DA Form 1 – Development application details

Approved form (version 1.3 effective 28 September 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

PART 1 - APPLICANT DETAILS

1) Applicant details	
Applicant name(s) (individual or company full name)	Scope Town Planning c/ C.H.Enterprise Pty.Ltd.
Contact name (only applicable for companies)	Johnathan Burns
Postal address (P.O. Box or street address)	13 Jacana Close
Suburb	Mareeba
State	Qld
Postcode	4880
Country	Australia
Contact number	0450 781 841
Email address (non-mandatory)	scopetownplanning@gmail.com
Mobile number (non-mandatory)	
Fax number (non-mandatory)	
Applicant's reference number(s) (if applicable)	21009

2) Owner's consent
2.1) Is written consent of the owner required for this development application?
✓ Yes – the written consent of the owner(s) is attached to this development application✓ No – proceed to 3)

PART 2 – LOCATION DETAILS

PART 5 – REFERRAL DETAILS

17) Does this development application include any aspects that have any referral requirements? Note: A development application will require referral if prescribed by the Planning Regulation 2017.
No, there are no referral requirements relevant to any development aspects identified in this development application – proceed to Part 6
Matters requiring referral to the Chief Executive of the Planning Act 2016:
☐ Clearing native vegetation
Contaminated land (unexploded ordnance)
Environmentally relevant activities (ERA) (only if the ERA has not been devolved to a local government)
Fisheries – aquaculture
Fisheries – declared fish habitat area
☐ Fisheries – marine plants
☐ Fisheries – waterway barrier works
☐ Hazardous chemical facilities
☐ Heritage places – Queensland heritage place (on or near a Queensland heritage place)
☐ Infrastructure-related referrals – designated premises
☐ Infrastructure-related referrals – state transport infrastructure
☐ Infrastructure-related referrals – State transport corridor and future State transport corridor
☐ Infrastructure-related referrals – State-controlled transport tunnels and future state-controlled transport tunnels
☐ Infrastructure-related referrals – near a state-controlled road intersection
Koala habitat in SEQ region – interfering with koala habitat in koala habitat areas outside koala priority areas
Coala habitat in SEQ region – key resource areas
Ports – Brisbane core port land – near a State transport corridor or future State transport corridor
Ports – Brisbane core port land – environmentally relevant activity (ERA)
Ports – Brisbane core port land – tidal works or work in a coastal management district
Ports – Brisbane core port land – hazardous chemical facility
Ports – Brisbane core port land – taking or interfering with water
Ports – Brisbane core port land – referable dams
Ports – Brisbane core port land – fisheries
Ports – Land within Port of Brisbane's port limits (below high-water mark)
SEQ development area
 SEQ regional landscape and rural production area or SEQ rural living area − tourist activity or sport and recreation activity
SEQ regional landscape and rural production area or SEQ rural living area – community activity
SEQ regional landscape and rural production area or SEQ rural living area – indoor recreation
SEQ regional landscape and rural production area or SEQ rural living area – urban activity
SEQ regional landscape and rural production area or SEQ rural living area – combined use
Tidal works or works in a coastal management district
Reconfiguring a lot in a coastal management district or for a canal
Erosion prone area in a coastal management district
Urban design
Water-related development – taking or interfering with water
Water-related development – removing quarry material (from a watercourse or lake)
Water-related development – referable dams
Water-related development –levees (category 3 levees only)
Wetland protection area Matters requiring referred to the legal government:
Matters requiring referral to the local government:
Airport land
Environmentally relevant activities (ERA) (only if the ERA has been devolved to local government)

☐ Heritage places – Local heritage places		
Matters requiring referral to the Chief Executive of the	distribution entity or transmissi	ion entity:
☐ Infrastructure-related referrals – Electricity infrastructu	ıre	
Matters requiring referral to:		
The Chief Executive of the holder of the licence,	if not an individual	
The holder of the licence, if the holder of the licence.	ce is an individual	
☐ Infrastructure-related referrals – Oil and gas infrastruc	cture	
Matters requiring referral to the Brisbane City Council:		
☐ Ports – Brisbane core port land		
Matters requiring referral to the Minister responsible fo	r administering the <i>Transport I</i>	nfrastructure Act 1994:
Ports – Brisbane core port land (where inconsistent with th	e Brisbane port LUP for transport reasons	5)
☐ Ports – Strategic port land		
Matters requiring referral to the relevant port operator,	if applicant is not port operator:	
Ports – Land within Port of Brisbane's port limits (below	v high-water mark)	
Matters requiring referral to the Chief Executive of the	elevant port authority:	
Ports – Land within limits of another port (below high-wa	-	
Matters requiring referral to the Gold Coast Waterways		
☐ Tidal works or work in a coastal management district	-	
	· · · · · · · · · · · · · · · · · · ·	
Matters requiring referral to the Queensland Fire and E		
Tidal works or work in a coastal management district	(involving a marina (more than six vessel	berths))
18) Has any referral agency provided a referral response	for this development application	?
☐ Yes – referral response(s) received and listed below a☒ No	are attached to this development	application
Referral requirement	Referral agency	Date of referral response
Identify and describe any changes made to the proposed	development application that wa	s the subject of the
referral response and this development application, or in		
(if applicable).		
PART 6 – INFORMATION REQUEST		
19) Information request under Part 3 of the DA Rules		
☐ I agree to receive an information request if determine	d necessary for this development	application
☐ I do not agree to accept an information request for thi		11
Note: By not agreeing to accept an information request I, the applicant	• • • • • • • • • • • • • • • • • • • •	
 that this development application will be assessed and decided be application and the assessment manager and any referral agence 		

Part 3 of the DA Rules will still apply if the application is an application listed under section 11.3 of the DA Rules.

Further advice about information requests is contained in the <u>DA Forms Guide</u>.

Clearing native vegetation
23.3) Does this development application involve clearing native vegetation that requires written confirmation that the chief executive of the <i>Vegetation Management Act 1999</i> is satisfied the clearing is for a relevant purpose under section 22A of the <i>Vegetation Management Act 1999</i> ?
Yes – this development application includes written confirmation from the chief executive of the <i>Vegetation Management Act 1999</i> (s22A determination)
Note: 1. Where a development application for operational work or material change of use requires a s22A determination and this is not included, the development application is prohibited development. 2. See https://www.qld.gov.au/environment/land/vegetation/applying for further information on how to obtain a s22A determination.
Environmental offsets
23.4) Is this development application taken to be a prescribed activity that may have a significant residual impact on a prescribed environmental matter under the <i>Environmental Offsets Act 2014?</i>
Yes – I acknowledge that an environmental offset must be provided for any prescribed activity assessed as having a significant residual impact on a prescribed environmental matter
No Note: The environmental offset section of the Queensland Government's website can be accessed at www.qld.gov.au for further information on environmental offsets.
Koala habitat in SEQ Region
23.5) Does this development application involve a material change of use, reconfiguring a lot or operational work which is assessable development under Schedule 10, Part 10 of the Planning Regulation 2017?
Yes – the development application involves premises in the koala habitat area in the koala priority area
 Yes – the development application involves premises in the koala habitat area outside the koala priority area No
Note: If a koala habitat area determination has been obtained for this premises and is current over the land, it should be provided as part of this development application. See koala habitat area guidance materials at www.des.qld.gov.au for further information.
Water resources
23.6) Does this development application involve taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the <i>Water Act 2000</i> ?
Yes – the relevant template is completed and attached to this development application and I acknowledge that a relevant authorisation or licence under the <i>Water Act 2000</i> may be required prior to commencing development
No Note: Contact the Department of Natural Resources, Mines and Energy at www.dnrme.gld.gov.au for further information.
DA templates are available from https://planning.dsdmip.qld.gov.au/ . If the development application involves:
 Taking or interfering with underground water through an artesian or subartesian bore: complete DA Form 1 Template 1 Taking or interfering with water in a watercourse, lake or spring: complete DA Form1 Template 2 Taking overland flow water: complete DA Form 1 Template 3.
Waterway barrier works
23.7) Does this application involve waterway barrier works?
☐ Yes – the relevant template is completed and attached to this development application☐ No
DA templates are available from https://planning.dsdmip.qld.qov.au/ . For a development application involving waterway barrier works, complete DA Form 1 Template 4.
Marine activities
23.8) Does this development application involve aquaculture, works within a declared fish habitat area or removal, disturbance or destruction of marine plants?
Yes – an associated <i>resource</i> allocation authority is attached to this development application, if required under the <i>Fisheries Act</i> 1994
No

Note: See guidance materials at www.daf.qld.gov.au for further information.

Quarry materials from a watercourse or lake
23.9) Does this development application involve the removal of quarry materials from a watercourse or lake under the <i>Water Act 2000?</i>
☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development ☐ No
Note : Contact the Department of Natural Resources, Mines and Energy at www.dnrme.qld.gov.au and www.business.qld.gov.au for further information.
Quarry materials from land under tidal waters
23.10) Does this development application involve the removal of quarry materials from land under tidal water under the <i>Coastal Protection and Management Act 1995?</i>
☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development ☐ No
Note: Contact the Department of Environment and Science at www.des.qld.gov.au for further information.
Referable dams
23.11) Does this development application involve a referable dam required to be failure impact assessed under section 343 of the <i>Water Supply (Safety and Reliability) Act 2008</i> (the Water Supply Act)?
Yes – the 'Notice Accepting a Failure Impact Assessment' from the chief executive administering the Water Supply Act is attached to this development application
No Note: See guidance materials at www.dnrme.qld.gov.au for further information.
Tidal work or development within a coastal management district
23.12) Does this development application involve tidal work or development in a coastal management district?
Yes – the following is included with this development application:
Evidence the proposal meets the code for assessable development that is prescribed tidal work (only required if application involves prescribed tidal work)
☐ A certificate of title ☐ No
Note: See guidance materials at www.des.qld.gov.au for further information.
Queensland and local heritage places
23.13) Does this development application propose development on or adjoining a place entered in the Queensland heritage register or on a place entered in a local government's Local Heritage Register ?
☐ Yes – details of the heritage place are provided in the table below☐ No
Note: See guidance materials at www.des.qld.gov.au for information requirements regarding development of Queensland heritage places.
Name of the heritage place: Place ID:
<u>Brothels</u>
23.14) Does this development application involve a material change of use for a brothel?
Yes – this development application demonstrates how the proposal meets the code for a development
application for a brothel under Schedule 3 of the <i>Prostitution Regulation 2014</i> ☑ No
Decision under section 62 of the <i>Transport Infrastructure Act 1994</i>
23.15) Does this development application involve new or changed access to a state-controlled road?
Yes – this application will be taken to be an application for a decision under section 62 of the <i>Transport Infrastructure Act 1994</i> (subject to the conditions in section 75 of the <i>Transport Infrastructure Act 1994</i> being
satisfied) No

Walkable neighbourhoods assessment benchmarks under Schedule 12A of the Planning Regulation
23.16) Does this development application involve reconfiguring a lot into 2 or more lots in certain residential zones (except rural residential zones), where at least one road is created or extended?
Yes – Schedule 12A is applicable to the development application and the assessment benchmarks contained in schedule 12A have been considered
⊠ No
Note : See guidance materials at www.planning.dsdmip.qld.gov.au for further information.

PART 8 - CHECKLIST AND APPLICANT DECLARATION

24) Development application checklist	
I have identified the assessment manager in question 15 and all relevant referral requirement(s) in question 17 Note: See the Planning Regulation 2017 for referral requirements	⊠ Yes
If building work is associated with the proposed development, Parts 4 to 6 of <u>DA Form 2 – Building work details</u> have been completed and attached to this development application	☐ Yes ☑ Not applicable
Supporting information addressing any applicable assessment benchmarks is with the development application Note: This is a mandatory requirement and includes any relevant templates under question 23, a planning report and any technical reports required by the relevant categorising instruments (e.g. local government planning schemes, State Planning Policy, State Development Assessment Provisions). For further information, see DAForms Guide: Planning Report Template .	⊠ Yes
Relevant plans of the development are attached to this development application Note: Relevant plans are required to be submitted for all aspects of this development application. For further information, see <u>DA Forms Guide: Relevant plans.</u>	⊠ Yes
The portable long service leave levy for QLeave has been paid, or will be paid before a development permit is issued (see 21)	☐ Yes ☑ Not applicable
25) Applicant declaration	
By making this development application, I declare that all information in this development correct	application is true and
Where an email address is provided in Part 1 of this form, I consent to receive future electrom the assessment manager and any referral agency for the development application was required or permitted pursuant to sections 11 and 12 of the <i>Electronic Transactions Act</i> Note: It is unlawful to intentionally provide false or misleading information.	here written information
Privacy – Personal information collected in this form will be used by the assessment manag	er and/or chosen
assessment manager, any relevant referral agency and/or building certifier (including any prowhich may be engaged by those entities) while processing, assessing and deciding the deve	ofessional advisers

All information relating to this development application may be available for inspection and purchase, and/or published on the assessment manager's and/or referral agency's website.

Personal information will not be disclosed for a purpose unrelated to the Planning Act 2016, Planning Regulation 2017 and the DA Rules except where:

- such disclosure is in accordance with the provisions about public access to documents contained in the Planning Act 2016 and the Planning Regulation 2017, and the access rules made under the Planning Act 2016 and Planning Regulation 2017; or
- required by other legislation (including the Right to Information Act 2009); or
- otherwise required by law.

This information may be stored in relevant databases. The information collected will be retained as required by the Public Records Act 2002.

1 Proposal

1.1 Introduction

This application is for a Development Permit for a Material Change of Use on Rural Zoned land located at 97 Kovacic Road, Mareeba Qld. 4880 formally known as Lot 450 on NR5228.

This application is classified as **Impact Assessable Development** against the relevant codes of the Mareeba Shire Planning Scheme for an Accommodation Activity as prescribed by Table 5.5.9 – Material Change of Use in a Rural Zone which prescribes an Impact level assessment for the establishment of a new Tourist Park in the Rural Zone.

1.2 Proposed Development Summary

The proposed development is the establishment of a Tourist Park in the form of short term camping and caravan sites in a cleared area on land at Lot 450 on NR5228 (**Figure 1**).

Figure 1: Proposal site - Lot 450 on NR5228.

The applicant's intention is to provide only minimal facilities with a 'leave it as you found it' policy. This proposal does not include the provision of powered sites, parking slabs for Caravans or the building of Cabins. The proposed camping ground will be contained within a specified 62,000m² (6.2ha) area (refer to **Figure 2**) within the site which will contain 4 designated camping areas for a maximum of 74 guests plus an area set aside for communal use. The camping area will remain free of permanent structures and therefore maintain the desired agricultural use of the land. No vegetation clearing is proposed to facilitate the camping ground.

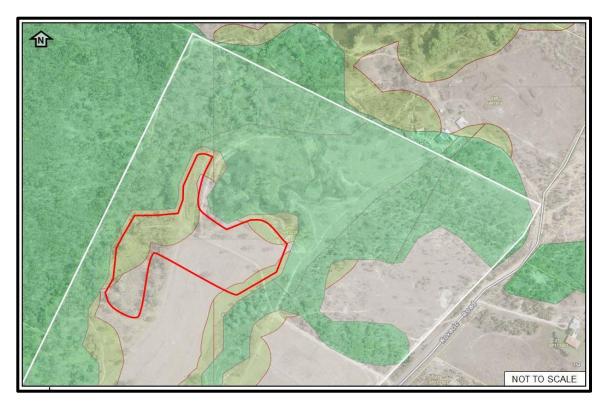

Figure 2: Proposed on-site location of designated camping area.

