# 3.0 Introduction

#### 3.1 Overview

Veris has been commissioned by M. David ('the applicant') to prepare and lodge an application for a Development Permit for a Reconfiguration of a Lot (1 lot into 3), on land located at 27 Spena Road, Mareeba, precisely described as Lot 11 on SP101832 ('the site').

The proposed reconfiguration is depicted on Proposal Plan 30824-01D, Appendix 8.

Pursuant to the *Mareeba Shire Council Planning Scheme 2016*, the site is located within the Rural Zone as indicated by Figure 1. An application for a Reconfiguration of a Lot within the Rural Zone is Code assessable development.

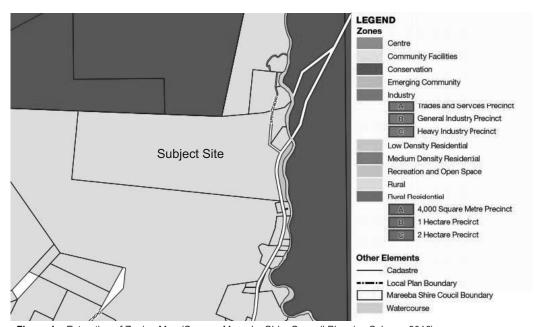

Figure 1 – Extraction of Zoning Map (Source: Mareeba Shire Council Planning Scheme 2016)

# 4.0 Context Analysis

# 4.1 Local Context Analysis

The site is located approximately 20km from the centre of Mareeba and accessed via Spena Road.

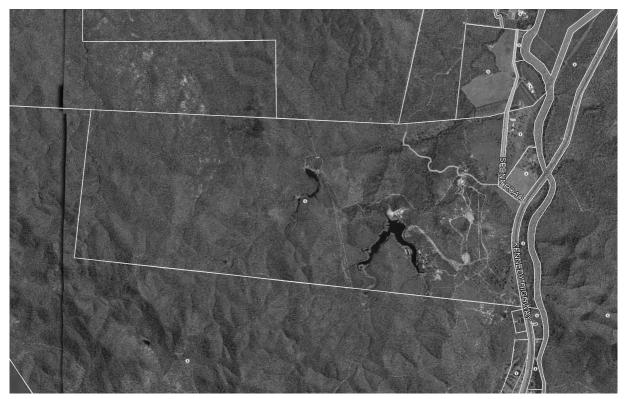

Figure 2 – Location of site (source – Google Earth)

Table 1 – Land uses surrounding the subject sites.

| DIRECTION | LAND USE                         |
|-----------|----------------------------------|
| North     | Bilwon State Forest & Rural uses |
| South     | Rural uses                       |
| East      | Rural uses and Kennedy Highway   |
| West      | Rural uses                       |

#### 4.2 Site Analysis

The following section details an analysis of the site with regards to its features and the immediate vicinity.

# 4.2.1 Ownership & Tenure

The registered owner of the site is Maxwell Peter Davd. Refer to Current Title Search in Appendix 5.

#### 4.2.2 Easements

The site is benefited by Easement A on SP136209 within Lot 10 on SP101832

#### 4.2.3 Existing Land Use

The site is a large rural holding containing three (3) residences, numerous dams for water storage with associated infrastructure.

#### 4.2.4 Roads and Site Access

The site has existing direct access to Spena Road. The site is not accessed directly from the Kennedy Highway.

## 4.2.5 General Topography

The eastern region of site has been previously cleared. The western region contains rolling mountainous land that is lightly vegetated.

Planning Assessment Report 30824 / October 2017 © VERIS

VERIS.COM.AU

## 4.2.6 Existing Service Arrangements

| Water              | Water supply is provided via dams onsite                            |
|--------------------|---|
| Sewerage           | The existing dwellings are serviced by on-site effluent disposals.  |
| Stormwater         | Stormwater is managed on site                                       |
| Electricity        | The existing dwellings are connected to electricity.                |
| Telecommunications | The existing dwellings are connected to telecommunication services. |

# 4.2.7 Referral Summary

| Agency      | Trigger  | Type of Referral |
|-------------|--|------------------|
| SARA (DTMR) | <ul> <li>Schedule 10, part 9, division 4, subdivision 2,<br/>table 1 (reconfiguring a lot near a state transport<br/>corridor)</li> </ul>                  | Concurrence      |
|             | <ul> <li>Schedule 10, part 9, division 4, subdivision2, table 3<br/>(reconfiguring a lot that is near a state-controlled<br/>road intersection)</li> </ul> |                  |

# 5.0 Proposal

#### 5.1 Development Summary

The applicant previously obtained a development permit in 2015 for the reconfiguration of the site into two (2) lots, Council reference DA/15/0025. A change in the applicant's circumstances resulted in the approval not being acted upon.

