of survey and at the rate applicable at the time of payment.
 - 3.4 The developer must relocate (in accordance with FNQROC standards) any services such as water, sewer, drainage, telecommunications and electricity that are not wholly located within the lots that are being created/serviced where required by the relevant authority, unless approved by Council's delegated officer.
 - 3.5 Where utilities (such as sewers on non-standard alignments) traverse lots to service another lot, easements must be created in favour of Council for access and maintenance purposes. The developer is to pay all costs (including Council's legal expenses) to prepare and register the easement documents.
 - 3.6 Where approved existing buildings and structures are to be retained, setbacks to any new property boundaries are to be in accordance with Planning Scheme requirements for the relevant structure and/or Queensland Development Code.

3.7 All development works must be designed, constructed and carried out in accordance with FNQROC Development Manual requirements and to the satisfaction of Council's delegated officer.

3.8 Charges

All outstanding rates, charges and expenses pertaining to the land are to be paid in full prior to the endorsement of a plan of survey.

3.9 Slope Stability

For any new building work proposed on a slope of 15% or greater, the applicant/developer must provide Council with a site specific geotechnical report prepared by a suitably qualified Registered Professional Engineer of Queensland (RPEQ) that certifies:

- the long-term stability of the development site; and
- that the development site will not be adversely affected by land slide/slip activity originating on sloping land above the development site.

4. Infrastructure Services and Standards

4.1 Access

Access to each proposed lot must be constructed (from the edge of the road pavement to the property boundary of the lot) in accordance with the FNQROC Development Manual, to the satisfaction of Council's delegated officer.

4.2 Frontage Works - Kearney Street

Prior to the endorsement of the plan of survey, the applicant/developer is required to construct the following works, designed in accordance with FNQROC Development Manual standards to the satisfaction of Council's delegated officer:

- The development side of Kearney Street only, for the full frontage of the subject land, must be widened and kerb and channel installed, to achieve an overall formation width of approximately 6.5 metres.

The widening works must be bitumen or asphalt standard, and must include sufficient overlapping of the existing paved surface to ensure an appropriate bond of surfaces is achieved, to the satisfaction of Council's delegated officer; and

- Streetlighting is to be designed and installed in accordance with FNQROC Development Manual standards.

Prior to works commencing, plans for the works described above must be approved as part of a subsequent application for operational works.

4.3 Stormwater Drainage

- 4.3.1 The applicant/developer must take all necessary steps to ensure a non-worsening effect on surrounding land as a consequence of the development and must take all reasonable and practical measures to ensure discharge occurs in compliance with the Queensland Urban Drainage Manual (QUDM) and the FNQROC Development Manual, to the satisfaction of Council's delegated officer.
- 4.3.2 All stormwater drainage must be collected from site and discharged to an approved legal point of discharge.

4.4 Water Supply

- 4.4.1 The developer must provide each proposed allotment with a water service connection in accordance with FNQROC Development Manual standards (as amended) to the satisfaction of Council's delegated officer.
- 4.4.2 Where the existing reticulated water supply does not currently service the site or is not at an adequate capacity, the developer is required to extend or upgrade the reticulated water supply infrastructure to connect the site to Council's existing infrastructure at a point that has sufficient capacity to service the development in accordance with FNQROC Development Manual standards (as amended).

4.5 Sewerage Connection

- 4.5.1 The developer must provide a connection for each proposed allotment to Council's reticulated sewerage system in accordance with FNQROC Development Manual standards (as amended) to the satisfaction of Council's delegated officer.
- 4.5.2 Where sewerage connections are not available to the site, or where existing connections are not satisfactory for the proposed development, the developer is required to extend or upgrade the reticulated sewerage infrastructure to connect the site to Council's existing infrastructure at a point that has sufficient capacity to service the development in accordance with FNQROC Development Manual standards (as amended).

4.6 Electricity Provision/Supply

The applicant/developer must ensure that an appropriate level of electricity supply is provided to each allotment in accordance with FNQROC Development Manual standards (as amended), to the satisfaction of Council's delegated officer.

Written advice from an Electricity Service Provider is to be provided to Council indicating that an agreement has been made for the provision of power reticulation to each lot.

4.7 Telecommunications

The applicant/developer must demonstrate that a connection to the national broadband network is available for each allotment, or alternatively, enter into an agreement with a telecommunication carrier to provide telecommunication services to each lot and arrange provision of necessary conduits and enveloping pipes.

