The developer is to pay all costs (including Council's legal expenses) to prepare and register the easement documents.
- 3.5 All works must be designed, constructed and carried out in accordance with FNQROC Development Manual requirements (as amended) and to the satisfaction of Council's delegated officer.

- 4 Infrastructure Services and Standards (not applicable for Lot 2)
- 4.1 Access
- (a) Access to each allotment must be constructed (from the edge of the road pavement to the property boundary of each lot) in accordance with the FNQROC Development Manual, to the satisfaction of Council's delegated officer.
- The provision of roll-over kerb along the frontage of each allotment will satisfy this condition.
- (b) A driveway crossover application must be submitted, the relevant fee paid, and the final works inspected and approved prior to the endorsement of any plan of survey creating any lot/s that incorporates a dwelling/s and associated driveway/s. The applicant/developer may construct multiple driveway/access crossovers at one time which can be considered under the one driveway crossover application.

- (c) Concrete, steel or timber bollards must be installed around the final Merindah Close turn-around treatment (stage 2 civil works) at appropriate intervals to ensure vehicle traffic does not travel directly between Emerald End Road and Merindah Close (and vice-versa), to the satisfaction of Council's delegated officer.

4.5 Water Supply

(a) Where the existing reticulated water supply does not currently service the site or is not at an adequate capacity, the developer is required to extend or upgrade the reticulated water supply infrastructure to connect the site to Council's existing infrastructure at a point that has sufficient capacity to service the development in accordance with FNQROC Development Manual standards (as amended).