The proposal put before Council is similar to that previously approved, depicted in Figure 3, in that the purpose is to excise the existing residential dwellings and associated infrastructure from the balance of the large rural holding. The proposal will reconfigure the site into three (3) lots as depicted on proposal plan 30824-01D, Appendix 8 and as depicted in Figure 4.

The final lot configuration will result in the in the following lots:

- Proposed Lot 1 412.4ha
- Proposed Lot 2 60.0ha
- Proposed Lot 3 113.2ha

The layout has been designed to follow the lay of the land

The site currently contains three (3) residences, numerous dams for water storage and associated infrastructure. The proposal will result in the two (2) existing residences and their associated infrastructure placed within proposed Lot 2 and one (1) residence within proposed Lot 3. Proposed Lot 1 is currently vacant with sufficient cleared area on the Spena Road frontage to accommodate a future dwelling.

All proposed lots will be accessed via Spena Road, with no direct access provided to the Kennedy Highway. Proposed Lots 2 & 3 will share the existing access to Spena Road. An access easement will be created within proposed Lot 2 benefiting proposed Lots 3 to provide continued use of the existing bitumen driveway.

The layout has been configured to ensure that each proposed lot has access to existing dams providing a reliable water supply.

This proposal is considered minor in nature and demonstrates compliance with the planning scheme.

#### State Government Assessment Provisions 6.0

The development application requires assessment against the Planning Act 2016, other State legislation and supporting planning policies. Consideration of these matters is outlined below.

#### 6.1 Planning Act 2016

The statutory framework for decision making in relation to land use and development within the State of Queensland is contained within the Planning Act 2016 (PACT) and its subordinate legislation (i.e. Planning Regulation 2017).

Pursuant to Section 60(2) of the *Planning Act 2016* to the extent the application involves development that requires code assessment, the assessment manager must decide to approve the application to the extent the development complies with all aspects of the assessment benchmarks for the development; and may decide to approve the application even if the development does not comply with some of the assessment benchmarks.

#### 6.2 State Planning Policy

The State Planning Policy (SPP), which commenced on 3 July 2017, expresses the state's interests in land use planning that are important to protect and enhance through Queensland's continued development. It is a key component of the state's land use planning system that enables responsible development, contributing to a liveable, sustainable and prosperous Queensland.

The Minister has identified that the State Planning Policy is appropriately reflected in the planning scheme in the following ways:

Liveable communities and housing

• Liveable communities

#### Economic growth

- Agriculture
- Tourism

#### Environment and heritage

- Biodiversity
- Coastal environment
- Safety and resilience to hazards

- Housing supply and diversity
- Development and construction
- Mining and extractive resources
- Cultural heritage
- Water quality

Emissions & hazardous activities • Natural hazards (Flood, Bushfire, Landslide, Coastal)

#### Infrastructure

**Planning Assessment Report** 30824 / October 2017 © VERIS

VERIS COM ALI

- Energy and water supply
- Strategic airports and aviation facilities
- State transport infrastructure

As all aspects of the *State Planning Policy* are appropriately reflected in the planning scheme, there is no requirement to assess this development application against the State Planning Policy for this application.

#### 6.3 Development Assessment Rules

The *Planning Act 2016* provides for a new statutory instrument – the Development Assessment Rules (DA Rules) – which is a statutory instrument made under section 68(1) of the *Planning Act 2016*, which sets out the Minister's rules for the development assessment process in Queensland, including the processes and procedural requirements of the planning system.

The DA Rules provide for:

- When a development application may be taken to be properly made
- How and when notification is to be carried out;
- The consideration of properly made submissions;
- · The lapsing of an application;
- The revival of lapsed applications;
- How and when a referral agency may change its response;
- Changing, cancelling and lapsing development approvals.
- The effect of the Native Title Act 1992 (Cwlth) on development assessment.