(D) ASSESSMENT MANAGER'S ADVICE

(a) An Adopted Infrastructure Charges Notice has been issued with respect to the approved development. The Adopted Infrastructure Charges Notice details the type of infrastructure charge/s, the amount of the charge/s and when the charge/s are payable.

(b) A number of other charges or payments may be payable as conditions of approval. The applicable fee is set out in Council's Fees & Charges Schedule for each respective financial year.

(c) Water Meters/Water Service Connection

Prior to the water service connection works commencing, a Water Quotation, Connection, Disconnection Request must be lodged with Council. The cost of the required water connection will be determined based upon the assessment of the Water Quotation Request. The Water Quotation Request must be lodged and the required connection fee paid prior to the signing of the survey plan.

(d) Property Connection to existing sewer main (house connection branch installation)

Prior to the property connection to the existing sewer main commencing, a request for a Property Connection Quotation must be lodged with Council. The cost of the required property connection will be determined based upon the assessment of the Property Connection Quotation Request. The Property Connection Quotation Request must be lodged and the required connection fee paid prior to the signing of the survey plan.

(e) Endorsement Fees

Council charges a fee for the endorsement of a Survey Plan, Community Management Statements, easement documents, and covenants. The fee is set out in Council's Fees & Charges Schedule applicable for each respective financial year.

(f) Compliance with applicable codes/policies

The development must be carried out to ensure compliance with the provisions of Council's Local Laws, Planning Scheme Policies, Planning Scheme and Planning Scheme Codes to the extent they have not been varied by a condition of this approval.

(g) Notation on Rates Record

A notation will be placed on Council's Rate record with respect to each lot regarding the following conditions:

- conditions regarding development on sloped land

(h) Environmental Protection and Biodiversity Conservation Act 1999

The applicant is advised that referral may be required under the *Environmental Protection and Biodiversity Conservation Act 1999* if the proposed activities are likely to have a significant impact on a matter of national environmental significance. Further information on these matters can be obtained from www.environment.gov.au.

(i) Cultural Heritage

In carrying out the activity the applicant must take all reasonable and practicable measures to ensure that no harm is done to Aboriginal cultural heritage (the "cultural heritage duty of care"). The applicant will comply with the cultural heritage duty of care if the applicant acts in accordance with gazetted cultural heritage duty of care guidelines. An assessment of the proposed activity against the duty of care guidelines will determine whether or to what extent Aboriginal cultural heritage may be harmed by the activity. Further information on cultural heritage, together with a copy of the duty of care guidelines and cultural heritage search forms, may be obtained from www.datsip.qld.gov.au.

(E) RELEVANT PERIOD

When approval lapses if development not started (s.85)

- Reconfiguring a Lot – four (4) years (starting the day the approval takes effect);

(F) OTHER NECESSARY DEVELOPMENT PERMITS AND/OR COMPLIANCE PERMITS

- Development Permit for Operational Works

(G) OTHER APPROVALS REQUIRED FROM COUNCIL

(C) ASSESSMENT MANAGER'S CONDITIONS (COUNCIL)

(a) Development assessable against the Planning Scheme

1. Development must be carried out generally in accordance with the approved plans and the facts and circumstances of the use as submitted with the application, subject to any alterations:
 - found necessary by Council's delegated officer at the time of examination of the engineering plans or during construction of the development because of particular engineering requirements; and
 - to ensure compliance with the following conditions of approval.
2. Timing of Effect
 - 2.1 The conditions of the development permit must be complied with to the satisfaction of Council's delegated officer prior to the commencement of the use except where specified otherwise in these conditions of approval.
 - 2.2 Prior to the commencement of use, the applicant must notify Council that all the conditions of the development permit have been complied with, except where specified otherwise in these conditions of approval.
3. General
 - 3.1 The applicant/developer is responsible for the cost of necessary alterations to existing public utility mains, services or installations required by works in relation to the proposed development or any works required by condition(s) of this approval.
 - 3.2 All payments or bonds required to be made to the Council pursuant to any condition of this approval must be made prior to commencement of the use and at the rate applicable at the time of payment.
 - 3.3 All works must be designed, constructed and carried out in accordance with FNQROC Development Manual requirements (as amended) and to the satisfaction of Council's delegated officer.
 - 3.4 Waste Management

On site refuse storage area must be provided and be screened from view from adjoining properties and road reserve by 1 metre wide landscaped screening buffer, 1.8m high solid fence or building.

Where bulk bins are used and are to be serviced on site, certification by a Registered Professional Engineer of Queensland (RPEQ) must be provided to Council prior to the issue of a building permit which demonstrates that internal access is of adequate design and construction to allow waste collection/delivery vehicles to enter and exit the site in a forward gear.

