The department has carried out a review of the information provided and it has been determined that the proposed development will not require referral for clearing native vegetation. Schedule 10, Part 3, Division 4, table 2, item 1 of the *Planning Regulation 2017* identifies that development applications for reconfiguring a lot that meet the following requirements must be referred:

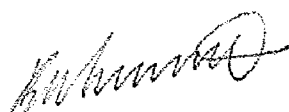

- (a) a lot that the application relates to is 5ha or larger; and
- (b) the size of any lot created is 25ha or less; and
- (c) either-
 - (i) the reconfiguration involves operational work that is assessable development under section 5, other than operational work that is only the clearing of regulated regrowth vegetation; or
 - (ii) on any lot created, accepted operational work, other than operational work that is only the clearing of regulated regrowth vegetation, may be carried out.

The proposed development will not result in an allotment with an area of less than 25ha and therefore referral is not required.

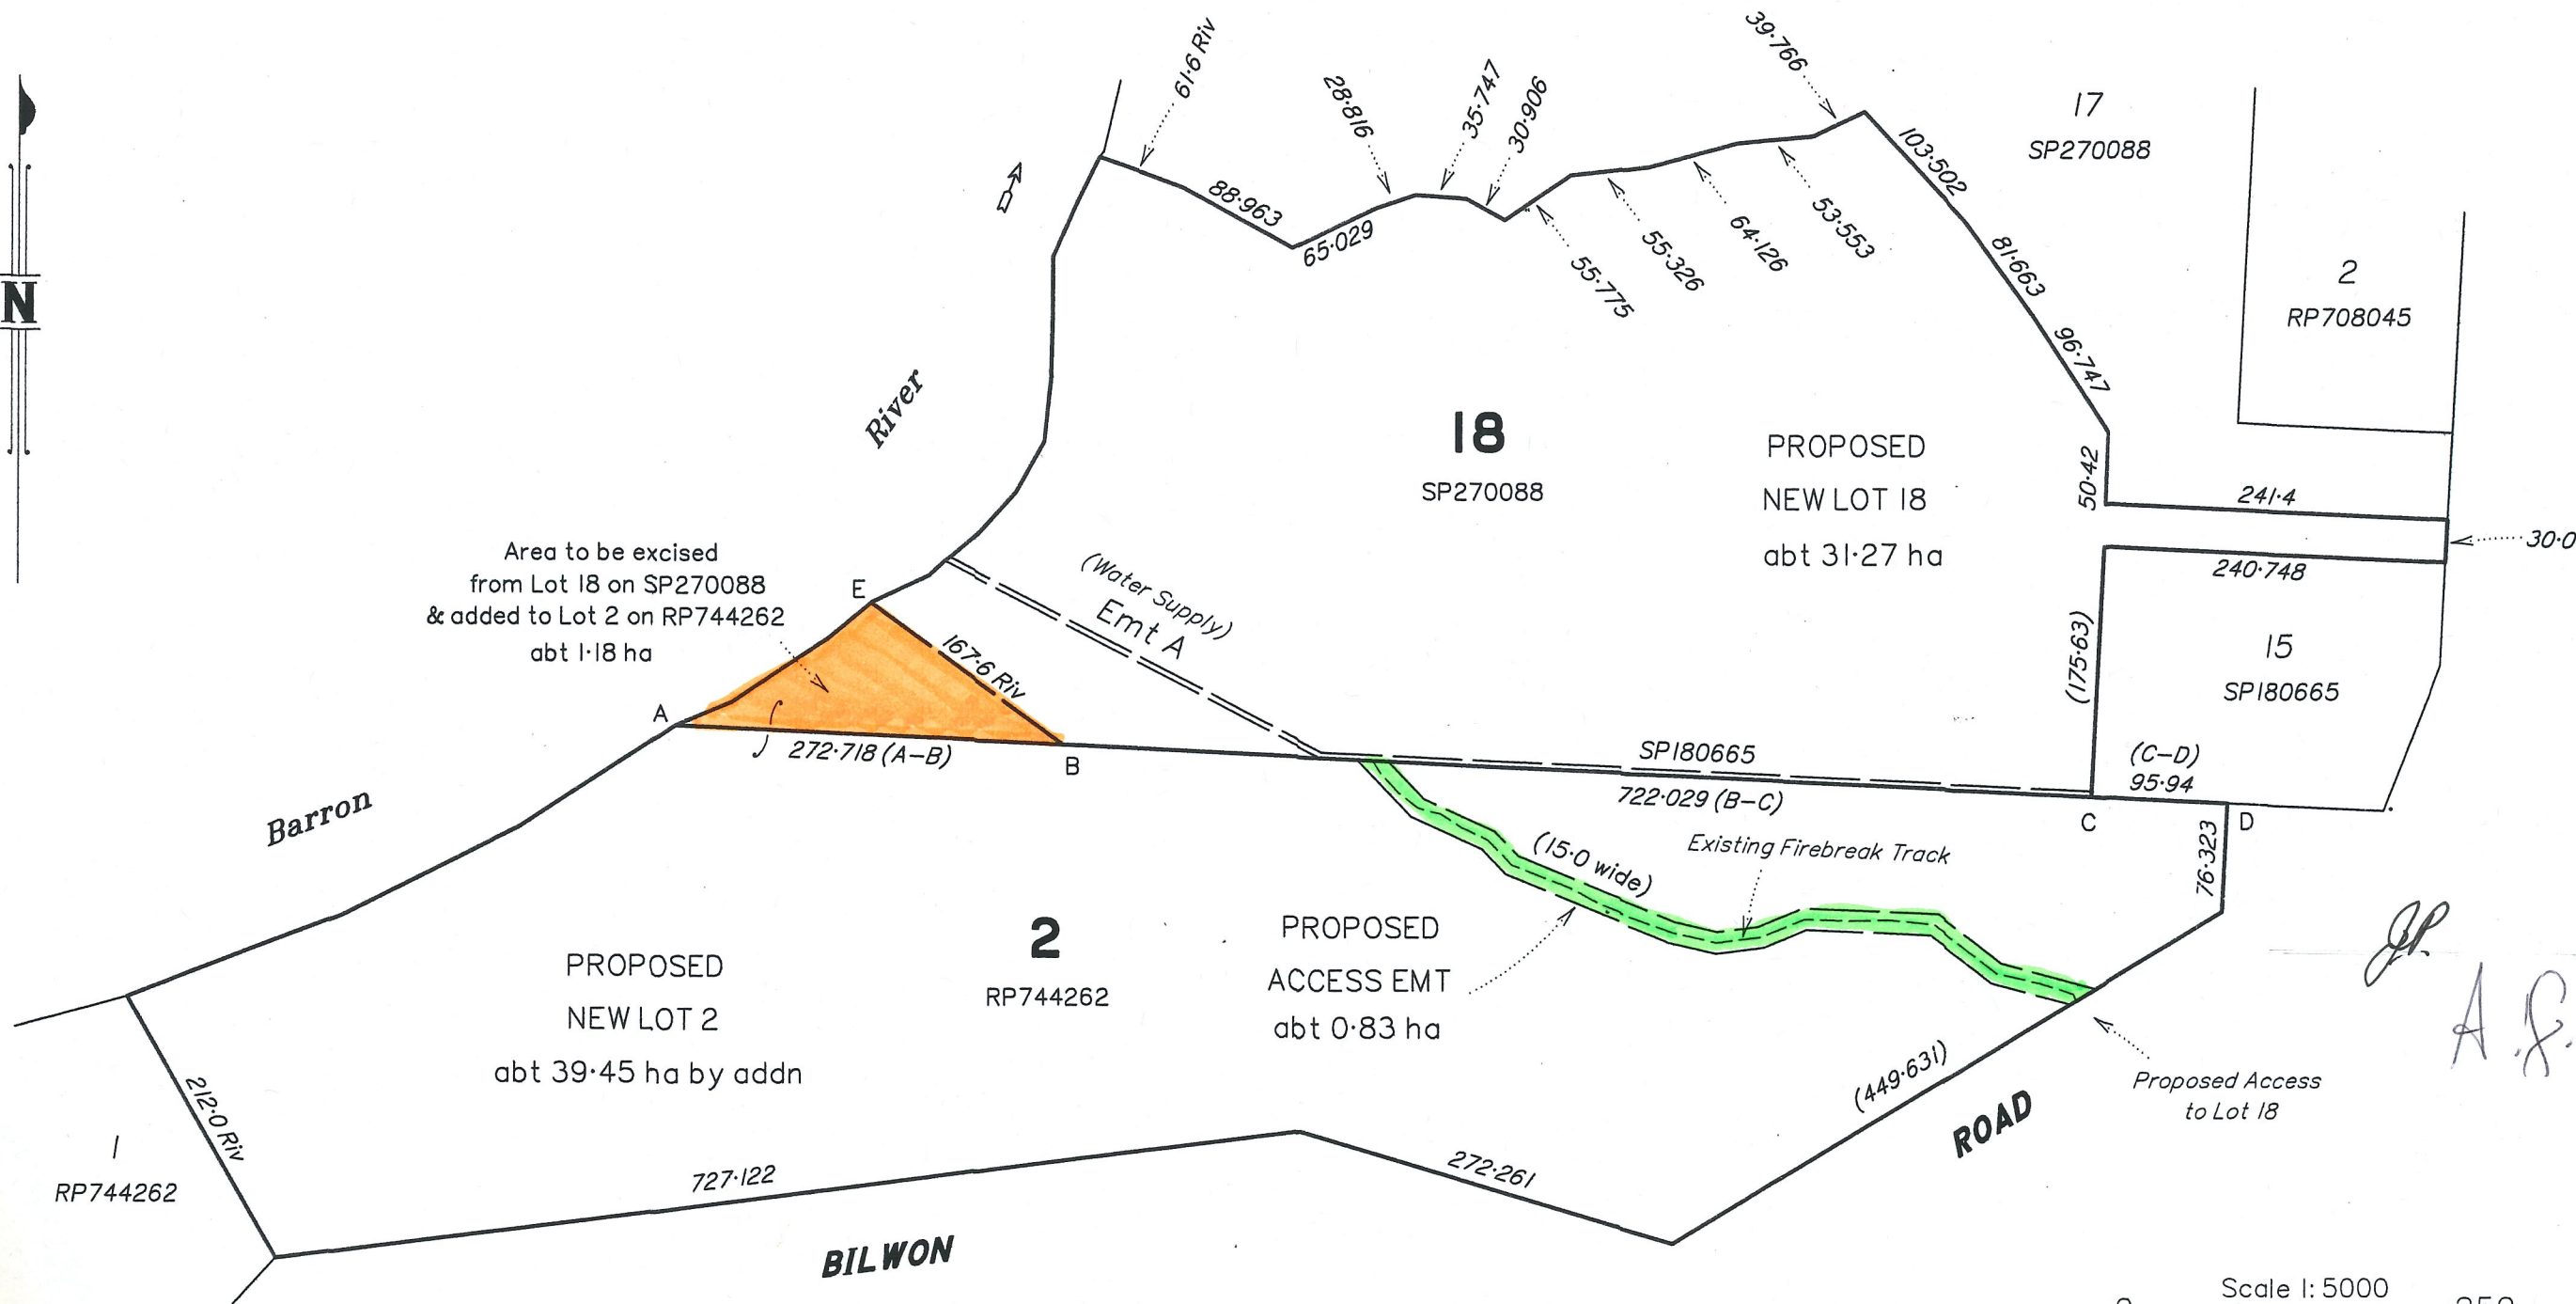

This pre-lodgement advice does not constitute an approval or an endorsement that the department supports the development proposal. Additional information may be required to allow the department to properly assess the development proposal when a formal application has been lodged.

For further information please contact Belinda Jones, Senior Planning Officer, on 0740373239 or via email CairnsSARA@dilgp.qld.gov.au who will be pleased to assist.

Yours sincerely