1.3 Site and Locality

The proposal site is situated on Kovacic Road east of Mareeba which gains access to the Kennedy Highway. Areas of the site are cleared and currently improved with a single dwelling house and large shed, dams and cropping fields with large portions of the site containing retained vegetation and seasonal creeks.

The site has an total area of 576,680m² (57.668ha) and is located amongst multiple several other large lots containing farmland and retained vegetation. The site is zoned Rural (**Figure 4**) and is mapped with several overlays which are discussed in section 2 of this report. The site is not burdened by nor a beneficiary of any easements.

No additional infrastructure is required to service the proposed camping ground which has ready constructed gravel track access accessible to Kovacic Road.

Figure 3: General location of proposal site. (Source: Google Maps)

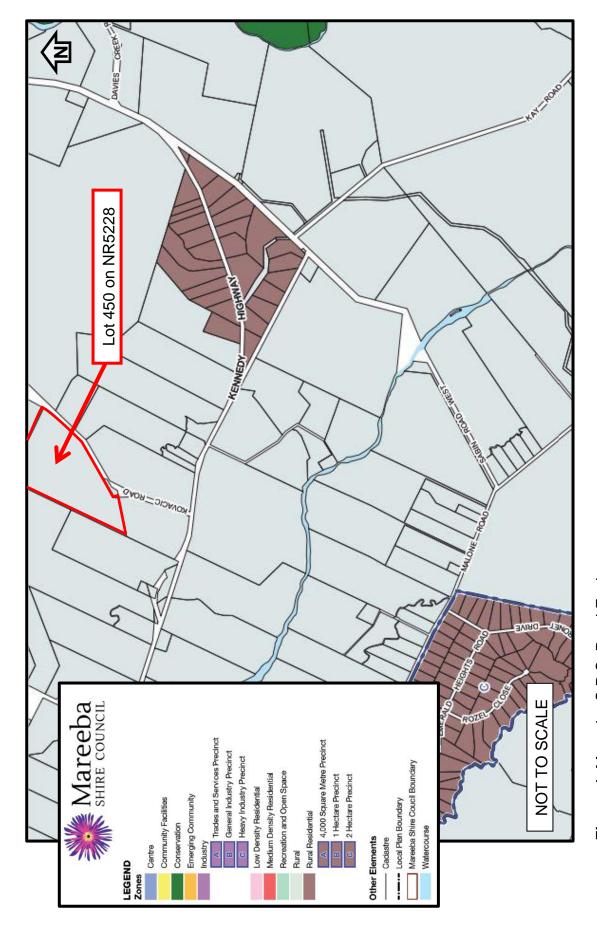

Figure 4: Mareeba S.P.S. Rural Zoning.

2 Proposed Development Detail

The proposed camping ground is intended to accommodate a maximum of 74 guests at any one time and will <u>not</u> be open to caravans or large vehicles such as busses or any campers without fully self-contained conveniences.

The intention of the proposed campsite is to provide a low-budget camping ground for travellers such as retirees, backpackers as well as to cater for local residents in the region from families to groups such as Scouts.

The proposed campsite does not include the provision of any amenities such as ablutions, covered areas, cooking facilities, hardstand areas, water or electrical supplies. As such, this proposal refers to the recently approved camping ground application over land at 127 Hume Road, Biboohra (Lot 201 on SP177750), Council reference number M2-21 as precedence.

2.1 Campsite Functionality

The Campsite will function in a similar way to another recently approved campsite located on Hume Road, Biboohra (application number M2-21) in that guests will pay a reduced fee for use of a camp site on a 'leave it as you found it' basis only. Guests will be required to provide their own temporary accommodation (tents, small camper van etc.), food, refrigeration, cooking facilities, toilet and bathroom facilities etc. As such, minimal facilities will be provided and will include only the following;

- Onsite manager
- Dedicated access via Kovacic Road
- 2 camping areas opened as required and as seasonally permitting
- A communal meeting area including a campfire and rubbish bins
- Rubbish waste removal via Council kerbside collection
- Open recreation areas
- Onsite vehicle track access to camping areas
- Fencing to separate restricted areas
- 10m buffer to Regulated Category B Vegetation areas

The camping area will be separated into 2 areas to enable closure of individual areas for maintenance, safety, guest management or seasonal constraints such as wet season. These areas will be designated as an Annual Camping Area and a Seasonal Camping Area (**Figure 5**).

In addition, an area will be designated as communal use which will contain a dedicated campfire area and rubbish bins. All areas will be accessible by vehicle for guest convenience.

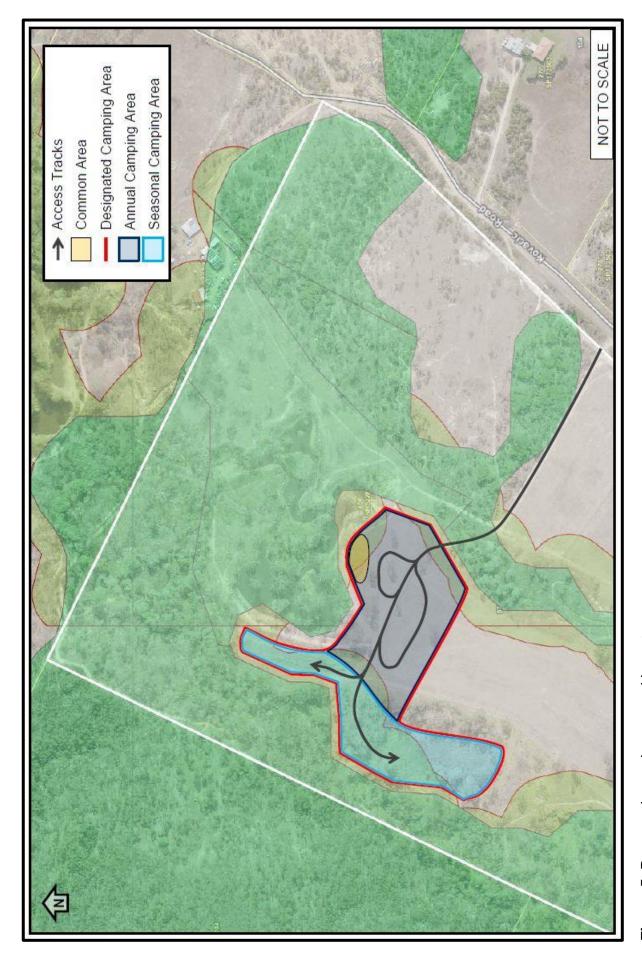

Figure 5: Proposed camping ground layout.

2.2 Campsite Management

The caretaker will be made available to guests during specific business hours and will be located in the dwelling house on the property. Camp fees will be payable to the caretaker for the number of days the guest desires to stay up to a maximum of 2 weeks. Rubbish bins will be collected by the caretaker to be emptied weekly and maintained in a clean and orderly state. The caretaker will be available for minimal guest assistance such as in emergencies.

The caretaker will manage advertising and promote visitation to local attractions by guests. The campsite will be operated seasonally with particular camping areas or the entire site being closed during wet season or extreme weather events as required for the safety of guests.

The open area (~40m wide) between the northern boundary and the designated camping area will be allowed to naturally re-vegetate into a nature strip which will act as a noise and light buffer and to protect neighbor/guest privacy and amenity.

An **Advertising Device** is also proposed on the Kovacic Road frontage at the entry gate. The sign, to be located 1m inside the property boundary is to be no more than 1.5m x 1.0m, no greater than 3m in height and will not be lighted. The Advertising Devices Code is addressed in **Appendix 1**.

2.3 Benefits to the Community

The proposed camping site will cater for the local community as well as interstate and abroad visitors / tourists. The site will be a low budget option for local families, backpackers and interstate travellers who desire to spend less money on accommodation and more on local attractions. The proposed camp site will allow people to afford to stay longer in the local area and therefore increase expenditure in the local economy.

The local community will also benefit from the provision of an affordable local camp site which is not marketed only for tourists, affording them the option to camp locally with their friends and family. As the site will have capacity for up to 74 guests at one time, it can also be utilized by groups such as for school camps and scout camps.

2.4 Site Suitability

Within the local area, several campsites and caravan parks are available. Not including full amenity caravan parks, there are few low cost options including Birds On Barron and Camp Paterson north of Mareeba, Kerribee Park (Rodeo Grounds) west of Mareeba, Roxy Springs to the south and Davies Creek to the east. Refer to **Figure 6**.

Of these, Camp Paterson contains cabins and is set up for larger groups such as school children and scout groups and is not considered a low budget option as is proposed. Likewise, Roxy Springs is not considered a low budget campground. Kerribee Park is part of the Rodeo Grounds and is a large open space often used during events, making this site less appealing to visitors who wish to explore the local area and stay in a picturesque location. Birds on Barron is a great campsite offering amenities and various family activities as well as some cabin accommodation and is also lot considered a basic, low budget option when compared to that which is proposed. Davies Creek also offers a great camping location with some amenities and is a low budget option however contains a limited number of campsites.

The proposed low budget camping ground is therefore a well located site being only 11km from the center of Mareeba (**Figure 7**) offering a picturesque setting (**Figures 8-10**) and a simple camping option for visitors to the region. The low budget campsite will afford visitors the option to spend less on accommodation and inject more money into the local economy as they are able to spend more time in the area and visit more attractions.

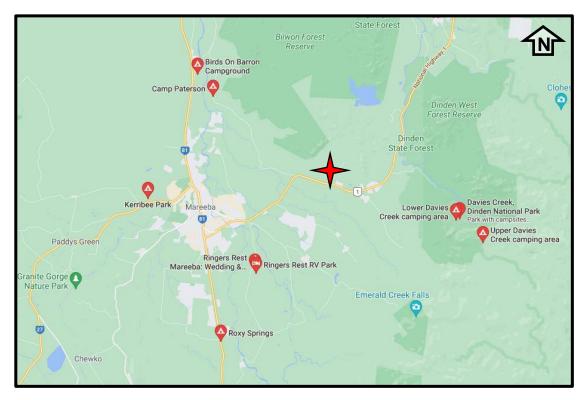

Figure 6: Local campgrounds in relation to the proposed campsite (\(\frac{1}{2}\)).

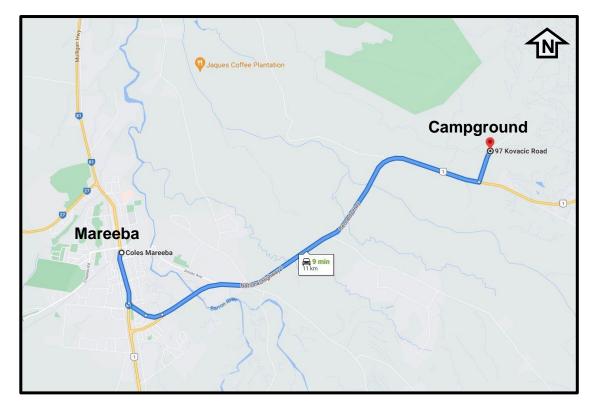

Figure 7: Location of the proposed campsite grounds in relation to Mareeba.

Figure 8: Picturesque setting of the proposed campsite grounds.

Figure 9: Picturesque setting of the proposed campsite grounds.

Figure 10: Picturesque setting of the proposed campsite grounds.

3 Planning Considerations

3.1 Compliance with Planning Scheme

This site is located within the Rural zoning area. The proposed Tourist Park is Impact Assessable under the Mareeba Shire Council Planning Scheme 2016 (Major Amendment 1, 2020). Compliance with the relevant Codes is demonstrated in **Table 1** below and expounded in **Appendix 1**: Assessment against the Mareeba Shire Planning Codes.

Table 1: Compliance of this development with relevant codes.

3.2 Strategic Framework

The proposed development satisfies the MSPS Strategic Framework (Part 3), the most pertinent elements of which are addressed below.

3.2.1 Settlement Pattern and Built Environment

The proposed development is consistent with the specific outcomes of the element as it does not include any permanent structures on the site nor activities on the site which might compromise the intended land use of agricultural or husbandry activities, thus satisfying the Specific Outcomes.

In particular, this proposal is supported by Specific Outcome (3) which states;

- (3) Tourism, rural industry, intensive animal industries and outdoor recreation facilities are developed in the rural area in a way which:
 - (a) does not impede or conflict with agricultural activities and production; and
 - (b) does not compromise rural character and scenic qualities; and
 - (c) does not adversely impact on ecological and biodiversity values.

The proposed use does not impede or conflict with the existing agricultural activity or production carried out on the property (hay, small scale husbandry). The proposed use does not compromise the rural character or scenic qualities of the site and in fact utilizes and preserves these qualities in its use. As the proposed camping site is situated around an existing dam on previously cleared areas of land, the proposed use does not adversely impact but rather preserves the ecological and biodiversity values of the site.

3.2.2 Natural Resources and Environment

As the proposal does not include a septic system and requires guests to leave the site in an undisturbed condition, it is considered to have little to no have no detrimental effect on the environmental or ecological values of the site or surrounding area, thus satisfying the Strategic Outcomes of section 3.4 Natural resources and environment.

3.2.3 Community Identity and Diversity

In support of the local community, the proposed camp site will further encourage locals to enjoy the natural environment in the area. The proposal supplies an additional low budget camping site to the popular recreational camping interests of the local community and visitors alike.

3.2.4 Transport and Infrastructure

The proposal does not involve nor require any additional transport or other infrastructure. The camp site is accessed directly via Kovacic Road and onsite access will be provided by crushed rock tracks maintained and improved

to a fit for purpose state. <u>No</u> facilities requiring connections to reticulated networks are required.

3.2.5 Economic Development

The proposal will enhance the variety of short term accommodation available in the region, providing a low budget alternative to existing short term accommodation providers in the area. The low budget nature of the camping ground will encourage visitors to stay longer in the region, spending less on accommodation and more on local attractions.

In particular, this proposal is supported by Specific Outcome 3.7.7.1 (3) of 3.3.7 Element – Tourism which states;

(3) Tourist parks in key locations provide sites to accommodate caravans and recreational vehicles across the shire. Facilities to accommodate caravans and recreational vehicles are developed in a variety of urban and, at a limited scale, rural locations, to encourage extended visitations within the shire.

The proposal provides a short term accommodation site in a strategic location and will encourage longer term visitations within the shire.

3.3 Vegetation Management

The site is mapped within the DAMS Vegetation Management areas with the site containing significant portions of Non-remnant Vegetation, Category R Regulated Vegetation and Category B Regulated Vegetation as illustrated on the following maps.

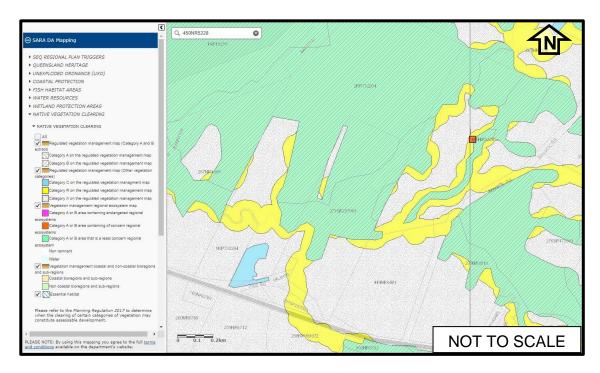

Figure 11: DAMS Vegetation Management mapping (DAMS Mapping).

