Attention: Planning and Approvals – C. Ewin

Dear Carl

**DEVELOPMENT APPLICATION FOR RECONFIGURATION OF A LOT (1 LOT INTO 6 LOTS) & ACCESS EASEMENTS
 19 KULLAROO CLOSE, KURANDA – LOT 2 ON RP734383**

We act on behalf of the Applicants, G. Owen & C. Retter in relation to the abovementioned.

On behalf of the Applicants we now submit to Mareeba Shire Council an application seeking a Development Permit for Reconfiguring a Lot (1 lots into 6 lots) and associated access easements on land located at 19 Kullaroo Close, Kuranda, precisely described as Lot 2 on RP734383. The following has been prepared to assist with Council's assessment of the proposed development:

THE SITE

The subject land is located 19 Kullaroo Close, precisely described as Lot 2 on RP734383. Figure 1 below identifies the subject site.

Figure 1: Satellite image of the subject land (source – Queensland Globe June 2019)

The subject land parcel is irregular in shape and encompasses a total site area of approximately 2.88 hectares. The subject site is located within the Low Density Residential Zone, as identified under the Mareeba Shire Planning Scheme.

The subject land parcel incorporates approximately 30.4 metres of road frontage onto Kullaroo Close and currently contains two (2) existing residential dwellings and associated outbuildings located within the western region of the site. The north and eastern regions of the site are vegetated and is identified as remnant vegetation.

The subject development site is located within an established residential area on the outskirts of the Kuranda Village Centre. The locality is characterised by detached dwellings on traditional to medium sized residential allotments. The subject site adjoins the Jumrum Creek Environmental Park along its northern boundary and the Barron Gorge National Park to the eastern boundary.

The development site is located within 1 kilometre south of the Business and Village Centre of Kuranda and approximately 1.5 kilometres east of the Kennedy Highway at its closest point. The land is fully serviced with access to all required utilities including water supply, stormwater, electricity, telecommunications and sewerage infrastructure. An existing vehicular access point is located on the Kullaroo Close.

Photographs of the site are included with *Attachment C*.

The Title Searches included at *Attachment B* confirms that applicants are the registered owners of the subject land. A current SmartMap and copy of the current survey plan, RP734383 are also included at *Attachment B*, which identifies the existing lot configuration.

CURRENT DEVELOPMENT APPROVAL

A Development Permit for Material Change of Use – Residential Units (Fifteen x2 Bedroom Residential Units) and Reconfiguring a Lot – Subdivision (1 into 15 Standard Format Lots and Common Property) was granted by Council 23 December 2013. The approval has remained current through the applicant's request to extend the currency period.

PROPOSAL

Approval of the Development Application will authorise a Development Permit for Reconfiguring a Lot for the creation of six (6) residential lots. The development of the site will be undertaken in three (3) stages as identified on the plans of proposed reconfiguration, Brazier Motti Drawing No. 31236/003B, 31236/004B & 31236/005A included within *Attachments D-F*.

Details on the proposed staging is provided below.

Stage 1

Stage 1 will create proposed Lots 1, 3, 200 and the associated easements for access, drainage and services as depicted on Brazier Motti Plan 31236/003B included within *Attachment D*. The balance of the developable land will remain within proposed Lot 200. An easement for drainage purposes will be granted in Gross to Council over the natural overland path flow within proposed Lot 200 ensuring the lawful point of discharge is continued for the proposed lots. The natural overland flow path is depicted within Photographs 6, 7 & 10 with *Attachment C*.

Remnant vegetation within proposed Lot 3 will be protected by the means of a statutory covenant for environmental purposes registered on title, depicted as Covenant A on the associated proposal plan. The existing dwellings will be contained within proposed Lots 3 & 200. Environmental covenants over the remaining remnant vegetation will be created during subsequent stages of the development.

