Attention: Regional Planning Group

Dear Sir,

**RE: APPLICATION FOR A MATERIAL CHANGE OF USE – NATURE-BASED TOURISM.
LOT 622 ON SP176565, 702 SPEEWAH ROAD, SPEEWAH.**

This application is for a Material Change of Use – Nature-Based Tourism over land described as Lot 622 on SP176565, situated at 702 Speewah Road, Speewah is submitted on behalf of the Bayley Kathleen Rhodes, Douglas Cusack Peter & Deborah Jane Mackenzie and Daniel John Mackenzie, the owners of the site.

The application comprises of Application Forms, Proposal Plans, SmartMap and this Town Planning Submission. It is understood that a Representative of the proponent will provide payment of the Application Fee to Council.

The Site

The subject land is described as Lot 622 on SP176565, Locality of Speewah and situated at 702 Speewah Road, Speewah. The site is owned by Bayley Kathleen Rhodes, Douglas Cusack Peter & Deborah Jane Mackenzie and Daniel John Mackenzie who are also the applicants for the proposed development. The subject site comprises of a single irregular shaped allotment, has an area of 35.911 hectares and contains frontage to Speewah and Harper Roads. The site contains a Dwelling House and associated structures. The site abuts the Ganyan Creek and is vegetated.

In relation to the current State Governmental Mapping the site is Mapped as containing Remnant Vegetation, Regrowth Vegetation and Essential Habitat. The site is not designated as including a Referable Wetland or Wetland Protection Area. The site is not located within 25 metres of a State Controlled Road nor within 25 metres of a Railway Corridor.

Referral Agencies

The site is Mapped as containing Remnant 'least concern' Vegetation and Essential Habitat over the site. No change to this Mapped Remnant Vegetation is envisaged nor does the proposal result in the creation of any new exemptions as the proposal is located within existing cleared areas and does not affect the Mapped Remnant Vegetation or Essential Habitat. Any new structures will be located greater than 170 metres from the Mapped Remnant Vegetation. No clearing of the Mapped Remnant Vegetation is proposed, and no additional or new

exemptions are created with the proposed Material Change of Use, therefore it is considered that the Development Application **does not** require Referral to the Department of State Development, Manufacturing, Local Government, Infrastructure and Planning for Vegetation Purposes.

The Proposed Development

The proposed development is for a Material Change of Use – Nature-Based Tourism in the Rural Zone of the Mareeba Shire Council’s Planning Scheme. The site is located at 702 Speewah Road, Speewah and is more particularly described as Lot 622 on SP176565. The site is irregular in shape, has an area of 35.911 hectares and contains a Dwelling House and associated structures.

A Development Permit for a Material Change of Use is sought to facilitate the construction of two (2) Nature-Based Tourism Accommodation Cabins over two (2) Stages. The first stage is to provide the initial Accommodation Cabin with Stage 2 to include a future Accommodation Cabin. The site is designated within the Rural Zone of the Mareeba Shire Planning Scheme with the Planning Scheme supporting Nature-Based Tourism within Rural areas. The proposed Nature-Based Tourism Accommodation Cabins will be located within the existing cleared area and access is via the existing gated access located on Harper Road. The proposal will ensure to take a non-viable part of the Rural Allotment and convert into Nature-Based Tourism Accommodation to support the surrounding Speewah/Kuranda Townships and Tablelands Region.

The Nature-Based Tourism Accommodation Cabins proposes Single Bedroom Unit comprising of a shower, toilet, kitchen, living area and Bedroom with a deck. The Accommodation contains an approximate area of 96 m² and is provided as a nature-based/ecological friendly cabin. Each proposed Nature-Based Tourism Accommodation will be provided with a rainwater tank/s, solar (off-grid) power and onsite effluent disposal. The proposal is provided as an Eco-friendly Nature-Based Tourism Accommodation and will be provided with eco-friendly, natural servicing.

The site contains frontage to the Speewah and Harper Roads and contains existing accesses from each Road. No change to the existing accesses is proposed and each Nature-Based Tourism can be provided with a parking space. There is sufficient room onsite for the manoeuvring of vehicles within the site and in particularly the cleared area where the Nature-Based Tourism is proposed. The proposal is accessed via a graded gravel road to ensure that the Nature-Based Tourism natural aesthetics are maintained and enhanced. Any car parking spaces will be appropriately sealed (gravel/grassed) in keeping with the natural environment.

The site is located in the Rural Zone of the Mareeba Shire Council’s Planning Scheme. A Material Change of Use for Nature-Based Tourism is an Impact Assessable Use within this Zone. The application is Impact Assessable.

This Submission provides a comprehensive assessment of the relevant planning instruments and site context for the proposed Uses. This is supported by the attached Proposal Plans and the assessment against the relevant aspects of the Mareeba Shire Council’s Planning Scheme. It is considered that the proposed development is an appropriate Use for the site, immediate vicinity and surrounding environs providing eco-friendly Tourism within Mareeba and the Tablelands Region.

Far North Queensland Regional Plan 2009-2031

Lot 622 on SP176565 is identified as being in the Regional Landscape and Rural Production Area designation of the FNQ Regional Plan Mapping.