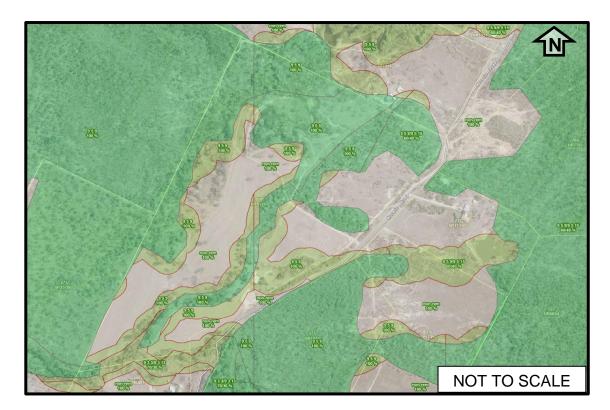

Figure 12: Vegetation Management mapping over Site (Qld. Globe).

As the site contains Category B Regulated Vegetation, any proposed Tourist Park use cannot be located within this mapped area as such development would require referral to SARA for a Prohibited Use. The proposed Tourist Park has therefore been located outside of the Category B Vegetation area with a 10m buffer between it and the proposed Campground Area.

3.4 State Agency Referral

This development does not trigger referral to any referral agencies.

4 Planning Summary

The proposed Tourist Park on Lot 450 on NR5228 will result in an area within the site of ~62,000m² (6.1ha) being used for low budget, short term accommodation in the form of self-contained camping by a maximum of 74 guests at any one time for a maximum stay of up to 2 weeks. Guests will be required to utilize the site under a 'leave it as you found it' policy with an onsite manager being located in the existing dwelling house.

The proposed use is considered to be consistent with the desired outcomes of the Strategic Framework and Planning and Overlay Codes of the Mareeba Shire Council Planning Scheme (2016). The proposal complies with the Acceptable Outcomes of the Code as demonstrated in **Appendix 1**.

5 Recommendation

It is the professional opinion of Scope Town Planning that this proposal for a Tourist Park subdivision on Lot 450 on NR5228 satisfies the desired outcomes and requirements of the Mareeba Shire Planning Scheme (2016) and that this application should be fairly assessed and approved by Mareeba Shire Council with reasonable conditions.

Height			
PO1 Building height takes into consideration and respects the following: (a) the height of existing buildings on adjoining premises; (b) the development potential, with respect to height on adjoining promises:	AO1.1 Development, other than buildings used for rural activities, has a maximum building height of: (a) 8.5 metres; and (b) 2 storeys above ground level.	n/a	No buildings are proposed.
 height, on adjoining premises; (c) the height of buildings in the vicinity of the site; (d) access to sunlight and daylight for the site and adjoining sites; (e) privacy and overlooking; and (f) site area and street frontage length. 	AO1.2 Buildings and structures associated with a rural activity including machinery, equipment, packing or storage buildings do not exceed 10 metres in height.	n/a	No buildings are proposed.
Siting, where not involving a Dwelling house Note—Where for Dwelling house, the setbacks of the	e Queensland Development Code apply.		
PO2 Development is sited in a manner that considers and respects: (a) the siting and use of adjoining premises; (b) access to sunlight and daylight for the site and adjoining sites; (c) privacy and overlooking; (d) air circulation and access to natural breezes; (e) appearance of building bulk; and (f) relationship with road corridors.	AO2.1 Buildings and structures include a minimum setback of: (a) 40 metres from a frontage to a State-controlled road; and (b) 10 metres from a boundary to an adjoining lot.	n/a	No buildings or structures are proposed.
	AO2.2 Buildings and structures, where for a Roadside stall, include a minimum setback of 0 metres from a frontage to a road that is not a State-controlled road.	n/a	No buildings or structures are proposed.

Performance outcomes	Acceptable outcomes	Complies	Comments
	AO2.3 Buildings and structures, expect where a Roadside stall, include a minimum setback of: (a) 10 metres from a frontage to a sealed road that is not a State-controlled road; and (b) 100 metres from a frontage to any other road that is not a State-controlled road;	n/a	No buildings or structures are proposed.
Accommodation density			
PO3 The density of Accommodation activities: (a) respects the nature and density of surrounding land use; (b) is complementary and subordinate to the rural and natural landscape values of the area; and (c) is commensurate to the scale and frontage of the site.	AO3.1 Residential density does not exceed one dwelling house per lot.	n/a	No dwelling houses are proposed.
	AO3.2 Residential density does not exceed two dwellings per lot and development is for: (d) a secondary dwelling; or (e) Caretaker's accommodation and includes building work or minor building work with a maximum gross floor area of 100m ² ; or (f) Rural worker's accommodation.	n/a	No dwelling houses are proposed.
For assessable development			
Site cover			
PO4 Buildings and structures occupy the site in a manner that: (a) makes efficient use of land; (b) is consistent with the bulk and scale of buildings in the surrounding area; and (c) appropriately balances built and natural features.	AO4 No acceptable outcome is provided.	n/a	No buildings or structures are proposed.

DEVELOPMENT APPLICATION – MCU – Tourist Park – 97 Kovacic Rd Mareeba

Performance outcomes	Acceptable outcomes	Complies	Comments
PO5 Development complements and integrates with the established built character of the Rural zone, having regard to: (a) roof form and pitch; (b) eaves and awnings; (c) building materials, colours and textures; and (d) window and door size and location.	AO5 No acceptable outcome is provided.	n/a	No buildings or structures are proposed.

Performance outcomes	Acceptable outcomes	Complies	Comments
Amenity	,		,
PO6 Development must not detract from the amenity of the local area, having regard to: (a) noise; (b) hours of operation; (c) traffic; (d) advertising devices; (e) visual amenity; (f) privacy; (g) lighting; (h) odour; and (i) emissions.	AO6 No acceptable outcome is provided.	•	The proposed campsite use is situated in a secluded area on the site. No excessive traffic, noise, lighting, odour or emissions are likely as a result of the use. The visual amenity of the area will not be adversely affected. Vegetation will be maintained along the open section of the northern boundary between the camping area and the adjoining neighbour.
PO7 Development must take into account and seek to ameliorate any existing negative environmental impacts, having regard to: (a) noise; (b) hours of operation; (c) traffic; (d) advertising devices; (e) visual amenity; (f) privacy; (g) lighting; (h) odour; and (i) emissions.	AO7 No acceptable outcome is provided.	•	The proposed campsite use is situated in a secluded area on the site. No existing negative environmental impacts have been identified.

9.3.1 Accommodation Activities Code

The development proposal is an MCU for short term accommodation (Camping up to 74 persons) and is assessed hereto against the Accommodation Activities Code of the Mareeba Shire Planning Scheme (2016).

9.3.1.3 Criteria for Assessment

Table 9.3.1.3A—Accommodation activities code – For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments			
For accepted development subject to requirements and assessable development						
All Accommodation activities, apart from	Dwelling house					
PO1 Accommodation activities are located on a site that includes sufficient area: (a) to accommodate all buildings, structures, open space and infrastructure associated with the use; and (b) to avoid adverse impacts on the amenity or privacy of nearby land uses.	AO1 Development is located on a site which provides the applicable minimum site area and minimum road frontage specified in Table 9.3.1.3B.		The site has a total area of 57.6 ha with a 3.2 ha (32,000m²) dedicated camping area within that site area. The site has road frontage to Kovacic Rd totalling 1100m. Within the dedicated 6.1 ha camping area, ~38,000m² is available for camping around the dam. A maximum of 74 guests are proposed to be accommodated. If all campsites are utilised, an area of 2,960m² (40m²x74) is required. Ample room is available if campervans are also accommodated which require 100m².			
All Accommodation activities, apart from	Tourist park and Dwelling house					
Accommodation activities are provided with on-site refuse storage areas that are: (a) sufficient to meet the anticipated demand for refuse storage; and (b) appropriately located on the site having regard to potential odour and noise impacts on uses on the site and adjoining sites.	AO2.1 A refuse area is provided that: (a) includes a water connection; (b) is of a size and configuration to accommodate 2x240 litre bins per dwelling or accommodation unit where involving a use other than a residential care facility or retirement facility; and (c) is of a size and configuration to accommodate a minimum of two bulk refuse bins where involving a residential care facility or retirement facility.	•	On-site refuse storage will be provided within the Common area in the form of 'wheelie' bins which will be emptied and kept clean by the on-site manager.			

All Accommodation activities, except for I	Owelling house		
PO3 Accommodation activities are designed to avoid overlooking or loss of privacy for adjoining uses. Note—These provisions apply to any adjoining use, both on an adjoining site and on the same site.	The windows of habitable rooms: (a) do not overlook the windows of a habitable room in an adjoining dwelling or accommodation unit; or (b) are separated from the windows of a habitable room in an adjoining dwelling or accommodation unit by a distance greater than: (i) 2 metres at ground level; and (ii) 8 metres above ground level; or (c) are treated with: (i) a minimum sill height of 1.5 metres above floor level; or (ii) fixed opaque glassed installed below 1.5 metres; or (iii) fixed external screens; or (iv) a 1.5 metre high screen fence along the common boundary.	•	The proposed camping area on the site is set back a significant distance from the nearest adjoining boundary. No buildings are proposed.
PO4 Accommodation activities are provided with sufficient private and communal open space areas which: (a) accommodate a range of landscape treatments, including soft and hard landscaping; (b) provide a range of opportunities for	AO4.1 Development, except for Caretaker's accommodation, Dwelling house, Dual occupancy or Home based business, includes communal open space which meets or exceeds the minimum area, dimension and design parameters specified in Table 9.3.1.3C.	•	Ample area within the dedicated 3.2ha camping area is available for recreational activities. A dedicated Common area is located in a central location and has ample area to accommodate a fire pit and open recreational spaces. Campers are expected to be fully self-sufficient.
passive and active recreation; (c) provide a positive outlook and high quality of amenity to residents; (d) is conveniently located and easily accessible to all residents; and (e) contribute to an active and attractive	AO4.2 Development includes private open space for each dwelling or accommodation unit which meets or exceeds the minimum area, dimension and design parameters specified in Table 9.3.1.3D.	n/ a	No dwellings or accommodation units are proposed.
streetscape.	AO4.3 Clothes drying areas are provided at the side or rear of the site so that they are not visible from the street.	n/ a	Campers are expected to be fully self- sufficient, utilizing their own camping equipment to facilitate clothes drying. Campsites are not visible from the street.

	If for Dual occupancy, Multiple dwelling, Residential care facility or Retirement facility, development provides a secure storage area for each dwelling or accommodation unit which: (a) is located to facilitate loading and unloading from a motor vehicle; (b) is separate to, and does not obstruct, on-site vehicle parking or manoeuvring areas; (c) has a minimum space of 2.4m² per dwelling or accommodation unit; (d) has a minimum height of 2.1 metres; (e) has minimum dimensions to enable secure bicycle storage; (f) is weather proof; and (g) is lockable.	n/a	No Dual occupancies, Multiple dwellings, Residential care facilities or Retirement facilities are proposed.
If for Caretaker's Accommodation			
PO5 Caretaker's accommodation is of a scale and intensity which is consistent with that of the surrounding area.	AO5.1 Only one caretaker's accommodation is established on the title of the non-residential use.	~	The existing dwelling house will be considered the Caretakers accommodation.
Note—Where Caretaker's Accommodation is assessable development additional assessment benchmarks are provided under "for assessable development".	AO5.2 In the Rural zone, Caretaker's accommodation has a maximum gross floor area of 200m ² .	~	The existing dwelling house will be considered the Caretakers accommodation.

If for Dwelling house			
PO6 Where a Dwelling house involves a secondary dwelling, it is designed and located to: (a) not dominate the site; (b) remain subservient to the primary dwelling; and (c) be consistent with the character of	AO6.1 The secondary dwelling is located within: (a) 10 metres of the primary dwelling where on a lot that has an area of 2 hectares or less; or (b) 20 metres of the primary dwelling where on a lot that has an area of greater than 2 hectares.	n/a	No Secondary Dwellings are proposed.
the surrounding area;	AO6.2 A secondary dwelling has a maximum gross floor area of 100m ² .	n/a	No Secondary Dwellings are proposed.
If for Dual occupancy			
PO7 Where establishing a Dual occupancy on a corner lot, the building is designed to: (a) maximise opportunities for causal	AO7.1 Where located on a corner allotment, each dwelling is accessed from a different road frontage.	n/a	No Dual Occupancies are proposed.
surveillance; (b) provide for separation between the two dwellings; and (c) provide activity and visual interest on both frontages.	AO7.2 The maximum width of garage or carport openings that face a public street is 6 metres or 50% of the building width, whichever is the lesser.	n/a	No Dual Occupancies are proposed.
If for Multiple dwelling, Residential care fa	acility or Retirement facility		
PO8 Development is appropriately located within the Shire to: (a) maximise the efficient utilisation of existing infrastructure, services and facilities; and (b) minimise amenity impacts through the collocation of compatible uses.	AO8 Multiple dwelling, Residential care facility or Retirement facility uses are located on land within 800 metres of the boundary of land within the Centre zone.	n/a	No Multiple dwellings, Residential care facilities or Retirement facilities are proposed.
Note—Where Residential care facility or Retirement facility is assessable development additional assessment benchmarks are provided under "for assessable development".			

Buildings are designed to: (a) reduce the appearance of building bulk; (b) provide visual interest through articulation and variation; (c) be compatible with the embedded, historical character for the locality; and (d) be compatible with the scale of surrounding buildings Note—Where Residential care facility or Retirement facility is assessable	AO9.1 External walls do not exceed 10 metres in continuous length unless including a minimum of three of the following building design features and architectural elements: (a) a change in roof profile; or (b) a change in parapet coping; or (c) a change in awning design; or (d) a horizontal or vertical change in the wall plane; or (e) a change in the exterior finishes and exterior colours of the development.	n/a	No buildings are proposed.
development additional assessment benchmarks are provided under "for assessable development".	AO9.2 For a Multiple dwelling, Residential care facility or Retirement facility, the maximum width of a garage or carport opening that faces a road is 6 metres.	n/a	No Multiple dwellings, Residential care facilities or Retirement facilities are proposed.
	AO9.3 For a Multiple dwelling, Residential care facility or Retirement facility, the building(s) include awnings with a minimum overhang of 600mm.	n/a	No Multiple dwellings, Residential care facilities or Retirement facilities are proposed.
	AO9.4 For a Multiple dwelling, Residential care facility or Retirement facility, roof forms include one or more of the following types: (a) pyramidal; (b) hip or hipped; (c) gable; (d) skillion.	n/a	No Multiple dwellings, Residential care facilities or Retirement facilities are proposed.
If for Residential care facility or Retiremen	· · · · · · · · · · · · · · · · · · ·		
PO10 The layout and design of the site: (a) promotes safe and easy pedestrian, cycle and mobility device movement;	AO10.1 The development incorporates covered walkways and ramps on site for weather protection between all buildings.	n/a	No Residential care facilities or Retirement facilities are proposed.
(b) defines areas of pedestrian movement; and(c) assists in navigation and way finding.	AO10.2 Pedestrian paths include navigational signage at intersections.	n/a	No Residential care facilities or Retirement facilities are proposed.