3.5 Noise Nuisance

3.5.1 Refrigeration equipment, pumps, compressors and mechanical ventilation systems must be located, designed, installed and maintained to achieve a maximum noise level of 3dB(A) above background levels as measured from noise sensitive locations and a maximum noise level of 8dB(A) above background levels as measured from commercial locations.

3.5.2 The applicant is required to install and maintain suitable screening to all air conditioning, lift motor rooms, plant and service facilities located at the top of or on the external face of the building. The screening structures must be constructed from materials that are consistent with materials used elsewhere on the facade of the building. There are to be no individual external unscreened air conditioning units attached to the exterior building facade.

4. Infrastructure Services and Standards

4.1 Access

Both proposed access crossovers must be upgraded/constructed to a commercial access crossover standard (from the edge of Byrnes/Herberton Street pavement to the property boundary of the subject land) in accordance with the FNQROC Development Manual, to the satisfaction of Council's delegated officer.

Any redundant vehicle crossovers must be removed and kerb and channel and any footpaths reinstated, to the satisfaction of Council's delegated officer.

4.2 Stormwater Drainage/Water Quality

4.2.1 The applicant/developer must take all necessary steps to ensure a non-worsening effect on surrounding land as a consequence of the development.

4.2.2 Prior to building works commencing the applicant must submit a Stormwater Management Plan and Report prepared and certified by a suitably qualified design engineer (RPEQ) that meets or exceeds the standards of design and construction set out in the Queensland Urban Drainage Manual (QUDM) and the FNQROC Development Manual to the satisfaction of Council's delegated officer.

4.2.3 The Stormwater Management Plan and Report must include provisions to intercept and control stormwater flows along driveways.

4.2.4 The applicant/developer must construct the stormwater drainage infrastructure in accordance with the approved Stormwater Management Plan and Report.

4.2.5 All stormwater drainage must be collected from site and discharged to an approved legal point of discharge.

4.2.6 In addition to the Stormwater Management Plan, and prior to building works commencing, the applicant/developer must submit an Oily Water Management Plan, prepared and certified by a suitably qualified design engineer (RPEQ). The Plan must demonstrate how contaminants such as oil and/or fuel will be removed and stored prior to stormwater being discharged from the site.

4.3 Car Parking/Internal Driveways

4.3.1 The applicant/developer must ensure the development is provided with a minimum of 10 on-site car parking spaces (including 1 disabled parking space) as well as 1 RV parking space and 1 service vehicle parking space which are available solely for the parking of vehicles associated with the use of the premises. These parking spaces must be provided in addition to any fuel bowser parking spaces and car wash bay spaces.

4.3.2 All car parking spaces and trafficable areas must be concrete sealed, line-marked and appropriately drained prior to the commencement of the use, to the satisfaction of Council's delegated officer.

4.3.3 All car parking spaces and trafficable areas must be constructed in compliance with the following standards, to the satisfaction of Council's delegated officer:

- Australian Standard AS2890:1 Off Street Parking – Car Parking Facilities;
- Australian Standard AS1428:2001 – Design for Access and Mobility.

4.3.4 The applicant/developer must ensure the development is provided with 3 bicycle parking spaces in proximity to the shop/food and drink outlet building entrances.

A sign must be erected in proximity to the access driveways indicating the availability of on-site parking.

4.4 Landscaping

4.4.1 Prior to the commencement of the use, a landscape plan must be prepared for the site and submitted to Council's delegated officer for consideration and approval. The extent of landscaping on site should be generally consistent with that shown on the submitted plan/s (Site Plan).

4.4.2 All plant varieties must be generally in accordance with Schedule A of Planning Scheme Policy No. 9 (Landscaping Policy).

4.4.3 The landscaping of the site must be carried out in accordance with the endorsed landscaping plan, and irrigated, mulched and maintained for the life of the development to the satisfaction of Council's delegated officer.

4.5 Fencing

Prior to the commencement of the use, the applicant/developer must erect a 1.8m high solid screen colorbond fence (of neutral colour) along the entire length of the eastern boundaries of Lots 701 and 702 on M3565.

All fencing must be maintained in good order and safe repair for the life of the development, to the satisfaction of Council's delegated officer.

4.6 Lighting

The developer shall locate, design and install lighting to operate from dusk to dawn within all areas where the public will be given access, which prevents the potential for light spillage to cause nuisance to neighbours and must be provided in accordance with Australian Standard 1158.1 – Lighting for Roads and Public Spaces.