The Regional Landscape Values note that the natural environment is also a major economic asset; it contributes substantially to the tourism and natural resources industries, as well as to residents' and visitors' quality of life and to recreational and scenic opportunities. The Objective of the Regional Landscape Values is to identify, protect and manage through an integrated Planning Approach. This is provided through the Land Use Policies that reference that the value of the landscape for the likes of scenic amenity is given appropriate recognition in Development Assessment. The proposal is not considered to significantly impact or adversely affect the existing Regional Landscape Values providing a Use that recognises the scenic amenity of the site, appropriately protecting this natural environment and major economic asset.

The Regional Plan provides for Tourist Development within the Region noting that:

The region's tourism industry is predominantly based on natural and cultural features, with Key visitor attractions include the Great Barrier Reef, the Wet Tropics rainforest, scenic landscapes, natural areas and a tropical climate. Protection of the natural attractions and character of the region is important to the sustainability of the tourism industry in the region. It further notes that nature-based activities are expected to remain the major drawcard and the focus of product promotion for the region. Sustainable opportunities must be identified and developed to cater for nature-based tourism needs over the long term. The Regional Plan manages this through its Land Use Policies which include 5.5.2 (a) and (b):

5.5.2 Tourist development, including development that incorporates short-term accommodation for tourists, may be undertaken within the regional landscape and rural production area where there is an identified need in a subregion and the accommodation:

(a) is of a nature and scale that is sympathetic to the maintenance of the regional landscape and rural production values

(b) minimises the impact on good-quality agricultural land

The proposal is considered to be provided as a Nature-Based Use sympathetic to the Rural Landscape and Rural Production Area with the site being provided within the Rural Zone and not impacting on the Good Quality Agricultural Land whilst ensuring to enhance the nature of the site provided in an appropriate scale.

The Explanatory Notes state that *FNQ offers a choice of tourism styles, from conventional hotels and apartments in main centres such as Cairns and Port Douglas to small-scale nature based tourism ventures focused on the natural environment. The regional plan aims to maintain a mix of tourism choice by focusing medium to large-scale tourism developments in urban-footprint areas, while allowing smaller scale tourism developments within regional landscape and rural production areas. This also allows for opportunities for economic diversification for rural landholders. In the regional landscape and rural production area the intention is that proposals for small scale tourist accommodation be considered through the usual local government development assessment processes. Additionally, the plan 'recognises the requirement of low-impact, nature-based tourism attractions to be located within or in close proximity of areas of high ecological significance. These facilities play an important role in increasing the knowledge of visitors about the values that makes FNQ a region of outstanding ecological significance and improving the overall visitor experience. Smaller scale tourism development that includes short stay accommodation for visitors may also be appropriate for locations adjoining areas of high ecological significance or in strategic rehabilitation areas. These areas can provide attractive locations for this type of development and will generally result in enhanced ecological connectivity or habitat extension' (my underlining).*

The proposed Development conforms to the Explanatory Notes of the Tourist Development aspect of the FNQ Regional Plan and in particular in relation to the Regional Landscape and Rural Production Area designation. The proposal, in particular, meets the above underlined aspects of the Explanatory Notes clearly demonstrating that the Regional Plan supports the proposed Use over the site and within the Regional Landscape and Rural Production Area designation.

It is additionally noted that a separate assessment against the Regional Plan is not required due to the fact that the Tablelands Regional Council Planning Scheme appropriately advances the Far North Queensland Regional Plan 2009-2031, as it applies to the Planning Scheme area. However, the Objective of Rural Subdivisions within the FNQ Regional Plan is for *'the region's Rural Production Areas and Natural Resources are protected by limiting land fragmentation'*. The proposed development is not in conflict with this Objective as it does not further fragment the existing Regional Landscape and Rural Productions Area and converts an area of non-viable Rural Allotment into a supporting operation for the Tourism activities of the Region.

It is considered that the proposed Material Change of Use is not in conflict with the Intent and Objectives for the Regional Landscape and Rural Production Area Designation and Tourist Development within the FNQ Regional Plan 2009-2031.

Rural Zone Code

The site is designated in the Rural Zone of the Mareeba Shire Planning Scheme. The Purpose of the Rural Zone *'provide opportunities for non-rural uses that are compatible with agriculture, the environmental features, and landscape character of the rural area where the uses do not compromise the long-term use of the land for rural purposes'*. The proposal provides for a Non-Rural Use that is compatible with any Agricultural Industries, environmental features, landscape character and Activities situated within Mareeba and on the Tablelands. The proposal is provided over a non-viable part of the Rural Allotment creating additional Tourism utilising the natural environment and landscape character within Speewah, Mareeba and the Tablelands. It is considered that the proposed development is considered to meet the Purposes of the Rural Zone.

The proposed development is considered to generally comply with the Code achieving the Acceptable Outcomes and where not able to be met, or are available, meet the Performance Outcomes of the Code. The proposed development is considered appropriate and not in conflict with the Rural Zone Code as it provides for a Tourism Use to supporting the surrounding Townships in addition to providing a Use over the non-viable parts of the Rural Allotment.