Note—Where Residential care facility or Retirement facility is assessable development additional assessment	AO10.3 Buildings, dwellings and accommodation units include identification signage at entrances.	n/a	No Residential care facilities or Retirement facilities are proposed.
benchmarks are provided under "for assessable development".	AO10.4 An illuminated sign and site map is provided at the main site entry.	n/a	No Residential care facilities or Retirement facilities are proposed.
	AO10.5 Buildings, structures and pathways associated with a Residential care facility or Retirement facility are not located on land with a gradient greater than 8%.	n/a	No Residential care facilities or Retirement facilities are proposed.
If for Home based business			
PO11 Home based businesses are compatible with the built form, character and amenity of the surrounding area, having regard to:	AO11.1 The Home based business is located within a dwelling house or outbuilding associated with a dwelling house.	n/a	No Home based businesses are proposed.
(a) size and scale;(b) intensity and nature of use;	AO11.2 The Home based business does not occupy a gross floor area of more than 50m ² .	n/a	No Home based businesses are proposed.
(c) number of employees; and(d) hours of operation.	AO11.3 No more than 1 person (other than the residents of the site) is employed by the Home based business at any one time.	n/a	No Home based businesses are proposed.
	AO11.4 The Home based business, unless a home office, bed and breakfast or farm stay, does not operate outside the hours of 7.00 am and 6.00 pm.	n/a	No Home based businesses are proposed.
	AO11.5 The Home based business does not involve the public display of goods external to the building.	n/a	No Home based businesses are proposed.
	AO11.6 The Home based business does not involve the repair, cleaning or servicing of any motors, vehicles or other machinery.	n/a	No Home based businesses are proposed.
	AO11.7 Any equipment or materials associated with the Home based business are screened from public view and adjacent properties by fencing or landscaping.	n/a	No Home based businesses are proposed.

	AO11.8 The business does not involve the use of power tools or similar noise generating devices.	n/a	No Home based businesses are proposed.
PO12 Home based businesses involving accommodation activities are appropriately scaled and designed to avoid detrimental	AO12.1 Home based businesses involving accommodation activities are limited to the scale specified in Table 9.3.1.3E.	n/a	No Home based businesses are proposed.
impacts on the amenity and privacy of surrounding residences.	AO12.2 A farm stay dwelling or accommodation unit is located within 20 metres of the primary dwelling house.	n/a	No Home based businesses are proposed.
	AO12.3 A farm stay is setback 100 metres from any property boundary.	n/a	No Home based businesses are proposed.
	AO12.4 Entertainment and dining facilities associated with an accommodation activity are: (a) located at least 5 metres from the bedrooms of adjoining residences; and (b) located or screened so that they do not directly overlook private open space areas of adjoining properties.	n/a	No Home based businesses are proposed.
If for Rural workers' accommodation			
PO13 The Rural workers' accommodation is directly associated with an agricultural based rural activity on the same premises and is commensurate with the scale of agricultural operations.	AO13.1 A Rural workers' accommodation building is limited to the accommodation of: (a) one rural worker for every 50 hectares; and (b) a maximum of ten rural workers in total.	n/a	No Rural workers' accommodation is proposed.
	AO13.2 The agricultural based rural activity is a minimum of 50 hectares in area.	n/a	No Rural workers' accommodation is proposed.

PO14 Rural workers' accommodation is provided with amenities commensurate with the: (a) needs of the employees; and (b) permanent or seasonal nature of the	AO14.1 The Rural workers' accommodation is: (a) for permanent occupation; and (b) fully self-contained. OR	n/a	No Rural workers' accommodation is proposed.
employment.	AO14.2 The Rural workers' accommodation: (a) is for seasonal occupation (up to 3 months); (b) shares facilities with an existing Dwelling house or Caretaker's residence; and (c) is located within 100 metres of the Dwelling house or Caretaker's residence.	n/a	No Rural workers' accommodation is proposed.
For assessable development			
If for Caretaker's Accommodation			
PO15 The inclusion of Caretaker's accommodation on the site is necessary for the operation of the primary use, having regard to: (a) hours of operation; (b) nature of the use; (c) security requirements; (d) site location and access; and (e) proximity to other land uses.	AO15 No acceptable outcome is provided.	n/a	No Caretaker's accommodation is proposed.
If for Residential care facility or Retiremen			N
PO16 Retirement facilities include a range of housing designs and types that: (a) meet the needs of residents; (b) allow for 'ageing in place'; (c) consider differing mobility needs; (d) accommodate differing financial situations; and (e) cater for different household types.	AO16 No acceptable outcome is provided.	n/a	No Residential care facilities or Retirement facilities are proposed.

If for Tourist park			
PO17 The Tourist park is appropriately located to provide park users with convenient access to tourist attractions, community facilities and infrastructure.		•	The proposed Tourist Park is located centrally in the Mareeba area within a short distance to many local attractions.
PO18 The density of accommodation provided within the Tourist park: (a) is commensurate with the size and utility of the site; (b) is consistent with the scale and character of development in the surrounding area; (c) ensures sufficient infrastructure and services can be provided; (d) does not adversely impact on the existing amenity of nearby uses; (e) ensures a high level of amenity is enjoyed by residents of the site; and	 (b) 60 tent sites per hectare of the nominated area(s); or (c) 10 cabins (maximum 30m² gross floor area per cabin) per hectare of the nominated area(s). 	•	The dedicated camping area has an area of ~32,000m² which is considered ample area to accommodate the maximum proposed guest number of 74 with a mix of tent and campervan sites.
(f) does not place undue pressure on environmental processes in the surrounding area.	AO18.2 Where park areas are proposed to be used for any combination of caravans, motor homes, tents or cabins, then the lowest applicable density identified by AO18.1 shall be applied to the nominated area(s).	•	The dedicated camping area has an area of ~32,000m² which is considered ample area to accommodate the maximum proposed guest number of 74 with a mix of tent and campervan sites.
PO19 Accommodation sites are designed and located: (a) to provide sufficient land for necessary services and infrastructure;	AO19.1 A minimum of 50% of provided caravan and motor home accommodation sites have a concrete slab with a minimum length of 6 metres and a minimum width of 2.4 metres.	n/a	The proposed Tourist Park will accommodate fully self-contained camping guests only such as tents and campervans. No permanent structures or concrete slabs are proposed.
(b) to achieve sufficient separation between land uses; (c) is consistent with the scale and character of development in the surrounding area; and (d) to prevent amenity and privacy impacts on nearby land uses.	AO19.2 Caravan, motor home, tent and cabin accommodation sites are set back a minimum of: (a) 2 metres from an internal road; and (b) 1.5 metres from the side and rear boundaries of the site.	~	All camping areas are accessed via on-site tracks. Camping sites will be set back 2m from those internal roads. The nearest boundary to the camping area is ~60m from the western most camping area.

PO20 A Tourist park is provided with sufficient and appropriately located refuse collection areas.	AO20.1 A central refuse collection area is provided to service all accommodation sites.	~	On-site refuse storage will be provided within the Common area in the form of 'wheelie' bins.
	AO20.2 The refuse collection area must be kept in a sanitary condition at all times with all refuse stored in weather-proof and securable receptacles to prevent them from attracting vermin and wildlife.	~	On-site refuse storage bins will be emptied and kept clean by the on-site manager.
	AO20.3 The refuse collection area is constructed on an impervious surface such as a concrete slab.	•	On-site refuse storage will be located on a dedicated hardstand of 1m ² per bin.
	AO20.4 A water connection is provided within the refuse collection area to facilitate cleaning of receptacles and the collection area.	~	On-site refuse storage bins will be emptied and kept clean by the on-site manager in an area away from the campsite.
	AO20.5 Refuse collection areas are located a minimum of 10 metres from any recreational areas, communal cooking facilities and accommodation sites.	~	On-site refuse storage will be provided within the Common area.

9.4.1 Advertising Devices Code

The development proposal includes an advertising device and is assessed hereto against the Advertising Devices Code of the Mareeba Shire Planning Scheme (2016).

Proposed advertising device located at the campsite entry fronting Kovacic Road.

9.4.1.3 Criteria for Assessment

Table 9.4.1.3A—Advertising devices code - For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to requ	irements and assessable development		
Public safety			
PO1 Advertising devices are designed, sited and constructed to maintain the efficient function of road infrastructure and not impede safe vehicular and pedestrian movements.	AO1.1 Advertising devices do not: (a) resemble traffic control devices; or (b) give instructions to traffic; or (c) resemble a hazard or warning light through colour or method of operation, if visible from a road; or (d) cause interference with the visibility and effectiveness of hazard or warning lights; or (e) encroach onto any part of a road, road reserve, pedestrian or cycle path; or (f) incorporate highly reflective materials and finishes; or (g) cause significant visual or physical obstruction of, or distraction to, vehicular or pedestrian traffic.	•	An advertising device will be situated inside the property boundary and be designed, sited and constructed not to impede the functionality or safety of vehicle or pedestrian movements.

Character and amenity			
PO2 Advertising devices are designed and located to: (a) avoid visual clutter; (b) avoid overshadowing of adjoining premises or public places; (c) prevent loss of daylight or sunlight access for nearby uses; (d) be consistent with the built and natural character of the immediate surrounds; and (e) allow for the identification of premises, uses and business.	AO2.1 Advertising devices: (a) do not move, revolve, strobe or flash; (b) are not painted or erected on a roof (excluding awnings) or structure (such as a silo or tank); (c) do not incorporate overt or explicit language or visual content that is likely to be offensive to the general public; (d) primarily advertise a business and/or commercial premises rather than products; (e) are located on the property to which the advertising relates; (f) do not protrude above the roofline or parapet; and (g) are limited to those devices identified in Table 9.4.1.3B.		The proposed device is intended for the identification of the campsite location and will face Kovacic Road at the campsite entry road within the property boundary. The sign will not be illuminated, will not have moving elements, will not contain explicit or offensive content and will advertise the campsite only.
	AO2.2 The number, type and design of advertising devices complies with Table 9.4.1.3D.	•	The proposed signage is compliant with the parameters set for advertising devices in Table 9.4.1.3D. The sign will not exceed 3m in height.

For assessable development					
Character and amenity					
PO3 Advertising devices are: (a) designed and engineered to a standard that satisfies the wind classification for the particular area; (b) appropriately secured and supported so as to cause no injury or damage to persons or property; (c) not displayed on or attached to a tree, roadside pole or official traffic or safety sign; and (d) appropriately separated from any electricity infrastructure.	AO3 No acceptable outcome is provided.	~	The proposed signage will be designed and constructed to the applicable standards.		
Freestanding advertising devices, where located on land fronting a state-controlled road, are appropriately located and designed to: (a) not impact on the safety and efficiency of the state controlled road network; and (b) preserve rural character and landscape values.	Freestanding advertising devices: (a) have a maximum sign face area of 18m² and a maximum sign face width of 6 metres; (b) are sited a minimum of 1 kilometre from all existing freestanding advertising devices whether or not they are on the same side of the road; (c) are of a design and colour that is compatible with existing adjacent development; and (d) are only located on properties with frontage to either side of the sections of State-controlled road identified in Table 9.4.1.3C.	n/a	The proposed advertising device is not located on a state-controlled road frontage.		

Table 9.4.1.3D—Number, Type and Design of Advertising Devices.

Zone/Use	Maximum number of signs per site	Sign types	Maximum face	Design requirements	Complies
Zones					
		All signs	-	(a) Not illuminated	~
		Fence	2.5m ²	(a) Located wholly within the premises facing the road frontage(s) of the site	~
Rural zone	1	Freestanding	2.9m²	 (a) Sited a minimum of 1 kilometre from all existing freestanding advertising devices whether or not they are on the same side of the road (b) Setback a minimum of 1 metre from the property boundaries (c) Located below the height of the vegetation within the surrounding landscape when viewed from adjacent roads or prominent public viewing points (d) Maximum height of 3 metres 	•

9.4.2 Landscaping Code

The development proposal is Impact Assessable and is assessed hereto against the Landscaping Code of the Mareeba Shire Planning Scheme (2016).

9.4.2.3 Criteria for assessment

Table 9.4.2.3A—Landscaping code - For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to requ	uirements and assessable development		
PO1 Development, other than in the Rural zone, includes landscaping that: (a) contributes to the landscape character of the Shire; (b) compliments the character of the immediate surrounds; (c) provides an appropriate balance between built and natural elements; and (d) provides a source of visual interest.	Development, other than in the Rural zone, provides: (a) a minimum of 10% of the site as landscaping; (b) planting in accordance with Planning Scheme Policy 6 - Landscaping and preferred plant species; (c) for the integration of retained significant vegetation into landscaping areas; (d) on-street landscaping works in accordance with the Design Guidelines set out in Section D9 Landscaping, of the Planning Scheme Policy 4 - FNQROC Regional Development Manual. Note—Where development exceeds a site cover of 90%, areas of landscaping may be provided above ground level to achieve a total supply of landscaping equivalent to 10% of the site area.	n/a	The proposed development is located in the Rural zone.

Performance outcomes	Acceptable outcomes	Complies	Comments
PO2 Development, other than in the Rural zone, includes landscaping along site frontages that: (a) creates an attractive streetscape; (b) compliments the character of the immediate surrounds; (c) assists to break up and soften elements of built form; (d) screen areas of limited visual interest or servicing; (e) provide shade for pedestrians; and (f) includes a range and variety of planting.	Development, other than in the Rural zone, includes a landscape strip along any site frontage: (a) with a minimum width of 2 metres where adjoining a car parking area; (b) with a minimum width of 1.5 metres in all other locations; and (c) in accordance with Planning Scheme Policy 6 - Landscaping and preferred plant species. Note—Where development is setback from a frontage less than 1.5 metres, the setback area is provided as a landscape strip	n/a	The proposed development is located in the Rural zone.
PO3 Development includes landscaping and fencing along side and rear boundaries that: (a) screens and buffer land uses; (b) assists to break up and soften	AO3.1 Development provides landscape treatments along side and rear boundaries in accordance with Table 9.4.2.3B. AO3.2	•	The proposed Tourist Park is in the Rural Zone. As per Table 9.4.2.3B, existing vegetation will be maintained along the northern boundary between the camping area and the adjoining neighbour. The existing vegetation will be retained.
elements of built form; (c) screens areas of limited visual interest; (d) preserves the amenity of sensitive land uses; and (e) includes a range and variety of planting.	Shrubs and trees provided in landscape strips along side and rear boundaries: (a) are planted at a maximum spacing of 1 metre; (b) will grow to a height of at least 2 metres; (c) will grow to form a screen of no less than 2 metres in height; and (d) are mulched to a minimum depth of 0.1 metres with organic mulch.		
	AO3.3 Any landscape strip provided along a side or rear boundary is designed in accordance with Planning Scheme Policy 6 - Landscaping and preferred plant species.	•	The existing vegetation will be retained.

Performance outcomes	Acceptable outcomes	Complies	Comments
PO4 Car parking areas are improved with a variety of landscaping that: (a) provides visual interest; (b) provides a source of shade for pedestrians; (c) assists to break up and soften elements; and (d) improves legibility.	AO4.1 Landscaping is provided in car parking areas which provides: (a) a minimum of 1 shade tree for every 4 parking spaces, or part thereof, where the car parking area includes 12 or more spaces; (b) a minimum of 1 shade tree for every 6 parking spaces, or part thereof, otherwise; and (c) where involving a car parking area in excess of 500m²: (i) shade structures are provided for 50% of parking spaces; and (ii) a minimum of 10% of the parking area as landscaping. Note—Where a shade structure is provided over part of a car parking area, shade tree planting is not required in this area of the car parking area.	n/a	No car parking facilities (apart from inclusive parking space per camp site) are proposed.
	AO4.2 Landscaping in car parking areas is designed in accordance with Planning Scheme Policy 6 - Landscaping and preferred plant species.	n/a	No car parking facilities (apart from inclusive parking space per camp site) are proposed.
PO5 Landscaping areas include a range and variety of planting that: (a) is suitable for the intended purpose and	AO5.1 Plant species are selected from the Plant Schedule in Planning Scheme Policy 6 - Landscaping and preferred plant species.	•	The existing vegetation will be retained.
local conditions; (b) contributes to the natural character of the Shire; (c) includes native species; (d) includes locally endemic species, where practical; and (e) does not include invasive plants or weeds.	AO5.2 <u>A minimum of 25</u> % of (new and existing) plants is provided as larger, advanced stock with a minimum plant height of 0.7 metres and mulched to a minimum depth of 0.1 metres with organic mulch.	•	The existing vegetation will be retained.