The initial section of the driveway contained within the 10.0m wide access strip will be constructed to width of 4.0m from Kullaroo Close allowing passing of vehicles. The remainder of the driveway fronting proposed Lots 4 and 5 will be constructed as part of Stage 3. The access strips/easements are of sufficient width to contain all necessary services. All proposed lots will be connected to Council's existing sewerage infrastructure that currently traverses the southern boundary of the site.

Stage 2

Stage 2 will create proposed Lot 4 as depicted on proposal plan 31236/004B contained within *Attachment E*. Proposed Lot 4 will utilise the driveway constructed during Stage 1. No further works onsite other than connection to services will be required. Emt C will be created within proposed Lot 4 for the future access of lots contained within Stage 3.

Remnant vegetation within proposed Lot 4 will be placed within an environmental covenant.

Stage 3

Stage 3 will develop the balance of the site in creation of Lots 2, 5 & 6 and the associated easements and covenants as depicted in proposal plan 31236/005A within *Attachment F*.

With the remainder of the driveway only servicing proposed Lots 4-6, the access strip within proposed Lots 4 & 5 will be reduced to 8.0m and constructed driveway width to 3.0m. The constructed driveway will extend the full length of the access strip to the western boundary of proposed Lot 6.

PLANNING ACT 2016 CONSIDERATIONS

The table below provides an overview of the legislative context of the development application under the provisions of the *Planning Act 2016* and *Planning Regulation 2017*.

| | |
|-------------------------------|---|
| Assessable Development | The proposed development constitutes assessable development under the Mareeba Shire Planning Scheme. Accordingly, pursuant to Section 44(3) of the <i>Planning Act 2016</i> a development approval is required. |
| Assessment Manager | Pursuant to Schedule 8 of the <i>Planning Regulation 2017</i> the Assessment Manager for this development application is Mareeba Shire Council. |
| Category of Assessment | The Mareeba Shire Planning Scheme identifies that the proposed development is Code Assessable development. |
| Public Notification | The Application is Code Assessable, therefore, in accordance with section 53 of the <i>Planning Act 2016</i> public notification is not required. |
| Referrals | The application does not trigger referral to any referral agencies. |

MAREEBA SHIRE COUNCIL PLANNING SCHEME

Under the Mareeba Shire Planning Scheme the site is included in the Low Density Residential Zone. The Table of Assessment for the Low Density Residential Zone identifies that Reconfiguring a Lot is Code Assessable.

The table below provides an overview of the planning scheme elements applicable to the subject land and the proposed development provisions under the Mareeba Shire Planning Scheme:

| | |
|-------------------|--|
| Zone | Low Density Residential Zone |
| Local Plan | Not Applicable |
| Overlays | <ul style="list-style-type: none"> • Environmental Significance Overlay (wildlife habitat) • Hill and Slope Overlay • Residential Dwelling House and Outbuilding Overlay • Transport Network Overlay (Access Road) |

The Table of Assessment also identifies that the proposed development is assessable against the following planning scheme codes:

| Applicable Codes | Low Density Zone Code Environmental Significance Overlay Code Hill and Slope Overlay Code Residential Dwelling House and Outbuilding Overlay Code Transport Infrastructure Overlay Code Landscaping Code Parking and Access Code Works, Services and Infrastructure Code Reconfiguring a Lot Code |
|------------------|---|
|------------------|---|

All aspects of the proposed development are considered to be generally consistent with the relevant acceptable measures and/or performance criteria of each of the applicable codes identified above. An assessment against the applicable codes is provided below:

LOW DENSITY RESIDENTIAL ZONE CODE

The subject lot is included in the Low Density Residential Zone. The purpose of the Low Density Residential Zone is to provide for predominantly dwelling houses supported by community uses and small-scale services and facilities to cater for local residents.

Taking into the consideration of constraints on the subject land (vegetation and slope), the proposed reconfiguration is of a scale and nature that contributes to the proper and orderly development of the locality and is unlikely to have any significant impacts on the infrastructure, environment or community of the surrounding area.