This code assessable development application is lodged for assessment in accordance with the DA Rules.

#### 6.5 Referral Agencies

Part 2 of the Development Assessment Rules establishes the process and actions required to properly refer an application to a referral agency, where applicable.

The matters triggering referral of an application to either the State Assessment and Referral Agency (SARA) and/or entities not administered by SARA, is contained under Schedules 9 and 10 of the *Planning Regulation* 2017.

Planning Assessment Report 30824 / October 2017 © VERIS

A detailed review of Schedules 9 and 10 has identified the following referrals as being applicable to this development application, and for which referral will be required under Part 2 of the Development Assessment Rules:

- Schedule 10, part 9, division 4, subdivision 2, table 1 (reconfiguring a lot near a state transport corridor)
- Schedule 10, part 9, division 4, subdivision2, table 3 (reconfiguring a lot that is near a state-controlled road intersection)

#### 6.6 State Development Assessment Provisions (SDAP)

The State Assessment and Referral Agency (SARA) delivers a coordinated, whole-of-government approach to the state's assessment of development applications. SARA means that the chief executive of SPA, the Department's Director-General, is the assessment manager or referral agency for development applications where the state has a jurisdiction.

The State Development Assessment Provisions (SDAP) provide assessment benchmarks (i.e. State Codes) for the assessment of development applications where the chief executive is the assessment manager or a referral agency.

Section 55(2) of the Act states that a regulation may prescribe the matters that a referral agency may, must or must only have regard to in its assessment. Each of the referral triggers in schedules 9 and 10 of the regulation specify the matters the referral agency's assessment must be against. For every trigger the chief executive is the referral agency for, the SDAP is specified as the matter the referral agency's assessment must be against. Additionally, section 23 of the regulation specifies other matters a referral agency must have regard to when assessing a development application.

Due to the minor nature of the proposal, the application qualifies to be accessed via the FastTrack5 qualifying criteria chekclist 2 – State Transport Corridor

The completed qualifying criteria checklists for the identified triggers are attached as Appendix 2 of this report. Material that supports this claim for eligibility of the fast track assessment is detailed below.

- Appendix 4 SARA Mapping demonstrates the subject land is not impacted by future TMR planning;
- Appendix 8 Proposal Plan 30824-01D, demonstrates that the site does not and will not have direct
  access to the state controlled road a result of this application.
- There will be no change of topography or stormwater drainage as a result of this application; and
- The existing access is located approximately 300m from the highway.

VERIS.COM.AU

# 7.0 Local Government Assessment Framework

# 6.3 Mareeba Shire Planning Scheme 2016

This section of the report addresses the major assessment criteria of Mareeba Shire Planning Scheme 2016 being the current, applicable document for planning assessment for applications. For the purposes of the current application, the following assessment benchmarks will be assessed.

| Code   | Applicability of Code      | Comment  |
|--|----------------------------|--|
| Zone Code  |                            |  |
| Rural Zone   | The Code is applicable     | The code is not addressed in detail. The proposal considered consistent with the code.   |
| Overlay Codes  |                            |  |
| Agricultural land overlay code                                 | The Code is not applicable | This code is not addressed   |
| Airport environs overlay code                                  | The Code is not applicable | This code is not addressed   |
| Bushfire hazards overlay code                                  | The Code is applicable     | Any new structures constructed within the proposed lots will be located in areas of lower hazard and will be provided adequate firefighting capabilities.              |
| Extractive resources overlay code                              | The Code is not applicable | This code is not addressed   |
| Flood hazards overlay code                                     | The Code is not applicable | This code is not addressed   |
| Heritage overlay code  | The Code is not applicable | The code is not addressed  |
| Hill and slope overlay code                                    | The Code is applicable.    | The code is not addressed in detail. A site-<br>specific geo-technical report will be prepared for<br>any new building constructed on a slope of 15%                   |
|  |                            | or greater.  |
| Regional infrastructure corridors and substations overlay code | The Code is not applicable | The code is not addressed  |
| Residential dwelling house and outbuilding overlay code        | The Code is not applicable | The code is not addressed  |
| Scenic amenity overlay code                                    | The Code is not applicable | The code is not addressed  |
| Transport network overlay code                                 | The Code is applicable     | There will be no impact on the Transport Network as a result of this proposal. The proposal will not result in additional access points onto the state-controlled road |

