"1. That in relation to the following development application:

APPLICATION		PREMISES	
APPLICANT	M & G Casey	ADDRESS	182 Kanervo Road, Koah
DATE LODGED	30 May 2017	RPD	Lot 201 on RP843530
TYPE OF APPROVAL	Development Permit		
PROPOSED DEVELOPMENT	Reconfiguring a Lot - Subdivision (1 into 2 lots)		

and in accordance with the Sustainable Planning Act 2009, the applicant be notified that the application for a development permit for the development specified in (A) is:

Approved by Council in accordance with the approved plans/documents listed in (B), subject to assessment manager conditions in (C), assessment manager's advice in (D), relevant period in (E), further permits in (F), and further approvals from Council listed in (G);

And

The assessment manager does consider that the assessment manager's decision conflicts with a relevant instrument.

Details of the conflict with the relevant instrument	Reason for the decision, including a statement about the sufficient grounds to justify the decision despite the conflict
<p>1. The proposed development is in conflict with Performance Outcome PO1 and Acceptable Outcome AO1 of the Reconfiguring a Lot Code:</p> <p>PO1 <i>Lots include an area and frontage that:</i></p> <ul style="list-style-type: none"> (a) <i>is consistent with the design of lots in the surrounding area;</i> (b) <i>allows the desired amenity of the zone to be achieved;</i> (c) <i>is able to accommodate all buildings, structures and works associated with the intended land use;</i> (d) <i>allow the site to be provided with sufficient access;</i> (e) <i>considers the proximity of the land to:</i> <ul style="list-style-type: none"> (i) <i>centres;</i> (ii) <i>public transport services; and</i> (iii) <i>open space; and</i> (f) <i>allows for the protection of environmental features; and</i> (g) <i>accommodates site constraints.</i> <p>AO1.1 <i>Lots provide a minimum area and frontage in accordance with Table 9.4.4.3B.</i></p>	<p>The subject site and surrounding allotments are not mapped as Good Quality Agricultural Land (GQAL). Council considers that the subject land is not suitable for sustainable agricultural production and further, it is improbable that adjoining allotments will be developed for significant agriculture purposes in the future.</p> <p>In assessing the potential for intensive animal husbandry, Council has applied the S-Factor methodology developed for the assessment of meat poultry farms. The typical meat poultry farm established within the Mareeba Shire accommodates up to 200,000 birds. A buffer distance of 845m is calculated for this farm size. Applying this buffer from the centre of the subject land would cover in excess of 30 surrounding rural and rural residential allotments.</p> <p>This demonstrates that it is not possible for intensive animal husbandry to achieve this separation distance. Separation distances for the establishment of a piggery or feedlot are expected to be no less than that required for a meat poultry farm.</p> <p>The subject land is located within the Mareeba Shire Planning Scheme 2004's Preferred Area No 3 - Clohesy River Area.</p> <p>Council at its Ordinary Meeting held on 15 June 2016 requested that Council officers progress an investigation into a potential rural precinct area centred around Koah Road and to encompass all land within Preferred Area No 3 - Clohesy River Area.</p> <p>Whilst this investigation is still ongoing, the proposed development is considered to be consistent with this long term planning intent and represents the highest and best use of the subject land.</p>

"1. That in relation to the following development application:

APPLICATION		PREMISES	
APPLICANT	Northern Building Approvals	ADDRESS	215 Malone Road, Mareeba

TYPE OF APPROVAL	Development Permit		
PROPOSED DEVELOPMENT	Reconfiguring a Lot - Subdivision (1 into 2 Lots)

PO1

*The fragmentation or loss of productive capacity of land within the 'Class A' area or 'Class B' area identified on the **Agricultural land overlay maps (OM-001a-n)** is avoided unless:*

- (a) *an overriding need exists for the development in terms of public benefit;*
- (b) *no suitable alternative site exists; and*

- (c) *loss or fragmentation is minimised to the extent possible.*

PO2

*Sensitive land uses in the 'Class A' area, 'Class B' area or the 'Broadhectare rural' area identified on the **Agricultural land overlay maps (OM-001a-n)** are designed and located to:*

- (a) *avoid land use conflict;*
- (b) *manage impacts from agricultural activities, including chemical spray drift, odour, noise, dust, smoke and ash;*

- (d) *facilitates conservation outcomes; or*
- (d) *resolves boundary issues where a structure is built over the boundary line of two lots.*

2. The proposed development is in conflict with Performance Outcome PO1 and Acceptable Outcome AO1 of the Reconfiguring a Lot Code:

 - (i) *centres;*
 - (ii) *public transport services; and*
 - (iii) *open space; and*
- (f) *allows for the protection of environmental features; and*