Perf	ormance outcomes	Acceptable outcomes	Complies	Comments
ongo	dscaping does not impact on the bing provision of infrastructure and ices to the Shire.	AO6.1 Tree planting is a minimum of (a) 2 metres from any underground water, sewer, gas, electricity or telecommunications infrastructure; and (b) 4 metres from any inspection chamber.	•	The nature strip is located well clear of any infrastructure.
		AO6.2 Vegetation below or within 4 metres of overhead electricity lines and power poles has a maximum height of 3.5 metres at maturity.	•	The nature strip is located well clear of any infrastructure.
		AO6.3 Vegetation adjoining an electricity substation boundary, at maturity, will have: (a) a height of less than 4 metres; and (b) no foliage within 3 metres of the substation boundary, unless the substation has a solid wall along any boundary.	n/a	The site does not adjoin an electricity substation boundary.
For	assessable development			
PO7 Lanc (a) (b) (c) (d)	dscaping areas are designed to: be easily maintained throughout the ongoing use of the site; allow sufficient area and access to sunlight and water for plant growth; not cause a nuisance to occupants of the site or members of the public; and maintain or enhance the safety of pedestrians through the use of Crime Prevention Through Environmental Design principles.	AO7 No acceptable outcome is provided.	•	All landscaped/vegetated areas are located in an accessible area and will be maintained by the site manager.

9.4.3 Parking and Access Code

The development proposal is Impact Assessable and is assessed hereto against the Parking and Access Code of the Mareeba Shire Planning Scheme (2016).

9.4.3.3 Criteria for assessment

Table 9.4.3.3A—Parking and access code – For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to requ	irements and assessable development		
Car parking spaces			
PO1 Development provides sufficient car parking to accommodate the demand likely to be generated by the use, having regard to the: (a) nature of the use; (b) location of the site; (c) proximity of the use to public transport services; (d) availability of active transport infrastructure; and (e) accessibility of the use to all members of the community.	AO1 The number of car parking spaces provided for the use is in accordance with Table 9.4.3.3B. Note—Car parking spaces provided for persons with a disability are to be considered in determining compliance with AO1.	•	The proposed campsite contains ample area and complies with the requirements of Table 9.4.3.3B by providing 1 space for car parking within each camping area as addressed in the Accommodation Activities Code. Ample area remains for visitor parking. Refer to the Planning Report for area details.
Vehicle crossovers			
PO2 Vehicle crossovers are provided to:: (a) ensure safe and efficient access between the road and premises; (b) minimize interference with the function and operation of roads; and	AO2.1 Vehicular access to/from Council roads is designed and constructed in accordance with the Standard drawings in Planning Scheme Policy 4 - FNQROC Regional Development Manual.	•	A vehicular crossover is already in place between Kovacic Road and the proposed entrance gate to the campsite.

Performance outcomes	Acceptable outcomes	Complies	Comments
(c) minimise pedestrian to vehicle conflict.	AO2.2 Development on a site with two or more road frontages provides vehicular access from: (a) the primary frontage where involving Community activities or Sport and recreation activities, unless the primary road frontage is a Statecontrolled road; or (b) from the lowest order road in all other instances.	n/a	The site has only one road frontage.
	AO2.3 Vehicular access for particular uses is provided in accordance with Table 9.4.3.3E.	•	There is only one vehicular access provided to the camping area. No camp site has individual access.
PO3 Access, manoeuvring and car parking areas include appropriate pavement treatments having regard to: (a) the intensity of anticipated vehicle movements; (b) the nature of the use that they service; and (c) the character of the surrounding locality.	AO3 Access, manoeuvring and car parking areas include pavements that are constructed in accordance with Table 9.4.3.3C.	•	On-site access roads for the camping area are already constructed.
For assessable development			
Parking area location and design PO4 Car parking areas are located and designed to: (a) ensure safety and efficiency in operation; and	AO4.1 Car parking spaces, access and circulation areas have dimensions in accordance with AS/NZS 2890.1 Offstreet car parking.	n/a	No formal parking areas are proposed or required for the proposed camping ground.
(b) be consistent with the character of the surrounding locality.	AO4.2 Disabled access and car parking spaces are located and designed in accordance with AS/NZS 2890.6 Parking facilities - Off-street parking for people with disabilities.	n/a	No formal parking areas are proposed or required for the proposed camping ground.

Performance outcomes	Acceptable outcomes	Complies	Comments
	AO4.3 The car parking area includes designated pedestrian routes that provide connections to building entrances.	n/a	No formal parking areas are proposed or required for the proposed camping ground.
	Parking and any set down areas are: (a) wholly contained within the site; (b) visible from the street where involving Commercial activities, Community activities, Industrial activities or a use in the Recreation and open space zone; (c) are set back behind the main building line where involving a Dual occupancy, Multiple dwelling, Residential care facility or Retirement facility; and (d) provided at the side or rear of a building in all other instances.	n/a	No formal parking areas are proposed or required for the proposed camping ground.
Site access and manoeuvring			
PO5 Access to, and manoeuvring within, the site is designed and located to: (a) ensure the safety and efficiency of the external road network; (b) ensure the safety of pedestrians; (c) provide a functional and convenient layout; and (d) accommodate all vehicles intended to use the site.	AO5.1 Access and manoeuvrability is in accordance with: (a) AS28901 – Car Parking Facilities (Off Street Parking); and (b) AS2890.2 – Parking Facilities (Offstreet Parking) Commercial Vehicle Facilities. Note—Proposal plans should include turning circles designed in accordance with AP34/95 (Austroads 1995) Design Vehicles and Turning Path Templates.	n/a	No formal parking or maneuvering areas are proposed or required for the proposed camping ground.
	AO5.2 Vehicular access has a minimum sight distance in accordance with Part 5 of AUSTROADS.	n/a	On-site access roads for the camping area are already constructed.

Performance outcomes	Acceptable outcomes	Complies	Comments
	AO5.3 Vehicular access is located and designed so that all vehicles enter and exit the site in a forward gear.	n/a	On-site access roads for the camping area are already constructed.
	AO5.4 Pedestrian and cyclist access to the site: (a) is clearly defined; (b) easily identifiable; and (c) provides a connection between the site frontage and the entrance to buildings and end of trip facilities (where provided).	n/a	On-site access roads for the camping area are already constructed.
PO6 Development that involves an internal road network ensures that it's design: (a) ensure safety and efficiency in operation;	AO6.1 Internal roads for a Tourist park have a minimum width of: (a) 4 metres if one way; or (b) 6 metres if two way.	•	On-site 4m wide access roads for the camping area are already constructed.
 (b) does not impact on the amenity of residential uses on the site and on adjoining sites, having regard to matters of: (i) hours of operation; (ii) noise (iii) light; and (iv) odour; (c) accommodates the nature and volume of vehicle movements anticipated to be 	For a Tourist park, internal road design avoids the use of cul-de-sacs in favour of circulating roads, where unavoidable, cul-de-sacs provide a full turning circle for vehicles towing caravans having: (a) a minimum approach and departure curve radius of 12 metres; and (b) a minimum turning circle radius of 8 metres.	•	On-site access roads for the camping area are already constructed. Ample open space is available for vehicles to turn around.
generated by the use; (d) allows for convenient access to key onsite features by pedestrians, cyclists and motor vehicles; and (e) in the Rural zone, avoids environmental degradation.	AO6.3 Internal roads are imperviously sealed and drained, apart from those for an Energy and infrastructure activity or Rural activity.	n/a	On-site access roads for the camping area are already constructed.
dogradation.	AO6.4 Speed control devices are installed along all internal roads, apart from those for an Energy and infrastructure activity or Rural activity, in accordance with Complete Streets.	n/a	On-site access roads for the camping area are already constructed.

Performance outcomes	Acceptable outcomes	Complies	Comments
	AO6.5 Internal roads, apart from those for an Energy and infrastructure activity or Rural activity, are illuminated in accordance with AS 4282 (as amended) - Control of Obtrusive effects of outdoor lighting.	n/a	On-site access roads for the camping area are already constructed. No lighting is proposed.
	AO6.6 Where involving an accommodation activity, internal roads facilitate unobstructed access to every dwelling, accommodation unit, accommodation site and building by emergency services vehicles.	•	On-site access roads for the camping area are already constructed and provide unobstructed site access.
	AO6.7 For an Energy and infrastructure activity or Rural activity, internal road gradients: (a) are no steeper than 1:5; or (b) are steeper than 1:5 and are sealed.	n/a	The proposal does not involve Energy and Infrastructure or Rural Activities.
Servicing			
PO7 Development provides access, maneuvering and servicing areas on site that: (a) accommodate a service vehicle commensurate with the likely demand generated by the use; (b) do not impact on the safety or efficiency of internal car parking or maneuvering	AO7.1 All unloading, loading, service and waste disposal areas are located: (a) on the site; (b) to the side or rear of the building, behind the main building line; (c) not adjacent to a site boundary where the adjoining property is used for a sensitive use.	n/a	Minimal waste disposal facilities will be provided in way of 'wheelie' bins which will be collected by the on-site manager for kerbside collection.
areas; (c) do not adversely impact on the safety or efficiency of the road network; (d) provide for all servicing functions	AO7.2 Unloading, loading, service and waste disposal areas allow service vehicles to enter and exit the site in a forward gear.	n/a	Minimal waste disposal facilities will be provided in way of 'wheelie' bins which will be collected by the on-site manager for kerbside collection.

Performance outcomes	Acceptable outcomes	Complies	Comments
associated with the use; and (e) are located and designed to minimise their impacts on adjoining sensitive land uses and streetscape quality.	AO7.3 Development provides a servicing area, site access and maneuvering areas to accommodate the applicable minimum servicing vehicle specified in Table 9.4.3.3B.	•	On-site access roads for the camping area are already constructed. Ample open space is available for vehicles to turn around.
Maintenance			
PO8 Parking areas are used and maintained for their intended purpose.	AO8.1 Parking areas are kept and used exclusively for parking and are maintained in a suitable condition for parking and circulation of vehicles.	n/a	No formal parking or maneuvering areas are proposed or required for the proposed camping ground.
	AO8.2 All parking areas will be compacted, sealed, drained, line marked and maintained until such time as the development ceases.	n/a	No formal parking or maneuvering areas are proposed or required for the proposed camping ground.
End of trip facilities			
PO9 Development within the Centre zone; Industry zone or Emerging community zone provides facilities for active transport users	AO9.1 The number of bicycle parking spaces provided for the use is in accordance with Table 9.4.3.3D.	n/a	The site is not located in the Centre zone, Industry zone or Emerging community zone.
that: (a) meet the anticipated demand generated from the use; (b) comprise secure and convenient bicycle parking and storage; and (c) provide end of trip facilities for all active transport users.	AO9.2 End of trip facilities are provided in accordance with Table 9.4.3.3D.	n/a	The site is not located in the Centre zone, Industry zone or Emerging community zone.

PO10 The level of traffic generated by the development on the surrounding local road network must not result in unacceptable impacts on adjacent land and local road users.	AO10 A traffic impact report is prepared by a suitably qualified person that identifies: (a) the expected traffic movements to be generated by the facility; (b) any associated impacts on the road network; and (c) any works that will be required to address the identified impacts.	n/a	The proposal is not for an Educational establishment or Child care centre.
If for Educational establishment or Child of Sport and recreation activities or Tourist p		vehicle mov	vements per day or Renewable energy fac
PO11 The level of traffic generated by the development on the surrounding local road network must not result in unacceptable impacts on adjacent land and local road users.	AO11 A traffic impact report is prepared by a suitably qualified person that identifies: (a) the expected traffic movements to be generated by the facility; (b) any associated impacts on the road network; and (c) any works that will be required to address the identified impacts.	n/a	The proposal is not for an Educational establishment or Child care centre.

Table 9.4.3.3B—Vehicle Parking and Service Vehicle Space Requirements.

Definition	Minimum number of Car parking spaces	Minimum Service Vehicle Space Provision	Complies
Tourist park	One space within each accommodation site plus 1 additional visitor space per 10 accommodation sites. Queuing for 2 vehicles towing caravans and 1 holding bay for a vehicle towing a caravan plus additional queuing for 1 vehicle towing a caravan per 40 accommodation sites.	One HRV space.	•

Table 9.4.3.3E—Vehicular Access for Specific Uses.

Use	Design	Complies
Tourist park	(a) a single vehicular access point is provided to the site; and(b) no accommodation site has individual vehicular access.	•

9.4.5 Works, Services and Infrastructure Code

The development proposal is Impact Assessable and is assessed hereto against the Works, Services and Infrastructure Code of the Mareeba Shire Planning Scheme (2016).

9.4.5.3 Criteria for Assessment

Table 9.4.5.3 - Works, services and infrastructure code – For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to rec	uirements and assessable development		
Water supply			
PO1 Each lot has an adequate volume and supply of water that: (a) meets the needs of users; (b) is adequate for fire-fighting purposes; (c) ensures the health, safety and convenience of the community; and (d) minimises adverse impacts on the receiving environment.	AO1.1 Development is connected to a reticulated water supply system in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual other than where located: (a) in the Conservation zone, Rural zone or Rural residential zone; and (b) outside a reticulated water supply service area.	n/a	No reticulated connections are proposed. The camping grounds will be conditioned for fully self-contained camping only.

Performance outcomes	Acceptable outcomes	Complies	Comments
	Development, where located outside a reticulated water supply service area and in the Conservation zone, Rural zone or Rural residential zone is provided with: (a) a bore or bores are provided in accordance with the Design Guidelines set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual; or (b) on-site water storage tank/s: (i) with a minimum capacity of 90,000L; (ii) fitted with a 50mm ball valve with a camlock fitting; and (iii) which are installed and connected prior to the occupation or use of the development.	n/a	No reticulated connections are proposed. The designated camping area surrounds a water supply (dam) supplied by a local creek. The camping grounds will be conditioned for fully self-contained camping only.
Wastewater disposal			
PO2 Each lot provides for the treatment and disposal of effluent and other waste water that: (a) meets the needs of users; (b) is adequate for fire-fighting purposes; (c) ensures the health, safety and convenience of the community; and (d) minimises adverse impacts on the receiving environment.	AO2.1 Development is connected to a reticulated sewerage system in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual other than where located: (a) in the Conservation zone, Rural zone or Rural residential zone; and (b) outside a reticulated sewerage service area.	n/a	No reticulated connections are proposed. The camping grounds will be conditioned for fully self-contained camping only.

Performance outcomes	Acceptable outcomes	Complies	Comments
	AO2.2 An effluent disposal system is provided in accordance with ASNZ 1547 On-Site Domestic Wastewater Management (as amended) where development is located: (a) in the Conservation zone, Rural zone or Rural residential zone; and (b) outside a reticulated sewerage service area.	n/a	No effluent disposal systems are proposed. The camping grounds will be conditioned for fully self-contained camping only.
Stormwater infrastructure			
PO3 Stormwater infrastructure is designed and constructed to collect and convey the design storm event to a lawful point of discharge in a manner that mitigates impacts on life and property.	AO3.1 Where located within a Priority infrastructure area or where stormwater infrastructure is available, development is connected to Council's stormwater network in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual.	n/a	The site is not located in a Priority Infrastructure area and no stormwater infrastructure is available. The campsite drains into the centrally located on-site dam.
	AO3.2 On-site drainage systems are constructed: (a) to convey stormwater from the premises to a lawful point of discharge; and (b) in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual.	n/a	The site is not located in a Priority Infrastructure area and no stormwater infrastructure is available. The campsite drains into the centrally located on-site dam.