Planning Assessment Report 30824 / October 2017 © VERIS

| Code                                    | Applicability of Code      | Comment   |
|---|----------------------------|---|
| Development Codes                       |                            |   |
| Reconfiguration of a Lot Code           | The Code is not applicable | This code is addressed. See appendix 9  |
| Landscaping code                        | The Code is not applicable | This code is not addressed.   |
| Parking and access code                 | The Code is applicable     | The Code is not addressed   |
| Works, services and infrastructure code | The Code is not applicable | This code is not assessed in detail. Each lot will be provided level of service in accordance with this code. |

# 8.0 Conclusion of Assessment

#### 7.1 Conclusion

The Assessment Report has demonstrated that the proposal represents a beneficial outcome that accords with the relevant codes of the *Mareeba Shire Planning Scheme 2016* and State Development Assessment Provisions.

The layout and circumstances of this proposal is considered consistent with the planning scheme.

It is recommended that the proposed development be considered favourably by Council and approved subject to reasonable and relevant conditions.

Appendix 1 DA Form 1

# DA Form 1 – Development application details

Approved form (version 1.0 effective 3 July 2017) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development**, use this form (*DA Form 1*) **and** parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

**Note:** All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

The *Planning Act 2016*, the Planning Regulation 2017 and the DA Rules are administered by the Department of Infrastructure, Local Government and Planning. This form and all other required development application materials should be sent to the assessment manager.

Appendix 2 FastTrack5 qualifying criteria chekclist 2 – State Transport Corridor

# FastTrack5 qualifying criteria checklist 2

# State transport corridor (reconfiguring a lot)

(SDAP version 2.1 dated 11 August 2017)

This form must be used when seeking a FastTrack5 assessment pathway for the following triggers:

- 1. schedule 10, part 9, division 4, subdivision 2, table 1 (reconfiguring a lot near a state transport corridor)
- 2. schedule 10, part 9, division 4, subdivision2, table 3 (reconfiguring a lot that is near a state-controlled road intersection)

When submitting an application containing a FastTrack5 trigger to SARA using MyDAS2, applicants must upload a completed qualifying criteria checklist for each eligible trigger. The responses on the form must demonstrate that the triggered aspect of development meets all qualifying criteria applicable to the relevant eligible trigger.

Applicants should also provide or make reference to any supporting information or material that supports their claim for a FastTrack5 assessment.

When seeking FastTrack5 assessment for eligible triggers, you must:

- 1. have completed any other forms relevant to your application
- 2. upload a completed copy of this form when referring your application using MyDAS2
- 3. provide all supporting information required on the form at the time of lodgement this information will assist SARA in undertaking its FastTrack5 assessment.

All terms used in this form have the meaning given in the Act or the regulation.

Volumetric subdivision only:

| Q                      | ualifying criteria  | Response  | Supporting information provided |  |
|------------------------|---|---|---------------------------------|--|
| Volumetric subdivision |   |   |                                 |  |
| 1                      | Is the proposed development solely for the purpose of a volumetric subdivision? | Yes: Application is eligible for FastTrack5 assessment.  The application is eligible for FastTrack5 assessment. No further assessment against the remaining criteria is required. |                                 |  |
|                        |   | No: Application cannot qualify for the FastTrack5 assessment pathway and must follow the standard SARA assessment. Please refer to the relevant SDAP state codes.                 |                                 |  |

All other development:

Appendix 9 Code Assessment - Reconfiguring a lot code

# 9.4.4.3 Criteria for assessment

Table 9.4.4.3A – Reconfiguring a lot code – For assessable development

| Performance outcomes                              | Acceptable outcomes   |  |
|---|---|--|
| Area and frontage of lots                         |   |  |
| PO1   | A01.1   | PO1 All proposed lots comply with the  |
| Lots include an area and frontage that:           | Lots provide a minimum area and frontage in                       | minimum areas specified in Table 9.4.4.3B  |
| (a) is consistent with the design of lots in the  | accordance with Table 9.4.4.3B.                                   | being:   |
| surrounding area;                                 |   |  |
| (b) allows the desired amenity of the zone to     |   | <ul> <li>Proposed Lot 1 – 412.4ha</li> </ul>   |
| be achieved;                                      |   | <ul> <li>Proposed Lot 2 – 60.0ha</li> </ul>  |
| (c) is able to accommodate all buildings,         |   | • Proposed Lot 3 – 113 2ha   |
| structures and works associated with the          |   |  |
| intended land use;                                |   | 2000 minimum and altitum and 1000 minimum and 1000 minimu |
| (d) allow the site to be provided with sufficient |   | Froposed Lot 3 compiles with the minimum   |
| access;   |   | From the first of Society of States 1 & 2  |
| (e) considers the proximity of the land to:       |   | nave frontages of 300m and 371m  |
| (i) centres;                                      |   | respectively. The frontages of proposed Lots   |
| (ii) public transport services; and               |   | 1 & 2 are considered appropriate for the   |
| (iii) open space; and                             |   | proposal and will not impact the final use of  |
| (f) allows for the protection of environmental    |   | the proposed lots.   |
| features; and                                     |   |  |
| (g) accommodates site constraints.                |   |  |
| Existing buildings and easements                  |   |  |
| PO2   | A02.1   | PO2 Proposed Lot 3 will continue to utilise the  |
| Reconfiguring a lot which contains existing       | Each land use and associated infrastructure is                    | existing bitumen driveway contained within   |
| land uses or existing buildings and structures    | contained within its individual lot.                              | proposed Lot 2. An access easement will be   |
| ensures:  |   | created within proposed Lot 2 benefiting   |
| (a) new lots are of sufficient area and           |   | proposed Lot 3. All other services will be   |
| dimensions to accommodate existing land           |   | contained within the lot that they serve.  |
| uses, buildings and structures; and               | A02.2   | AO2.2 Existing building and structures   |
| (b) any continuing use is not compromised by      | All lots containing existing buildings and                        | achieve the required setbacks from the   |
| ine reconniguration.                              | structures acrieve the setback requirements of the relevant zone. | proposed boundanes.  |
| PO3   | AO3   | PO3 The site does not contain any existing   |
| Reconfiguring a lot which contains an existing    | No acceptable outcome is provided.                                | easements that will impact on the siting of  |
|   |   | מנמוס סוומסומוסס:  |

|  |                      | PO4 Not applicable to this proposal  |                         | PO5 Proposed lots 2 & 3 will continue to | utilise the existing access from Spena Road. A new access will be provided to service proposed Lot 1.  | PO6 See comment to PO5. |  |   | Not applicable to this proposal  |
|--|----------------------|--|-------------------------|--|--|-------------------------|--|---|--|
|  |                      | <b>A04</b> No acceptable outcome is provided.  |                         | A05                                      | No acceptable outcome is provided.   | AO6                     | Vehicle crossover and access is provided in accordance with the design guidelines and specifications set out in Planning Scheme Policy 4 – FNQROC Regional Development Manual.   |   | AO7 No acceptable outcome is provided.   |
| <ul><li>(a) future buildings, structures and access ways are able to be sited to avoid the easement; and</li><li>(b) the reconfiguration does not compromise the purpose of the easement or the continued operation of any infrastructure contained within the easement.</li></ul> | Boundary realignment | PO4  The boundary realignment retains all attendant and existing infrastructure connections and potential connections. | Access and road network | PO5                                      | Access to a reconfigured lot (including driveways and paths) must not have an adverse impact on: (a) safety; (b) drainage; (c) visual amenity; (d) privacy of adjoining premises; and (e) service provision. | PO6                     | Reconfiguring a lot ensures that access to a lot can be provided that:  (a) is consistent with that provided in the surrounding area;  (b) maximizes efficiency and safety; and  (c) is consistent with the nature of the intended use of the lot. | Note – The Parking and access code should be considered in demonstrating compliance with PO6. | PO7  Roads in the Industry zone are designed having regard to: (a) the intended use of the lots; (b) the existing use of surrounding land; (c) the vehicular servicing requirements of the intended use; |

| <ul><li>(d) the movement and turning requirements<br/>of B-Double vehicles.</li></ul>         |  |                                 |
