To Whom it may concern,

Thank you for considering my project. My name is Yolande Martin, I am a long-time resident of Kuranda and I am seeking Council approval for a small business development in the heart of Kuranda.

My business development proposal is for a small, simple health-conscious food and beverage trailer, to be situated at the rear of the private property: Number 5 Coondoo street, Kuranda. Lot 407 on NR7409. The site would be on one side of the vacant land to use as a food and beverage take away outlet, (as a mobile or permanent outlet).

(**please see photos and topography of site).

Due to the current Covid situation, a lot of small business in Kuranda have not survived, due to high rents, overheads and lack of tourist trade. I have searched for other sites in town, and all available venues are out of my rental budget, and unrealistic for most residents to take on, because of the high rent still being asked for these places. For instance, even a small, relaxed café within the Original Rainforest Market is \$600 a week in rent alone.

I have conversed with Carl Erwin in town planning and Robert D'Adonna in Food Health and Safety thoroughly regarding my application for this approval for the new project.

The main public carpark situated off Thooree street Kuranda, is the main car parking area all residents and tourists use to access all parts of Kuranda town. Residents park here daily to access all their local major facilities in town, including markets, cafes, shops, Kuranda Medical Centre, Foodworks, Post office and Possum Corner Op shop etc.

Both the Post Office and Possum Corner Op Shops' entry points are fronted by this car park and it is the main access to these businesses (right next door to my proposed site). It is the main preferred parking hub for everyone, as parking spaces along the side streets and main streets of Kuranda are limited.

The site is a one-off exclusive site for this type of venture. There is no other parcel of private land within the commercial zone that would be used as a food and beverage outlet. Thus, renders it a one-off approval for council to consider, there would not be another viable property for a similar development to occur on in the future. Also, as the site is not as well exposed as other premises, the hidden charm of this site could become a special and convenient space for tourists and locals to enjoy healthy eating options and local coffee. Locals have stated there is a lack of variety and privacy when eating out in Kuranda. An open-air vibe doesn't really exist here and would be very popular for locals.

Below are the main key issues which remedies are stated underneath each:

Main Key Issues:

1) Public access

Through car park for village centre (as for Post office and Possum Corner), Main Coondoo street, and surround side streets.

2) Grey water and electricity

There is a possibility an electricity meter box may be installed at my own cost on the wall behind where the trailer would be located, so I would have its own mains supply. If not, it is a mobile set-up with silent generator. The trailer is fully functional for mobile use, it contains holding tanks for grey water and fresh water to be taken away and disposed of, or there is a possibility to connect to the building sewage which is located only a few meters away from the trailer. As the business will be predominately take away, there are no dishes or cutlery to wash up, therefore the daily water usage and grey water output will be extremely minimal. (approx. 50-60litres/day).

3) Cyclone Season

If a cyclone is developing, being fully road registered, I will relocate the trailer to a farming friends industrial shed on the tablelands to store until the cyclone has passed.

4) Sale of Council land in future

If Council in the future sells this land off to a private vendor, I will simply relocate this business elsewhere if the new owner declines to continue to allow access to the site. One of the main benefits of this little project is the set-up costs are very minimal on the site, so there will not be much financial loss if I need to close and move on.

To summarize, a business opportunity as such in this proposal does not come about very often, where rent and overheads are achievable and a necessity during these difficult economic times. Support and an approved decision from Council would be an incredibly positive step for residents like myself trying their best to survive and keep growth and business alive in the town, especially amidst the Covid crisis. As jobseeker is at an end, I also hope to employ local youth when I can, as I have done in the past. I aim to provide them with training in hospitality and barista skills. These skills are priceless and will give these young adults a chance to start their future wherever they wish to place themselves in the world.

I will also source all my fresh products from local tableland growers when ever I can.

The town residents are really suffering a lack of venues with healthy take away options due to outlet closures and have stated they are starving for any new fresh local outlets opening. So, I ask to please consider this small development with an open mind and as something positive for all parties involved. The town really needs support for its small businesses to thrive once again.

Yolande Martin