Electricity supply			
PO4 Each lot is provided with an adequate supply of electricity	AO4 The premises: (a) is connected to the electricity supply network; or (b) has arranged a connection to the transmission grid; or (c) where not connected to the network, an independent energy system with sufficient capacity to service the development (at near average energy demands associated with the use) may be provided as an alternative to reticulated electricity where: (i) it is approved by the relevant regulatory authority; and (ii) it can be demonstrated that no air or noise emissions; and (iii) it can be demonstrated that no adverse impact on visual amenity will occur.	n/a	No reticulated connections are proposed. The camping grounds will be conditioned for fully self-contained camping only.
Telecommunications infrastructure			
PO5 Each lot is provided with an adequate supply of telecommunication infrastructure	AO5 Development is provided with a connection to the national broadband network or telecommunication services.	n/a	The proposal does not involve any Telecommunications infrastructure.
Existing public utility services			
PO6 Development and associated works do not affect the efficient functioning of public utility mains, services or installations.	Public utility mains, services are relocated, altered or repaired in association with the works so that they continue to function and satisfy the relevant Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual.	n/a	The proposal does not involve any Existing public utility services.

Excavation or filling			
PO7 Excavation or filling must not have an adverse impact on the: (a) streetscape; (b) scenic amenity; (c) environmental values; (d) slope stability;	AO7.1 Excavation or filling does not occur within 1.5 metres of any site boundary.	n/a	No earthworks are proposed.
	AO7.2 Excavation or filling at any point on a lot is to be no greater than 1.5 metres above or below natural ground level.	n/a	No earthworks are proposed.
(e) accessibility; or (f) privacy of adjoining premises.	AO7.3 Earthworks batters: (a) are no greater than 1.5 metres in height; (b) are stepped with a minimum width 2 metre berm; (c) do not exceed a maximum of two batters and two berms (not greater than 3.6 metres in total height) on any one lot; (d) have a slope no greater than 1 in 4; and (e) are retained.	n/a	No earthworks batters are proposed.
	AO7.4 Soil used for filling or spoil from excavation is not stockpiled in locations that can be viewed from: (a) adjoining premises; or (b) a road frontage, for a period exceeding 1 month from the commencement of the filling or excavation.	n/a	No earthworks are proposed.
	AO7.5 All batters and berms to be constructed in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual.	n/a	No earthworks are proposed.

	AO7.6 Retaining walls have a maximum height of 1.5 metres and are designed and constructed in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development manual.	n/a	No retaining walls are proposed or required.
	AO7.7 Excavation or filling at any point on a lot is to include measures that protect trees at the foot or top of cut or fill batters by the use of appropriate retaining methods and sensitive earth removal or placement and in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development manual.	n/a	No batters are proposed.
For assessable development			
Transport network			
PO8 The development has access to a transport network of adequate standard to provide for the safe and efficient movement of vehicles, pedestrians and cyclists.	AO8.1 Vehicle access, crossovers, road geometry, pavement, utilities and landscaping to the frontage/s of the site are designed and constructed in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development manual.	•	The proposal has direct access to Kovacic Road via an existing crossover.
	AO8.2 Development provides footpath pavement treatments in accordance with Planning Scheme Policy 9 – Footpath Paving.	n/a	No footpaths are proposed or required.
II.			
Public infrastructure	, , ,		

Stormwater quality			
PO10 Development has a non-worsening effect on the site and surrounding land and is designed to: (a) optimise the interception, retention and removal of waterborne pollutants, prior to the discharge to receiving waters; (b) protect the environmental values of waterbodies affected by the development, including upstream, onsite and downstream waterbodies; (c) achieve specified water quality objectives; (d) minimise flooding; (e) maximise the use of natural channel design principles; (f) maximise community benefit; and (g) minimise risk to public safety.	AO10.1 The following reporting is prepared for all Material change of use or Reconfiguring a lot proposals: (a) a Stormwater Management Plan and Report that meets or exceeds the standards of design and construction set out in the Queensland Urban Drainage Manual (QUDM) and the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development Manual; and (b) an Erosion and Sediment Control Plan that meets or exceeds the Soil Erosion and Sedimentation Control Guidelines (Institute of Engineers Australia), including:	~	The proposed camping ground required guest to be fully self-sufficient. Only fully self-contained camping will be allowed. No changes to the physical elements of the site are proposed. The proposal is considered to have a non-worsening effect on the site and surrounding land.

(Institute of Engineers Australia), including:
(i) drainage control;
(ii) erosion control;

(iii) sediment control; and (iv) water quality outcomes.

	For development on land greater than 2,500m² or that result in more than 5 lots or more than 5 dwellings or accommodation units, a Stormwater Quality Management Plan and Report prepared and certified by a suitably qualified design engineer (RPEQ) is prepared that demonstrates that the development: (a) meets or exceeds the standards of design and construction set out in the Urban Stormwater Quality Planning Guideline and the Queensland Water Quality Guideline; (b) is consistent with any local area stormwater water management planning; (c) accounts for development type, construction phase, local climatic conditions and design objectives; and (d) provides for stormwater quality treatment measures reflecting land use constraints, such as soil type, landscape features (including landform), nutrient hazardous areas, acid sulfate soil and rainfall erosivity.	n/a	The proposal does not involve land subdivision or any permanent accommodation structures.
PO11 Storage areas for stormwater detention and retention: (a) protect or enhance the environmental values of receiving waters; (b) achieve specified water quality objectives; (c) where possible, provide for recreational use; (d) maximise community benefit; and (e) minimise risk to public safety.	AO11 No acceptable outcome is provided.		Stormwater detention exists in way of the onsite dam around which the proposed camping area is situated.

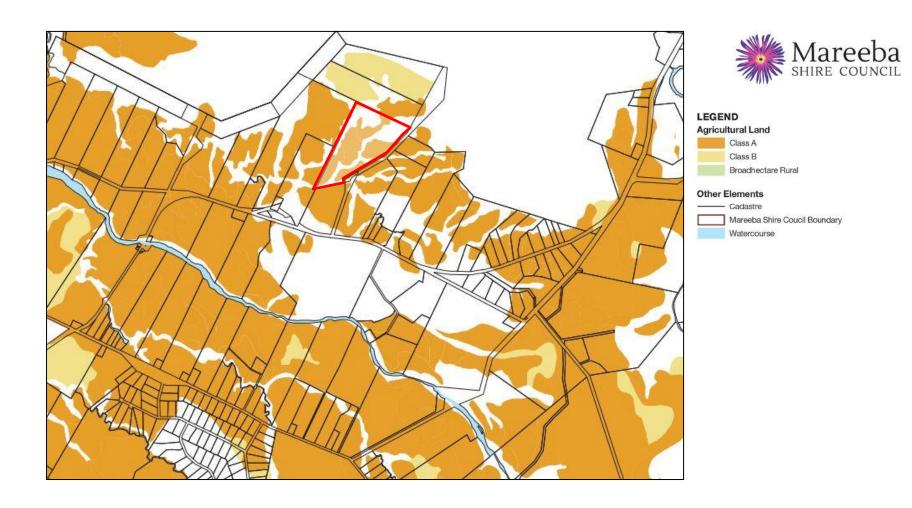

Excavation or filling					
PO12 Traffic generated by filling or excavation does not impact on the amenity of the surrounding area.	AO12.1 Haul routes used for transportation of fill to or from the site only use major roads and avoid residential areas.	n/a	No earthworks are proposed.		
	AO12.2 Transportation of fill to or from the site does not occur: (a) within peak traffic times; and (b) before 7am or after 6pm Monday to Friday; (c) before 7am or after 1pm Saturdays; and (d) on Sundays or Public Holidays.	n/a	No earthworks are proposed.		
PO13 Air pollutants, dust and sediment particles from excavation or filling, do not cause significant environmental harm or nuisance impacts.	AO13.1 Dust emissions do not extend beyond the boundary of the site.	n/a	No earthworks are proposed.		
	AO13.2 No other air pollutants, including odours, are detectable at the boundary of the site.	n/a	No earthworks are proposed.		
	AO13.3 A management plan for control of dust and air pollutants is prepared and implemented.	n/a	No earthworks are proposed.		
PO14 Access to the premises (including driveways and paths) does not have an adverse impact on: (a) safety; (b) drainage; (c) visual amenity; and (d) privacy of adjoining premises.	AO14 Access to the premises (including all works associated with the access): (a) must follow as close as possible to the existing contours; (b) be contained within the premises and not the road reserve, and (c) are designed and constructed in accordance with the Design Guidelines and Specifications set out in the Planning Scheme Policy 4 – FNQROC Regional Development manual.	n/a	No earthworks are proposed.		

Weed and pest management					
PO15 Development prevents the spread of weeds, seeds or other pests into clean areas or away from infested areas.	AO15 No acceptable outcome is provided.	n/a	No earthworks are proposed.		
Contaminated land					
PO16 Development is located and designed to ensure that users and nearby sensitive land uses are not exposed to unacceptable levels of contaminants	AO16 Development is located where: (a) soils are not contaminated by pollutants which represent a health or safety risk to users; or (b) contaminated soils are remediated prior to plan sealing, operational works permit, or issuing of building works permit.	n/a	There is no contaminated land on the site.		
Fire services in developments accessed by	y common private title				
PO17 Fire hydrants are located in positions that will enable fire services to access water safely, effectively and efficiently.	AO17.1 Fire hydrants are located in accessways or private roads held in common private title at a maximum spacing of: (a) 120 metres for residential development; and (b) 90 metres for any other development.	n/a	No fire hydrant installations are proposed. Dam water is fully accessible for fire fighting purposes.		
	AO17.2 Fire hydrants are located at all intersections of accessways or private roads held in common private title.	n/a	No fire hydrant installations are proposed. Dam water is fully accessible for fire fighting purposes.		

Agricultural Land Overlay Code

The development site is located within the Agricultural Land Overlay, Class A and is assessed hereto against the Agricultural Land Overlay Code of the Mareeba Shire Planning Scheme (2016).

Criteria for Assessment

Table 8.2.1.3 – Agricultural land overlay code - For accepted development subject to requirements and assessable development.

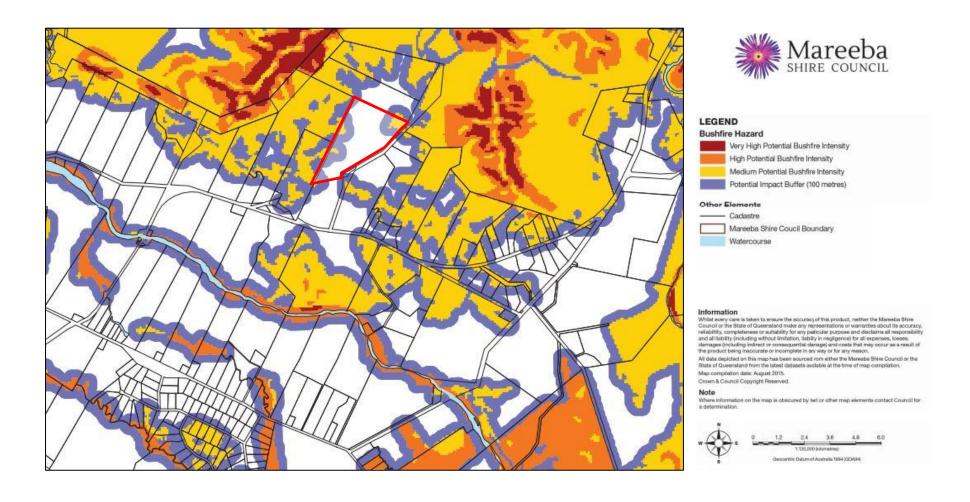

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to require	rements and assessable development		
PO1 The fragmentation or loss of productive capacity of land within the 'Class A' area or 'Class B' area identified on the Agricultural land overlay maps (OM-001a-n) is avoided unless: (a) an overriding need exists for the development in terms of public benefit; (b) no suitable alternative site exists; and (c) loss or fragmentation is minimised to the extent possible.	Buildings and structures are not located on land within the 'Class A' area or 'Class B' area identified on the Agricultural land overlay maps (OM-001a-n) unless they are associated with: (a) animal husbandry; or (b) animal keeping; or (c) cropping; or (d) dwelling house; or (e) home based business; or (f) intensive animal industry (only where for feedlotting); or (g) intensive horticulture; or (h) landing; or (i) roadside stalls; or (j) winery.	•	No buildings are proposed within the Class A Agricultural land area.
For assessable development PO2 Sensitive land uses in the 'Class A' area, 'Class B' area or the 'Broadhectare rural' area identified on the Agricultural land overlay maps (OM-001a-n) are designed and located to: (a) avoid land use conflict; (b) manage impacts from agricultural activities, including chemical spray drift, odour, noise, dust, smoke and ash; (c) avoid reducing primary production potential; and (d) not adversely affect public health, safety and amenity.	AO2 No acceptable outcome is provided.	n/a	The proposed development is not for the provision of a sensitive use.

PO3 Development in the 'Class A' area or 'Class B' area identified on the Agricultural land overlay maps (OM-001a-n): (a) ensures that agricultural land is not permanently alienated; (b) ensures that agricultural land is preserved for agricultural purposes; and (c) does not constrain the viability or use of agricultural land. If for Reconfiguring a lot	AO3 No acceptable outcome is provided.	•	The proposal is designed to avoid any loss of agricultural viability of the land. Refer to the Planning Report for further details.
PO4 The 'Broadhectare rural area' identified on the Agricultural land overlay maps (OM-001a-n) is retained in very large rural holdings viable for broad scale grazing and associated activities.	AO4 Development does not involve the creation of a new lot within the 'Broadhectare rural' area identified on the Agricultural land overlay maps (OM-001a-n).	n/a	The site is not located within the Broadhectare rural area.
PO5 Reconfiguring a lot in the 'Class A' area, 'Class B' area or the 'Broadhectare rural' area identified on the Agricultural land overlay maps (OM-001a-n) that is severed by a gazetted road occurs only where it does not fragment land used for agricultural purposes.	AO5 No acceptable outcome is provided.	n/a	The proposed development is not for the Reconfiguration of a Lot.
PO6 Any Reconfiguring a lot in the 'Class A' area, 'Class B' area or the 'Broadhectare rural' area identified on the Agricultural land overlay maps (OM-001a-n), including boundary realignments, only occurs where it: (a) improves agricultural efficiency; (b) facilitates agricultural activity; or (c) facilitates conservation outcomes; or (d) resolves boundary issues where a structure is built over the boundary line of two lots.	AO6 No acceptable outcome is provided.	n/a	The proposed development is not for the Reconfiguration of a Lot.

8.2.3 Bushfire Hazard Overlay Code

The development site is located within the Bushfire Hazard Overlay, Medium Potential Bushfire Intensity, Potential Impact Buffer (100m) and is assessed hereto against the Bushfire Hazard Overlay Code of the Mareeba Shire Planning Scheme (2016).