The proposal is considered consistent with the purpose of the Low Density Residential Zone and provides allotments which are of sufficient size and dimensions to allow for an appropriate building envelope, provision of associated utilities, vehicle crossover, parking and private open space.

ENVIRONMENTAL SIGNIFICANCE OVERLAY CODE

The subject land is identified as having areas described a wildlife habitat. Accordingly assessment against the Environmental Significance Overlay Code is applicable.

Statutory covenants will be registered on title for the protection of remnant vegetation within the proposed lots. Each proposed lot contains sufficient area clear of vegetation to site a dwelling and associated infrastructure. No further clearing of remnant vegetation will be required as a result of the development.

Overall it is considered that the proposed development achieves consistency with the applicable acceptable and performance outcomes of the Environmental Significance Overlay Code

HILL AND SLOPE OVERLAY CODE

The subject land is identified as being within the Hill and Slope Area. Accordingly assessment against the Hill and Slope Overlay Code is applicable.

While the areas of site is identified as being within the hillslopes area, the topography of the cleared area of proposed Lot 4 is quite usable and will not require complex engineering solutions. Photographs 5-7 contained within *Attachment C* further reinforces that the subject land is usable and suitable for the proposed development.

It is considered that the proposed development will not have an impact on the ecological values, landscape character or scenic amenity of the hillslopes.

Overall it is considered that the proposed development achieves consistency with the applicable Acceptable and Performance Outcomes of the Hill and Slope Overlay Code

RESIDENTIAL DWELLING AND OUTBUILDING OVERLAY CODE

The purpose of the Residential Dwelling and Outbuilding Overlay Code is to ensure that dwelling houses, including residential outbuildings, are appropriately designed, located and serviced within the residential areas of the shire.

The proposed development seeks to create six (6) residential lots. The code will be addressed at the time that dwellings are constructed within the proposed lots.

TRANSPORT INFRASTRUCTURE OVERLAY CODE

The purpose of the Transport Network Overlay Code is to ensure that development provides transport infrastructure that supports a safe, efficient transport network, including the active transport network.

Access to the site will continue to be via Kullaroo Close. No new roads are required to service the development. Proposed Lot 1 will be accessed directly from Kullaroo Close via the existing crossover. Proposed Lots 2-6 will be accessed via a shared driveway. Vehicle crossovers and driveways will be constructed in accordance with the requirements of the FNQROC Development Manual.

Overall, the proposed development is consistent with intended role and function of the transport network, does not compromise the safety and efficiency of Kullaroo Close and is consistent with the Transport Network Overlay Code.

LANDSCAPING CODE

The Landscaping Code seeks to ensure all development is landscaped to a standard that compliments site and locality.

It is intended to provide landscaping within the access strips contained within proposed Lots 2, 4 & 5. The approval can be appropriately conditioned to ensure that landscaping will be undertaken within the access strips.

Overall it is considered that the proposed development achieves consistency with the applicable acceptable outcomes and performance outcomes of the Landscaping Code.

PARKING AND ACCESS CODE

The Parking and Access Code seeks to ensure sufficient parking is designed to service new developments.

The proposed development seeks to create six (6) low density residential lots. Proposed Lot 1 will be accessed directly from Kullaroo Close via the existing crossover. Proposed Lots 2-6 will be accessed via shared driveway.

With a width of 10m, the initial section of the access strip from Kullaroo Close is of sufficient width to contain a 4.0m driveway, passing bay, service conduits, drainage infrastructure and landscaping. As the remainder of the driveway only services proposed Lots 4-6, the access strip within proposed Lots 4 & 5 will be reduced to 8.0m and constructed driveway width to 3.0m. The constructed driveway will extend the full length of the access strip to the western boundary of proposed Lot 6.

