**PHYSICAL FEATURE BOUNDARY REPORT**

Emerald Creek was surveyed on RP708066 in 1932.

The land around the creek is generally flat and the bank is well defined and vegetated. The natural feature adopted as the boundary, being the top of the bank, satisfies the location criteria. Station C and D give good agreement with the original location. However, north of station C (between A-C) there has been a significant movement west away from the other side of the creek. Differences in this section were up to 37m from the original location as noted in Diagram A.

There is no evidence of man-made interference or sudden events. It would appear that the movement, has been by gradual and imperceptible. RP734547 surveyed in 1978 has noted the changed location in the vicinity of Stn 12. It appears that RP734547 has located the toe of the high batter as the feature. Therefore, the current location of the bank has been determined by field survey under s.108 of the SMIA.

The balance of Emerald Creek was plotted from the original field notes and overlaid onto current imagery in QLD Globe (Mareeba\_2018\_10cm\_SISP\_Urban). The comparison shows that the creek bank is to the greatest practicable extent in the same location as surveyed on RP708066.

Site inspection confirms that the original survey adopted the bank of the creek. The feature satisfies the location criteria in s.100 of the SMIA in that it is a reasonably stable location due to the presence of remnant riparian vegetation and is not in the bed of the watercourse. The creek appears to be in the same location as surveyed on RP708066 in 1931. Therefore, it is a First New Plan of Survey under Section 108 of the SMI Act 2003.

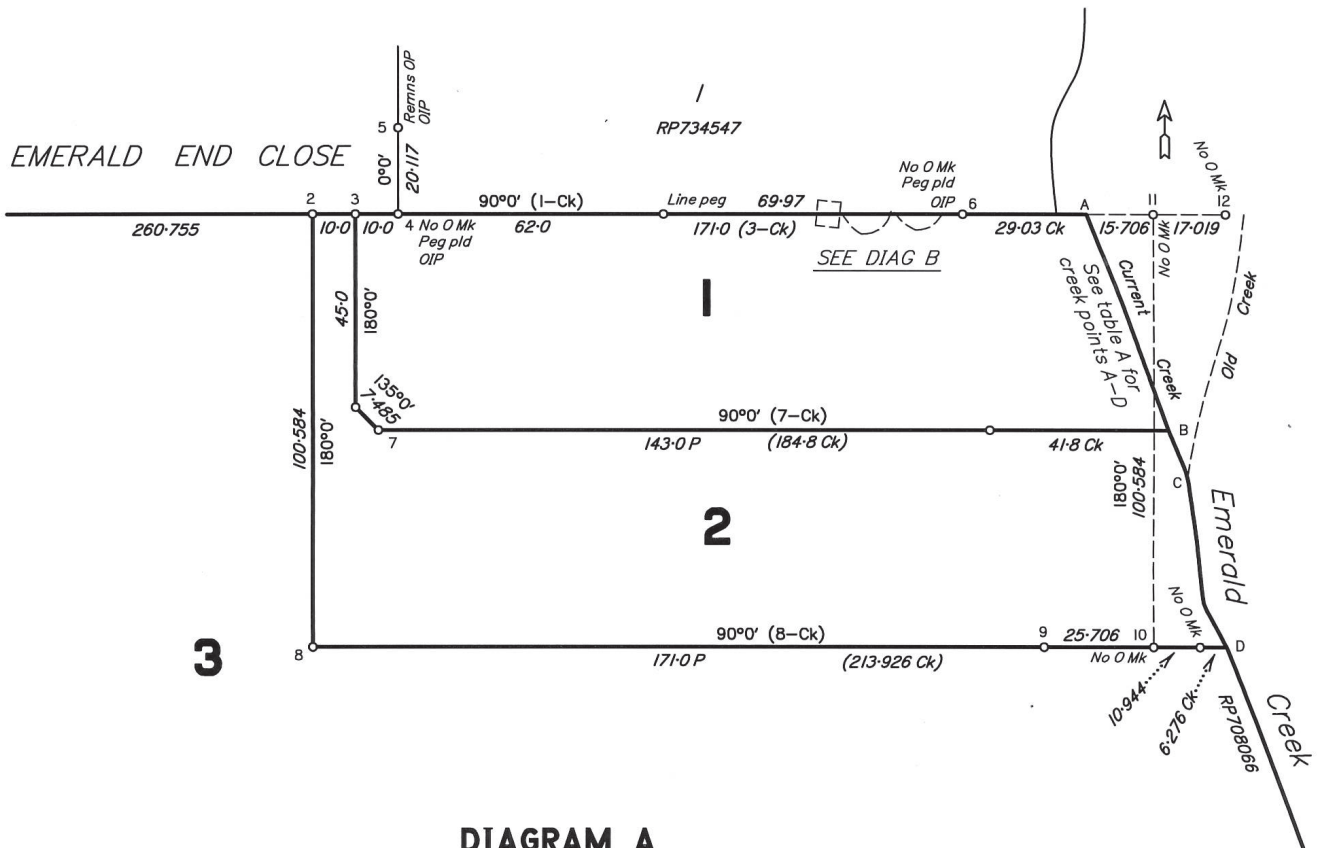

**SURVEY REPORT**

Plans Searched: IS248515, RP708066, RP719108, RP734547 and RP912860.

Original reference marks found at Stns 1, 4, 5 & 6 reinstated the alignment of the northern boundary of the site. The distance between Stns 1 & 4 measured a shortage of 0.075 while the distance between Stns 4 & 6 measured an excess of 0.060. The old marks found at Stn 5 confirmed the reinstatement of Stn 4.