8.2.3.3 Criteria for assessment

Table 8.2.3.3—Bushfire hazard overlay code — For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to requ	irements and assessable development		
Water supply for fire-fighting purposes			
PO1 Development where within a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) maintains the safety of people and property by providing an adequate, accessible and reliable water supply for fire-fighting purposes which is safely located and has sufficient flow and pressure characteristics.	Where within a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) AO1.1 Where in a reticulated water service area, the on-site water supply has flow and pressure characteristics of 10 litres a second at 200 kPa.	n/a	The campsite area is not serviced by a reticulated water supply.
Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	Where access to the reticulated water network is not available, a minimum on site water storage of 5,000 litres is provided that must comprise: (a) a separate tank; or (b) a reserve section in the bottom part of the main water supply tank; or (c) a dam; or (d) a swimming pool. Note—Where a water tank is provided for firefighting purposes it is fitted with standard rural fire brigade fittings and the tank is provided with a hardstand area for heavy vehicles.	•	The site contains an accessible dam with ample water supply for fire fighting purposes.
For assessable development			
Land use			
PO2 Development within a 'Bushfire hazard area' and 'Potential impact buffer (100	AO2 All buildings, structures, infrastructure and facilities associated with the following	•	The proposal is for a Tourist Park and does not involve any buildings, structures, infrastructure or facilities.

Performance outcomes	Acceptable outcomes	Complies	Comments
metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) is appropriate to the bushfire hazard risk having regard to the: (a) the bushfire risk compatibility of development; (b) the vulnerability of and safety risk to persons associated with the use; and (c) consequences of bushfire in regard to impacts on essential infrastructure, buildings and structures. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	uses are located outside any area of the site located within a 'Bushfire hazard area' and a 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o): (a) child care centre; or (b) community care centre; or (c) correctional facility; or (d) educational establishment; or (e) emergency services; or (f) hospital; or (g) residential care facility; or (h) retirement facility; or (i) rooming accommodation; or (j) shopping centre; or (k) tourist park; or (l) tourist attraction.		
Lot design	(i) tourist attraction.		
PO3 Reconfiguring a lot within a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) minimises the potential adverse impacts of bushfire on the safety of people, property and the environment through lot design that: (a) is responsive to the nature and extent of bushfire risk; and (b) allows efficient emergency access to buildings for fire-fighting appliances. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	Where within a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) AO3.1 No new lots are created. OR AO3.2 All lots include a building envelope that achieves a radiant heat flux level of 29kW/m² at the permitter of the building envelope. Note—Where a radiant heat flux of 29kW/m² is achieved and this relies on cleared or maintained land external to the land the subject of the development application it	n/a	The proposed development is not for the Reconfiguration of a Lot.

Performance outcomes	Acceptable outcomes	Complies	Comments
	must be demonstrated that land external to the site will be maintained to a standard that does not exceed the level of bushfire hazard identified in a Bushfire hazard management plan.		
Firebreaks and access		<u> </u>	
In a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o), vehicular access is designed to mitigate against bushfire hazard by: (a) ensuring adequate access for firefighting and other emergency vehicles; (b) ensuring adequate access for the evacuation of residents and emergency personnel in an emergency situation, including alternative safe access routes should access in one direction be	In a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o), roads are designed and constructed: (a) with a maximum gradient of 12.5%; (b) to not use cul-de-sacs; and (c) a constructed road width and weather standard complying with Planning Scheme Policy 4 - FNQROC Regional Development Manual.	•	The proposed camping area utilised cleared land which contains an existing firebreak around the property. There is ample open space in the designated area to allow access and manoeuvring of fire fighting vehicles.
blocked in the event of a fire; and (c) providing for the separation of developed areas and adjacent bushland. Note—Where it is not practicable to provide firebreaks in accordance with A04.2 Fire Maintenance Trails are provided in accordance with the following: i. located as close as possible to the boundaries of the lot and the adjoining hazardous vegetation; ii. the minimum cleared width not less than 6 metres; iv. the formed width is not less than 2.5 metres; iv. the formed gradient is not greater than 15%; v. vehicular access is provided at both ends; vi. passing bays and turning areas are provided for fire-fighting appliances located on public	In a 'Bushfire hazard area' and 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o), firebreaks are provided: (a) consisting of a perimeter road that separates lots from areas of bushfire hazard; (b) a minimum cleared width of 20 metre; (c) a maximum gradient of 12.5%; and (d) a constructed road width and weather standard complying with Planning Scheme Policy 4 - FNQROC Regional Development Manual.	•	The proposed camping area utilised cleared land which contains an existing firebreak around the property. There is ample open space in the designated area to allow access and manoeuvring of fire fighting vehicles.

Performance outcomes	Acceptable outcomes	Complies	Comments
land. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.			
Hazardous materials			
PO5 Public safety and the environment are not adversely affected by the detrimental impacts of bushfire of hazardous materials manufactured or stored in bulk. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	AO5 The processing or storage of dangerous goods or hazardous materials is not undertaken in a 'Bushfire hazard area' and a 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o).	n/a	The proposed development does not involve any hazardous materials.
Landscaping		•	
PO6 Landscaping within a 'Bushfire hazard area' and a 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) does not result in a material increase in the extent, duration or severity of bushfire hazard having regard to: (a) fire ecology; (b) slope of site; and (c) height and mix of plant species. Note—Frost hollows and the associated grass kill facilitates a rapid curing of fuel and exacerbates bushfire hazard. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	AO6 No acceptable outcome is provided.	n/a	No additional landscaping is proposed. Refer to the Landscaping Code addressed above.

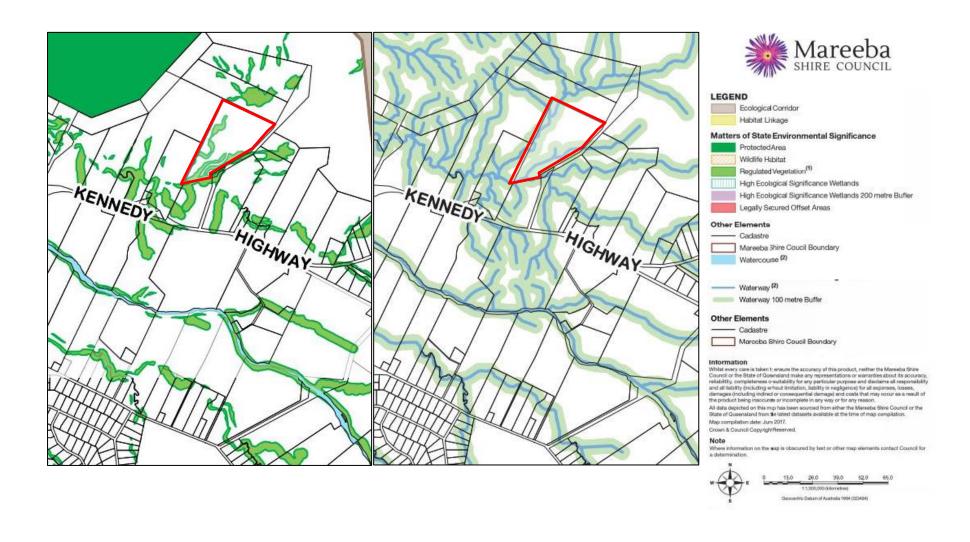

Infrastructure			
PO7 Infrastructure services located in a 'Bushfire hazard area' and a 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) are protected from damage or destruction in the event of a bushfire. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	AO7 The following infrastructure services are located below ground: (a) water supply; (b) sewer; (c) electricity; (d) gas; and (e) telecommunications	n/a	No infrastructure construction is included in the proposed development. Refer to the Works, Services and Infrastructure Code addressed above.
Private driveways			
All premises located in a 'Bushfire hazard area' and a 'Potential impact buffer (100 metres)' identified on the Bushfire hazard overlay maps (OM-003a-o) are provided with vehicular access that enables safe evacuation for occupants and easy access by fire-fighting appliances. Note— A Bushfire hazard management plan must be prepared by suitably qualified persons in seeking to demonstrate compliance with the Performance outcome.	Private driveways: (a) do not exceed a length of 60 metres from the street frontage; (b) do not exceed a gradient of 12.5%; (c) have a minimum width of 3.5 metres; (d) have a minimum vertical clearance of 4.8 metres; (e) accommodate turning areas for firefighting appliances in accordance with the Queensland Fire and Emergency Services' Fire Hydrant and Vehicle Access Guidelines; and (f) serve no more than three dwellings or buildings.	n/a	No additional driveway construction is included in the proposed development. Refer to the Parking and Access Code addressed above.

8.2.4 Environmental Significance Overlay Code

The development site is located within the Environmental Significance Overlay, Regulated Vegetation, Waterway, Waterway 100m Buffer and is assessed hereto against the Environmental Significance Overlay Code of the Mareeba Shire Planning Scheme (2016).

8.2.4.3 Criteria for assessment

Table 8.2.4.3A - Environmental significance overlay code - For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to requ	irements and assessable development		
Regulated vegetation			
PO1 Vegetation clearing in areas mapped as 'Regulated vegetation' identified on the Environmental Significance Overlay Maps (OM-004a-o) is avoided unless: (a) it is demonstrated that the area does not support regulated vegetation as mapped; (b) the loss or reduction in regulated vegetation is for community infrastructure and associated access facilities that cannot be avoided; (c) wildlife interconnectivity is maintained or enhanced at a local and regional scale; and (d) the loss or reduction in regulated vegetation is minimised and any residual impacts are offset. Note—A supporting Ecological Assessment Report is prepared in accordance with Planning Scheme Policy 2 – Ecological Assessment Reports.	AO1.1 No clearing of native vegetation is undertaken within areas of 'Regulated vegetation' identified on the Environmental Significance Overlay Maps (OM-004a-o).	n/a	The proposed designated camping area is not situated within the mapped area. No vegetation clearing is proposed.
PO2 Development on sites adjacent to areas of 'Regulated vegetation' identified on the Environmental Significance Overlay Maps (OM-004a-o) protects the environmental significance of regulated vegetation and: (a) does not interrupt, interfere, alter or otherwise impact on underlying natural ecosystem processes such as water quality, hydrology, geomorphology and	AO2 Development (excluding roads, earthworks, drainage infrastructure and underground infrastructure) is not located within 20 metres of 'Regulated vegetation' areas identified on the Environmental Significance Overlay Maps (OM-004a-o).	n/a	The proposed designated camping area is not situated within the mapped area.

Performance outcomes	Acceptable outcomes	Complies	Comments
biophysical processes; (b) does not negatively impact the movement of wildlife at a local or regional scale; and (c) avoids noise, light, vibration or other edge affects, including weed and pest incursion on identified environmental values. Note—A supporting Ecological Assessment Report is prepared in accordance with Planning			
Scheme Policy 2 – Ecological Assessment Reports.			
Regulated vegetation intersecting a water	course		
PO3 Vegetation clearing in areas mapped as 'Regulated vegetation intersecting a watercourse', identified as 'Waterway' and 'Waterway buffer' on the Environmental Significance - Waterway Overlay Maps (OM-004p-z) is avoided unless wildlife interconnectivity between habitats is maintained or enhanced at a local and regional scale, to the extent that migration or normal movement of significant species	Where within a 'Waterway buffer' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) AO3.1 A minimum setback in accordance with Table 8.2.4.3B is provided between development and the top of the high bank of a 'Waterway' identified on the Environmental Significance - Waterway Overlay Maps (OM-004p-z).	n/a	The proposed designated camping area is not situated within the mapped area. No vegetation clearing is proposed.
between habitats or normal gene flow between populations is not inhibited. Note—A supporting Ecological Assessment Report is prepared in accordance with Planning Scheme Policy 2 – Ecological Assessment Reports.	Where within a 'Waterway buffer' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) AO3.2 No clearing of native vegetation is undertaken within the minimum setback identified at AO3.1.	n/a	The proposed designated camping area is not situated within the mapped area. No vegetation clearing is proposed.

Waterways and wetlands			
PO4 'High ecological significance wetlands' identified on the Environmental Significance Overlay Maps (OM-004a-o) and 'Waterways' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) and are protected by: (a) maintaining adequate separation distances between waterways/wetlands and development;	Where within a 'Waterway buffer' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) AO4.1 A minimum setback in accordance with Table 8.2.4.3B is provided between development and the top of the high bank of a 'Waterway' identified on the Environmental Significance - Waterway Overlay Maps (OM-004p-z).	n/a	The proposed designated camping area is not situated within the mapped area.
 (b) maintaining and enhancing aquatic and terrestrial habitat including vegetated corridors to allow for native fauna (terrestrial and aquatic) movement; (c) maintaining waterway bank stability by minimising bank erosion and slumping; (d) maintaining water quality by providing buffers to allow filtering of sediments, nutrients and other pollutants; and (e) retaining and improving existing riparian vegetation and existing vegetation 	Where within a 'High ecological significance wetland buffer' on Environmental Significance Overlay Maps (OM-004a-o) AO4.2 A minimum buffer of 200 metres is provided between development and the edge of a 'High ecological significance wetland' identified on the Environmental Significance Overlay Maps (OM-004a-o).	n/a	The proposed designated camping area is not situated within the mapped area.
associated with a wetland. Note—A supporting Ecological Assessment Report is prepared in accordance with Planning Scheme Policy 2 – Ecological Assessment Reports.	Where within a 'Waterway buffer' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) or 'High ecological significance wetland buffer' on Environmental Significance Overlay Maps (OM-004a-o) AO4.3 No stormwater is discharged to a 'Waterway' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) or 'High ecological significance wetland' identified on the Environmental Significance Overlay Maps (OM-004a-o). Note— An alternative outcome is required to demonstrate that the ecological impacts of stormwater discharge to a 'Waterway' or 'High ecological significance wetland' are mitigated in accordance with PO3 through appropriate	n/a	The proposed designated camping area is not situated within the mapped area.

	stormwater management / treatment (where possible).		
	Where within a 'Waterway buffer' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) or 'High ecological significance wetland buffer' on Environmental Significance Overlay Maps (OM-004a-o) AO4.4 No wastewater is discharged to a 'Waterway' on Environmental Significance - Waterway Overlay Maps (OM-004p-z) or 'High ecological significance wetland' identified on the Environmental Significance Overlay Map (OM-004a-z). Note— A alternative outcome is required to demonstrate that the ecological impacts of wastewater discharge to a 'Waterway' or 'High ecological significance wetland' are mitigated in accordance with PO3 through appropriate wastewater management / treatment (where possible).	n/a	The proposed designated camping area is not situated within the mapped area.
For assessable development			
Wildlife Habitat		<u> </u>	
PO5 Development within a 'Wildlife habitat' area identified on the Environmental Significance Overlay Maps (OM-004a-o): (a) protects and enhances the habitat of Endangered, Vulnerable and Near Threatened (EVNT) species and local species of significance; (b) incorporates siting and design measures to protect and retain identified ecological values and underlying ecosystem processes within or adjacent to the development site; (c) maintains or enhances wildlife interconnectivity at a local and regional scale; and	AO5 No acceptable outcome is provided	n/a	The proposed designated camping area is not situated within the mapped area.

(d) mitigates the impact of other forms of potential disturbance (such as presence of vehicles, pedestrian use, increased exposure to domestic animals, noise and lighting impacts) to protect critical life stage ecological processes (such as feeding, breeding or roosting). Note—Development applications must identify any EVNT species or their habitats that may be affected by the proposal. In particular, applications are to identify and describe how the development avoids adverse impacts on ecological processes within or adjacent to the development area. Note—A supporting Ecological Assessment Report is prepared in accordance with Planning Scheme Policy 2 – Ecological Assessment Reports.			
Legally secured offset areas		1 ,	I -
PO6 Development within a 'Legally secured offset area' identified on the Environmental Significance Overlay Maps (OM-004a-o) or other known Legally Secured Offset Area is consistent with the binding requirements of the offset and does not prejudice, undermine, or negatively impact the inherent ecological values, including all naturally occurring native flora, fauna and their habitat within the Legally Secured Offset Area. Note—A supporting Ecological Assessment Report is prepared in accordance with Planning Scheme Policy 2 – Ecological Assessment Reports.	AO6 No acceptable outcome is provided.	n/a	The proposed designated camping area is not situated within the mapped area.
Protected areas			
PO7 Development within a 'Protected area' identified on the Environmental	AO7 No acceptable outcome is provided	n/a	The proposed designated camping area is not situated within the mapped area.