The access crossover and driveways will be constructed in accordance with FNQROC standards. Access and services easements will be created over the access strips to provide lawful access to the respective lots. All proposed lots are of sufficient area to accommodation the required parking in accordance with Table 9.4.3.3B.

Overall it is considered that the proposed development achieves consistency with the applicable acceptable outcomes and performance outcomes of the Parking and Access Code.

WORKS, SERVICES AND INFRASTRUCTURE CODE

The Infrastructure Works Code seeks to ensure that development is safely and efficiently serviced by and connected to infrastructure.

The proposed development will seek to utilise the existing infrastructure services which are available to the site, this will include connection to Council's water supply, sewerage network, stormwater, electricity and

telecommunications. Connections to each of the required infrastructure services will be undertaken in accordance with the specifications of the FNQROC Development Manual.

The development can be appropriately conditioned requiring connections to the applicable services.

Overall it is considered that the proposed development achieves consistency with the applicable acceptable outcomes and performance outcomes of the Infrastructure Works Code.

RECONFIGURING A LOT CODE

The Reconfiguring a Lot Code seeks to ensure that development results in lots that are suitable for their intended use, locality, are of a high standard of amenity, and provide all necessary infrastructure and services.

The proposed reconfiguration seeks to subdivide the existing allotment to create six (6) residential allotments and associated access easements. The proposed allotments are fairly regularly shaped and have areas that range from approximately 848m² to approximately 1.1ha. All lots have sufficient cleared areas to site a dwelling and associated infrastructure. It can be noted that the cleared, non-constrained areas with the proposed lots are greater than the minimum areas specified by Table 9.4.43B.

All proposed lots will be provided will appropriate access to Kullaroo Close and connections to the required services. The existing dwellings and structures contained within proposed Lots 2 & 3 are located greater than 2.0m from the proposed boundaries.

The proposed reconfiguration responds to the constraints on the land and the amenity to the surrounding locality. Overall it is considered that the proposed development achieves consistency with the applicable Acceptable and Performance Outcomes of the Reconfiguring a Lot Code.

CONCLUSION

The abovementioned has demonstrated that the proposed Reconfiguration of a Lot at 19 Kullaroo Close, Kuranda has been assessed against the assessment benchmarks of the Mareeba Shire Planning Scheme and is considered to comply with the relevant provisions.

Taking into the consideration of constraints on the subject land, the proposed reconfiguration is of a scale and nature that contributes to the proper and orderly development of the locality and is unlikely to have any significant impacts on the infrastructure, environment or community of the surrounding area.

The proposal is considered consistent with the purpose of the Low Density Residential Zone and provides allotments which are of sufficient size and dimensions to allow for an appropriate building envelope, provision of associated utilities, vehicle crossover, parking and private open space.

Accordingly, subject to the imposition of reasonable and relevant conditions, we request that Council issue a Development Permit for Reconfiguring of a Lot as detailed in above.

DA Form 1 – Development application details

Approved form (version 1.1 effective 22 JUNE 2018) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot)**, use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the *Planning Act 2016*, the *Planning Regulation 2017*, or the *Development Assessment Rules (DA Rules)*.

5) Are there any existing easements over the premises?

Note: Easement uses vary throughout Queensland and are to be identified correctly and accurately. For further information on easements and how they may affect the proposed development, see [DA Forms Guide](#).

- ☐ Yes – All easement locations, types and dimensions are included in plans submitted with this development application
- ☒ No

PART 3 – DEVELOPMENT DETAILS

Section 1 – Aspects of development

6.1) Provide details about the first development aspect

a) What is the type of development? *(tick only one box)*

- ☐ Material change of use ☒ Reconfiguring a lot ☐ Operational work ☐ Building work

b) What is the approval type? *(tick only one box)*

- ☐ Development permit ☐ Preliminary approval ☐ Preliminary approval that includes a variation approval

c) What is the level of assessment?