Illumination resulting from direct, reflected or other incidental light emanating from the subject land does not exceed 8 lux when measured at any point 1.5m outside the property boundary of the subject site. The lighting fixtures installed on site must meet appropriate lux levels as documented within Australian Standard 4282 – Control of the Obtrusive Effects of Outdoor Lighting.

NOTE: The design is to integrate the principles of Crime Prevention through Environmental Design (CPTED) theory. Lighting design is to illuminate potential areas of concealment and is to project illumination so that a human face is easily discernible from 15 metres and there is to be sufficient night lighting, which renders people, colours, vegetation and objects correctly. i.e. 'white' light. Particular attention should be given to pathways, driveways and common external spaces.

4.7 Signage

4.7.1 The number, type and size of advertising signage, including pylon signage, is limited to that shown on the submitted plans and must not move, revolve, strobe or flash (can be illuminated).

4.7.2 The pylon signage must be designed and installed so as to not impede the vision of any pedestrian or vehicle using the Byrnes and Herberton Street intersection, to the satisfaction of Council's delegated officer.

4.8 Water Supply

4.8.1 Where the existing reticulated water supply does not currently service the site or is not at an adequate capacity, the developer is required to extend or upgrade the reticulated water supply infrastructure to connect the site to Council's existing infrastructure at a point that has sufficient capacity to service the development in accordance with FNQROC Development Manual standards (as amended).

4.8.2 A water service connection must be provided to the subject land in accordance with FNQROC Development Manual standards (as amended) to the satisfaction of Council's delegated officer.

4.9 Sewerage Connection

4.9.1 Where sewerage connections are not available to the site, or where existing connections are not satisfactory for the proposed development, the developer is required to extend or upgrade the reticulated sewerage infrastructure to connect the site to Council's existing infrastructure at a

point that has sufficient capacity to service the development in accordance with FNQROC Development Manual standards (as amended).

4.9.2 The developer must connect the proposed development to Council's reticulated sewerage system in accordance with FNQROC Development Manual Standards (as amended) to the satisfaction of Council's delegated officer.

(D) ASSESSMENT MANAGER'S ADVICE

(a) A number of other charges or payments may be payable as a result of conditions of approval. The applicable fees are set out in Council's Fees & Charges Schedule for each respective financial year.

(b) Water Meters/Water Service Connection

Prior to the water service connection works commencing and the installation of the meters by Council, an application for a Plumbing Compliance Permit is required to be submitted with detailed hydraulic drawings. The cost of the required water connection and meter (capping of any existing meter may be required) will be determined based upon the approved hydraulic drawings at the time of lodgement of a Water Quotation Request.

(c) Property Connection to existing sewer main (house connection branch installation)

Prior to the property connection to the existing sewer main commencing, a request for a Property Connection Quotation must be lodged with Council. The cost of the required property connection will be determined based upon the assessment of the Property Connection Quotation Request.

(d) Food Premises

Premises proposed for the storage and preparation, handling, packing or service of food must comply with the requirements of the Food Act 2006.

(e) A Trade Waste Permit will be required prior to the commencement of use for the food and drink outlet component of the development only (trade waste permit will not be issued for the service station).

(f) Compliance with applicable codes/policies

The development must be carried out to ensure compliance with the provisions of Council's Local Laws, Planning Scheme Policies, Planning Scheme and Planning Scheme Codes to the extent they have not been varied by a condition of this approval.

(g) Compliance with Acts and Regulations

The erection and use of the building must comply with the Building Act and all other relevant Acts, Regulations and Laws, and these approval conditions.

(h) Environmental Protection and Biodiversity Conservation Act 1999

The applicant is advised that referral may be required under the *Environmental Protection and Biodiversity Conservation Act 1999* if the proposed activities are likely to have a significant impact on a matter of national environmental significance. Further information on these matters can be obtained from www.environment.gov.au

(i) Cultural Heritage

In carrying out the activity the applicant must take all reasonable and practicable measures to ensure that no harm is done to Aboriginal cultural heritage (the “cultural heritage duty of care”). The applicant will comply with the cultural heritage duty of care if the applicant acts in accordance with gazetted cultural heritage duty of care guidelines. An assessment of the proposed activity against the duty of care guidelines will determine whether or to what extent Aboriginal cultural heritage may be harmed by the activity. Further information on cultural heritage, together with a copy of the duty of care guidelines and cultural heritage search forms, may be obtained from www.datsip.qld.gov.au