Reports.		

Ecological corridors and Habitat linkages			
PO8 Development located: (a) in the Conservation zone, Emerging community zone, Recreation and open space zone, Rural zone or Rural residential zone; and (b) within an 'Ecological corridor' or a 'Habitat linkage' identified on the Environmental Significance Overlay Maps (OM-004a-o) does not compromise the provision of habitat connectivity of the corridor/linkage, having regard to: (a) the environmental values of the area of	AO8 No acceptable outcome is provided	n/a	The proposed designated camping area is not situated within the mapped area.
the site identified in the 'Ecological corridor' or 'Habitat linkage'; (b) the environmental values of adjoining and nearby land within the 'Ecological corridor' or 'Habitat linkage'; (c) the extent of any modification proposed to the natural environment including (but not limited to) vegetation and topography; (d) the location and design of proposed improvements that may impact on the functions of the 'Ecological corridor' or			
'Habitat linkage' including (but not limited to) buildings, structures, fences, lighting, vehicle movement areas and infrastructure services; and (e) the ability for the 'Ecological corridor' or 'Habitat linkage' to be enhanced to improve ecological connectivity. Note—A supporting Ecological Assessment Report prepared in accordance with Planning Scheme Policy 2 – Ecological Assessment Reports may be appropriate to demonstrate compliance with PO8.			

8.2.6 Flood Hazard Overlay Code

The development site is located within the Flood Hazard Overlay, Potential Flood Hazard Area and is assessed hereto against the Flood Hazard Overlay Code of the Mareeba Shire Planning Scheme (2016).

8.2.6.3 Criteria for Assessment

Table 8.2.6.3A - Flood hazard overlay code - For accepted development subject to requirements and assessable development.

Performance outcomes	Acceptable outcomes	Complies	Comments
For accepted development subject to requ	irements and assessable development		
All flood hazard areas			
PO1 Development prevents the carriage or dispersal of contaminants or pollutants into the receiving environment.	AO1 The processing or storage of dangerous goods or hazardous materials is: (a) not undertaken in a flood hazard area identified on the Flood hazard overlay maps (OM-006a-o); or (b) is located above the defined flood level plus 0.3 metre freeboard.	•	The proposed development does not involve hazardous goods. The proposed campground will be operated on a 'leave no trace' basis. Waste bins will be provided and serviced in an area away from any waterways.
PO2 Essential community infrastructure is able to function effectively during and immediately after flood events.	AO2 Design levels for buildings must comply with the flood immunity standards specified in Table 8.2.6.3.B and Table 8.2.6.3.C where within a flood hazard area identified on the Flood hazard overlay maps (OM-006a-o).	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
Extreme flood hazard area			
PO3 Development, where involving a Material change of use within an 'Extreme flood hazard area' on the Flood hazard overlay maps (OM006a-o), is appropriate to the flood hazard risk having regard to the: (a) likelihood and frequency of flooding; (b) flood risk acceptability of development; (c) vulnerability of and safety risk to persons associated with the use; (d) associated consequences of flooding in regard to impacts on proposed buildings, structures, and supporting infrastructure; and	Uses within the following activity groups are not located within an 'Extreme flood hazard area identified' on the Flood hazard overlay maps (OM006a-o): (a) Accommodation activities; (b) Commercial activities; (c) Community activities except where for a Club with a maximum gross floor area of 100m ² ; (d) Industrial activities; (e) Rural activities, except where for Animal husbandry, Cropping, or Permanent plantation.	n/a	The proposed designated camping area is not situated within the mapped area.

Performance outcomes	Acceptable outcomes	Complies	Comments
(e) associated consequences of flooding in respect to undue burden on disaster response recovery capacity and capabilities.	AO3.2 Sport and recreation activities are not located within an 'Extreme flood hazard area' identified on the Flood hazard overlay maps (OM006a-o) except where for: (a) Environment facility; (b) Park; or (c) Outdoor sport and recreation (excluding the provision of ancillary facilities or amenities conducted within a building).	n/a	The proposed designated camping area is not situated within the mapped area. The proposal is not for Sport and Recreation activities.
PO4 Development is located and designed to: (a) maintain and enhance the flood conveyance capacity of the premises; (b) not increase the number of people calculated to be at risk from flooding; (c) not increase the flood impact on adjoining premises; (d) ensure the safety of all persons by ensuring that development levels are	AO4.1 Buildings, including extensions to existing buildings, are: (a) not located within an 'Extreme flood hazard area' identified on the Flood hazard overlay maps (OM006a-o); or (b) elevated above the defined flood level, with 0.3 metres freeboard from the defined flood level provided for habitable rooms within a dwelling.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
set above the defined flood level; (e) reduce property damage; and (f) provide flood immune access to buildings. Note—Buildings may be constructed from flood resistant, waterproof materials below the defined flood level where certified by a qualified structural engineer to be flood proof (including	AO4.2 All building work must be high set and retains the flood storage and conveyance capacity of the premises. Note—Building work must be certified by a qualified structural engineer to be flood proof including the ability to withstand damage from floodwater and debris.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.

Performance outcomes	Acceptable outcomes	Complies	Comments
the ability to withstand damage from floodwater and debris) and where an alternative outcome to AO4.1-AO4.4 is also demonstrated. Note—In the event that a lawful building or structure is destroyed by flood or other event the building may be replaced in situ where there is no increase in: i. gross floor area; or ii. the number of dwellings or bedrooms on the premises.	New buildings are provided with flood free pedestrian and vehicle evacuation access between the building and a flood safe accessible road. Note—A flood safe accessible road includes a road where identified as outside a flood hazard area or within a 'Low flood hazard area', 'Potential flood hazard area' or 'Significant flood hazard area' on the Flood hazard overlay maps (OM006a-o).	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	AO4.4 Development does not increase the number of lots in the 'Extreme flood hazard area' identified on the Flood hazard overlay maps (OM006a-o) except where for the purposes of public open space.	n/a	The proposed development does not create additional lots.
PO5 Development involving earthworks in a Flood hazard area below the defined flood level must protect life and property on premises and off premises through maintaining: (a) flood storage capacity of land; (b) flood conveyance function of land; (c) flood and drainage channels; (d) overland flow paths; and (e) flood warning times.	Filling above ground level is not undertaken in the 'Extreme flood hazard area' identified on the Flood hazard overlay maps (OM006a-o).	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any earthworks.

High flood hazard area			
PO6 Development, where for a Material change of use within a 'High flood hazard area' identified on the Flood hazard overlay maps (OM-006a-o), is appropriate to the flood hazard risk having regard to the: (a) likelihood and frequency of flooding; (b) flood risk acceptability of development; (c) vulnerability of and safety risk to persons associated with the use; (d) associated consequences of flooding in regard to impacts on proposed buildings, structures and supporting infrastructure; and (e) associated consequences of flooding in respect to undue burden on disaster response recovery capacity and capabilities.	AO6.1 Uses within the following activity groups are not located within a 'High flood hazard area' identified on the Flood hazard overlay maps (OM006a-o): (a) Accommodation activities, except where for Dwelling house and only where the lot existed or had a lawful reconfiguring a lot approval at the commencement of the planning scheme and the land is included in a Residential zone or the Centre zone; (b) Community activities except where for a Club with a maximum gross floor area of 100m²; (c) Rural activities, except where for Animal husbandry, Cropping or Permanent plantation.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings. The proposed designated camping area is not situated within the mapped area. The
	Sport and recreation activities are not located within a 'High flood hazard area' identified on the Flood hazard overlay maps (OM006a-o) except where for: (a) Environment facility; (b) Park; or (c) Outdoor sport and recreation (excluding the provision of ancillary facilities or amenities conducted within		not situated within the mapped area. The proposal is not for Sport and Recreation activities.
PO7 Development is located and designed to: (a) maintain hydrological function of the premises; (b) not increase the number of people calculated to be at risk from flooding; (c) minimises the flood impact on adjoining premises; (d) ensure the safety of all persons by ensuring that an appropriate proportion of buildings are set above the defined	a building). AO7.1 Buildings, including extensions to existing buildings are: (a) not located within the 'High flood hazard area' identified on the Flood hazard overlay maps (OM006a-o); or (b) elevated above the defined flood level, with 0.3 metres freeboard from the defined flood level provided for habitable rooms within a dwelling. OR	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.

flood level; (e) reduce the carriage of debris in flood waters; (f) reduce property damage; and (g) provide flood immune access to buildings. Note—Buildings may be constructed from flood resistant, waterproof materials below the defined flood level where certified by a qualified structural engineer to be flood proof (including the ability to withstand damage from floodwater and debris) and where an alternative outcome to AO8.1-AO8.9 is also demonstrated.	Buildings used for Commercial activities or Industrial activities include a minimum floor level of 0.3 metres above the defined flood where for the following components of the use: (a) administrative areas; or (b) services, plant and equipment associated with the building. Note—AO8.2 accepts that the cost of flood impact is an operational cost of the Commercial activity or Industrial activity. Note—Building work must be certified by a qualified structural engineer to be flood proof including the ability to withstand damage from floodwater and debris.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	AO7.3 All building work below the defined flood level must be high set (comprising pier and beam construction) and retains the flood storage and conveyance capacity of the premises.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	New buildings are provided with flood free pedestrian and vehicle evacuation access between the building and a flood safe accessible road. Note—A flood safe accessible road includes a road where identified as outside a flood hazard area or within a 'Low flood hazard area', 'Potential flood hazard area' or 'Significant flood hazard area' on the Flood hazard overlay maps (OM006a-o).	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.

	AO7.5 New temporary, relocatable or impermanent buildings and structures are to be anchored with the ability to withstand transportation by floodwater. Note—Building work must be certified by a qualified structural engineer.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	AO7.6 Dwellings do not exceed four bedrooms.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	AO7.7 Building work on an existing dwelling does not comprise additional bedrooms.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	AO7.8 Building work on an existing dwelling is limited to a maximum increase of 20 percent of the lawfully approved gross floor area of the existing dwelling.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.
	AO7.9 Development does not increase the number of lots in the 'High flood hazard area; as identified on the Flood hazard overlay maps (OM006a-o) except where for the purposes of public open space.	n/a	The proposed development does not create additional lots.
PO8 Development involving earthworks in a Flood hazard area below the defined flood level must protect life and property on premises and off premises through maintaining: (a) flood storage capacity of land; (b) flood conveyance function of land; (c) flood and drainage channels; (d) overland flow paths; and (e) flood warning times.	Filling above ground level is not undertaken in the 'High flood hazard area' identified on the Flood hazard overlay maps (OM006a-o).	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any earthworks.

Significant flood hazard area			
PO9 Development, involving a Material change of use, within a 'Significant flood hazard area' on the Flood hazard overlay maps (OM006a-o) is appropriate to the flood hazard risk having regard to the: (a) likelihood and frequency of flooding; (b) flood risk acceptability of development; (c) vulnerability of and safety risk to persons associated with the use; (d) associated consequences of flooding in regard to impacts on proposed buildings, structures and supporting infrastructure; and (e) associated consequences of flooding in respect to undue burden on disaster response recovery capacity and capabilities.	AO9 The following uses are not located within a 'Significant flood hazard area' identified on the Flood hazard overlay maps (OM006a-o): (a) Residential care facility; (b) Retirement facility; (c) Child care centre; (d) Hospital; or (e) Community use.		The proposed Tourist Park is not located in the mapped 'Significant flood hazard areea'.
Significant flood hazard area, Low flood ha			
PO10 Development, where involving a Material change of use or Building work, is located and designed to: (a) maintain hydrological function of the premises; (b) not increase the number of people calculated to be at risk from flooding; (c) minimises the flood impact on adjoining premises; (d) ensure the safety of all persons by	AO10.1 Buildings, including extensions to existing buildings are: (a) elevated above the defined flood level; and (b) the defined flood event does not exceed a depth of 600mm; and (c) elevated above the defined flood level plus 0.3 metres freeboard where for habitable rooms within a dwelling. OR	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings.

ensuring that a proportion of buildings are set above the defined flood level; (e) reduce the carriage of debris in flood waters; (f) reduce property damage; and (g) provide flood immune access to buildings. Note—Where the development is located in a 'Potential flood hazard area' identified on the Flood hazard overlay maps (OM006a-o) and there is no defined flood level a hydraulic (flood hazard assessment) report prepared by a RPEQ is required in substantiation of an alternative outcome is required or the defined flood level from the adjacent representative hazard zone is used.	Buildings used for Commercial activities or Industrial activities include a minimum floor level of 0.3 metres above the defined flood where for the following components of the use: (a) administrative areas; or (b) services, plant and equipment associated with the building. Note—AO10.2 accepts that the cost of flood impact is an operational cost of the Commercial activity or Industrial activity. Note—Building work must be certified by a qualified structural engineer to be flood proof including the ability to withstand damage from floodwater and debris. AO10.3 All building work below the defined flood	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any buildings. The proposed designated camping area is not situated within the mapped area. The
	level must be high set (comprising pier and beam construction) and retains the flood storage and conveyance capacity of the premises. Note—Building work must be certified by a qualified structural engineer to be flood proof including the ability to withstand damage from floodwater and debris.		proposal does not involve any buildings.
PO11 Development involving earthworks in a Flood hazard area below the defined flood level must protect life and property on premises and off premises through maintaining: (a) flood storage capacity of land; (b) flood conveyance function of land; (c) flood and drainage channels; (d) overland flow paths; and (e) flood warning times.	AO11 Development does not involve in excess of 50m³ of fill above ground level per 1,000m² of site area.	n/a	The proposed designated camping area is not situated within the mapped area. The proposal does not involve any earthworks.

For assessable development Where for Material change of use or Reconfiguring a lot that involves new gross floor area or increases the number of persons living, working or residing in the Extreme flood hazard area, High flood hazard area or Significant flood hazard area other than a Dwelling house.				
as at floodway crossings. Note—A Material change of use or Reconfiguring a lot that involves new gross floor area or increases the number of persons living, working or residing in the 'Extreme flood hazard area' identified on the Flood hazard overlay map (OM006a-o) is supported by a Flood Emergency Evacuation Plan prepared by suitably qualified persons having regard to Floodplain Management in Australia: Best Practice Principles and Guidelines (2000), prepared by Standing Committee on Agriculture and Resource Management (SCARM), CSIRO.				

Significant flood hazard area, Low flood ha	azard area or Potential flood hazard area		
PO13	AO13	n/a	The proposed development is not for the
Development, where involving	No acceptable outcome is provided.		Reconfiguration of a Lot.
Reconfiguring a lot, is located and designed	·		
to:			
(a) maintain hydrological function of the premises;			
(b) not increase the number of people			
calculated to be at risk from flooding;			
(c) minimises the flood impact on adjoining premises;			
(d) ensure the safety of all persons by			
ensuring that a proportion of buildings			
are set above the defined flood level;			
(e) reduce the carriage of debris in flood waters:			
(f) reduce property damage; and			
(g) provide flood immune access to			
buildings.			
3.			
Note—Where the development is located in a			
'Potential flood hazard area' identified on the			
Flood hazard overlay maps (OM006a-o) and			
there is no defined flood level a hydraulic (flood			
hazard assessment) report prepared by a RPEQ			
is required in substantiation of an alternative			
outcome is required or the defined flood level			
from the adjacent representative hazard zone is used.