- ☒ Code assessment ☐ Impact assessment *(requires public notification)*

d) Provide a brief description of the proposal *(e.g. 6 unit apartment building defined as multi-unit dwelling, reconfiguration of 1 lot into 3 lots):*

ROL – 1 lot into 6 lots with associated easements in 3 stages.

e) Relevant plans

Note: *Relevant plans are required to be submitted for all aspects of this development application. For further information, see [DA Forms guide: Relevant plans](#).*

- ☒ Relevant plans of the proposed development are attached to the development application

6.2) Provide details about the second development aspect

a) What is the type of development? *(tick only one box)*

- ☐ Material change of use ☐ Reconfiguring a lot ☐ Operational work ☐ Building work

b) What is the approval type? *(tick only one box)*

- ☐ Development permit ☐ Preliminary approval ☐ Preliminary approval that includes a variation approval

c) What is the level of assessment?

- ☐ Code assessment ☐ Impact assessment *(requires public notification)*

d) Provide a brief description of the proposal *(e.g. 6 unit apartment building defined as multi-unit dwelling, reconfiguration of 1 lot into 3 lots):*

e) Relevant plans

Note: *Relevant plans are required to be submitted for all aspects of this development application. For further information, see [DA Forms Guide: Relevant plans](#).*

- ☐ Relevant plans of the proposed development are attached to the development application

6.3) Additional aspects of development

- ☐ Additional aspects of development are relevant to this development application and the details for these aspects that would be required under Part 3 Section 1 of this form have been attached to this development application
- ☒ Not required

Section 2 – Further development details**7) Does the proposed development application involve any of the following?**

| | |
|------------------------|--|
| Material change of use | <input type="checkbox"/> Yes – complete division 1 if assessable against a local planning instrument |
| Reconfiguring a lot | <input checked="" type="checkbox"/> Yes – complete division 2 |
| Operational work | <input type="checkbox"/> Yes – complete division 3 |
| Building work | <input type="checkbox"/> Yes – complete <i>DA Form 2 – Building work details</i> |

Division 1 – Material change of use

Note: This division is only required to be completed if any part of the development application involves a material change of use assessable against a local planning instrument.

8.1) Describe the proposed material change of use

| Provide a general description of the proposed use | Provide the planning scheme definition (include each definition in a new row) | Number of dwelling units (if applicable) | Gross floor area (m ²) (if applicable) |
|---|--|---|---|
| | | | |
| | | | |
| | | | |

8.2) Does the proposed use involve the use of existing buildings on the premises?

| | | |
|------------------------------|--|--|
| <input type="checkbox"/> Yes | | |
| <input type="checkbox"/> No | | |

Division 2 – Reconfiguring a lot

Note: This division is only required to be completed if any part of the development application involves reconfiguring a lot.

9.1) What is the total number of existing lots making up the premises?

1

9.2) What is the nature of the lot reconfiguration? (tick all applicable boxes)

10) Subdivision**10.1) For this development, how many lots are being created and what is the intended use of those lots:**

| Intended use of lots created | Residential | Commercial | Industrial | Other, please specify: |
|------------------------------|-------------|------------|------------|------------------------|
| | | | | |
| Number of lots created | 6 | | | |

10.2) Will the subdivision be staged?

- ☒ Yes – provide additional details below
- ☐ No

| | |
|---|-----|
| How many stages will the works include? | 3 |
| What stage(s) will this development application apply to? | 1-3 |

11) Dividing land into parts by agreement – how many parts are being created and what is the intended use of the parts?

| | | | | |
|-------------------------------|-------------|------------|------------|------------------------|
| Intended use of parts created | Residential | Commercial | Industrial | Other, please specify: |
| Number of parts created | | | | |

12) Boundary realignment

12.1) What are the current and proposed areas for each lot comprising the premises?

| Current lot | | Proposed lot | |
|-------------------------|------------------------|-------------------------|------------------------|
| Lot on plan description | Area (m ²) | Lot on plan description | Area (m ²) |

13) What are the dimensions and nature of any existing easements being changed and/or any proposed easement? (attach schedule if there are more than two easements)

| Existing or proposed? | Width (m) | Length (m) | Purpose of the easement? (e.g. pedestrian access) | Identify the land/lot(s) benefitted by the easement |
|-----------------------|-----------|------------|---|---|
| Proposed Emt A | 10 | 56.1 | Access & Services | 1, 3-6 |
| Proposed Emt C | 8 | 50.4 | Access & Services | 5 & 6 |
| Proposed Emt D | 8 | 39.2 | Access & Services | 6 |

Division 3 – Operational work

Note: This division is only required to be completed if any part of the development application involves operational work.

14.1) What is the nature of the operational work?

- | | | |
|--|-------------------------------------|--|
| <input type="checkbox"/> Road work | <input type="checkbox"/> Stormwater | <input type="checkbox"/> Water infrastructure |

| <input type="checkbox"/> Other – please specify: <table border="1" style="display: inline-table; width: 300px; height: 20px;"></table> | | |

14.2) Is the operational work necessary to facilitate the creation of new lots? (e.g. subdivision)

- | | |
|--|--|
| <input type="checkbox"/> Yes – specify number of new lots: | |
| <input type="checkbox"/> No | |

14.3) What is the monetary value of the proposed operational work? (include GST, materials and labour)

\$

PART 4 – ASSESSMENT MANAGER DETAILS

15) Identify the assessment manager(s) who will be assessing this development application

Mareeba Shire Council

16) Has the local government agreed to apply a superseded planning scheme for this development application?

- ☐ Yes – a copy of the decision notice is attached to this development application
- ☐ Local government is taken to have agreed to the superseded planning scheme request – relevant documents attached
- ☒ No

PART 5 – REFERRAL DETAILS

17) Do any aspects of the proposed development require referral for any referral requirements?

Note: A development application will require referral if prescribed by the Planning Regulation 2017.

☒ No, there are no referral requirements relevant to any development aspects identified in this development application – proceed to Part 6

Matters requiring referral to the **Chief Executive of the Planning Regulation 2017:**

- ☐ Clearing native vegetation
- ☐ Contaminated land (*unexploded ordnance*)
- ☐ Environmentally relevant activities (ERA) (*only if the ERA have not been devolved to a local government*)
- ☐ Fisheries – aquaculture
- ☐ Fisheries – declared fish habitat area
- ☐ Fisheries – marine plants
- ☐ Fisheries – waterway barrier works
- ☐ Hazardous chemical facilities
- ☐ Queensland heritage place (*on or near a Queensland heritage place*)
- ☐ Infrastructure – designated premises
- ☐ Infrastructure – state transport infrastructure
- ☐ Infrastructure – state transport corridors and future state transport corridors
- ☐ Infrastructure – state-controlled transport tunnels and future state-controlled transport tunnels
- ☐ Infrastructure – near a state-controlled road intersection
- ☐ On Brisbane core port land near a State transport corridor or future State transport corridor
- ☐ On Brisbane core port land – ERA
- ☐ On Brisbane core port land – tidal works or work in a coastal management district
- ☐ On Brisbane core port land – hazardous chemical facility
- ☐ On Brisbane core port land – taking or interfering with water
- ☐ On Brisbane core port land – referable dams
- ☐ On Brisbane core port land - fisheries
- ☐ Land within Port of Brisbane's port limits
- ☐ SEQ development area
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – tourist activity or sport and recreation activity
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – community activity
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – indoor recreation
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – urban activity
- ☐ SEQ regional landscape and rural production area or SEQ rural living area – combined use
- ☐ Tidal works or works in a coastal management district
- ☐ Reconfiguring a lot in a coastal management district or for a canal
- ☐ Erosion prone area in a coastal management district
- ☐ Urban design
- ☐ Water-related development – taking or interfering with water