Bushfire Hazard Overlay Code

The site is Mapped as containing areas of Very High, High, and Medium Bushfire Hazard and Potential Impact Buffer (100 metres) over the site. The proposal is for the provision of Nature-Based Tourism Cabin Accommodation and future Cabin Accommodation. The proposed Accommodation will be provided within a cleared area of the site. Any future structures are able to be provided with appropriate setbacks and firebreaks if located within the Mapped Hazard and if required. The proponents will ensure that maintenance and upkeep of the site will be maintained to ensure no build-up of hazardous materials and that any existing or proposed firebreaks are maintained. It is not considered that the proposal will affect the Bushfire Hazard of the property as the site will ensure to remove any piling of fuel loads, contains existing firebreaks, and is provided with appropriate water sources. Any appropriate water source will contain sufficient storage of water for Firefighting Supply and will be provided with the appropriate connections where required.

The site is Mapped as containing a Waterway, Waterway Buffer and Regulated Vegetation on the Environment Significance Map. The Waterway is incorrectly Mapped throughout the site with the site adjoining the Ganyan Creek. The proposed and future Accommodation Cabins are located outside of any Mapped Remnant Vegetation, Waterway and Waterway Buffer. The proposal will not significantly affect the areas of MSES Regulated Vegetation provided over the site. The proposal will not affect the existing adjoining Watercourse with existing and proposed appropriate setbacks to the Watercourse already provided and can be provided if required. It is not considered that the proposal will affect the areas of Environmental Significance over the site and can be conditioned to ensure its protection, if required. The proposal has been designed for the provision of Nature-Based Tourism providing relying on the existing natural and physical characteristics of the site. The proposed Nature-Based Tourism creates an additional Activity over the site without affecting the existing natural environment in accordance the Intent of the Environmental Significant Overlay Code. It is considered that the proposed development is not in conflict with the Purpose of the Environment Significance Overlay Code and is acceptable.

Landscaping Code

The proposed development is for the facilitation of a Nature-Based Accommodation located within the Rural Zone of the Mareeba Shire Planning Scheme. The site contains an area of 35.91 hectares and contains substantial vegetation providing existing landscaping and screening. The existing Landscaping is considered appropriate for the proposed development ensuring that these areas are easily maintained while allowing for casual surveillance and enhance the safety of pedestrians through the Crime Preventions Through Environmental Design (CPTED) principles. It is not considered that the provision of Landscaping is required for the provision of the Nature-Based Tourism and that the existing is acceptable.

Parking and Access Code

The site contains frontage to the Speewah and Harper Roads and encompasses existing accesses from each Road. No change to the existing accesses is proposed and each Nature-Based Tourism Accommodation Cabin can be provided with a parking space. There is sufficient room onsite for the manoeuvring of vehicles within the site and in particularly the cleared area where the Nature-Based Tourism is proposed. The proposal is access via an internal graded gravel road to ensure that the Nature-Based Tourism natural aesthetics are maintained and enhanced. Any car parking spaces can satisfy the requirements of Australian Standard AS2890.1 and will be appropriately sealed (gravel/grassed) in keeping with the natural environment. It is considered that the proposed development is not in conflict with the Purpose or Intent of the Parking and Access Code and is acceptable.

Works, Services, and Infrastructure Code

The proposed development is for the facilitation of a Nature-Based Tourism Accommodation located within the Rural Zone of the Mareeba Shire Planning Scheme. The site contains frontage to Speewah and Harper Roads and proposes access from Harper Road for the proposed Nature-Based Tourism. No change to the existing accesses is proposed with the Material Change of Use. Each proposed Nature-Based Tourism Accommodation will be provided with rainwater tanks, solar (off grid) power and on site effluent disposal. The proposal is provided as an Eco-friendly Nature-Based Tourism Accommodation and will be provided with eco-friendly servicing.

The existing cleared area is generally flat with any Filling or Excavation anticipated to be limited to site preparation, levels and internal servicing or be provided as a part of an Operational Works Approval.

It is considered that the proposed Nature-Based Tourism is not in conflict with the Purposes of the Works, Services, and Infrastructure Code. The proposal is considered acceptable and appropriate.

Conclusion

It is considered that the proposed development being a Material Change of Use to facilitate the construction of an Eco-friendly Nature-Based Tourism Accommodation within two (2) Stages over land described as Lot 622 on SP176565 is appropriate. The proposed design of this development represents a small-scale development that has mitigated all possible negative effects of the surrounding environment maintaining and enhancing an attractive amenity. In particular, the proposed development:

- ✚ Converts the non-viable parts of the Rural Allotment into a Nature-Based Tourism Activities providing additional Tourism to Mareeba and the Region;
- ✚ Is not in conflict with the Intent or Purposes for land designated in the Rural Zone, as it provides for Nature-Based Tourism without affecting the existing or adjoining Rural Activities;
- ✚ Provides for appropriate and acceptable level of servicing without compromising the environmental values of Speewah and Mareeba;
- ✚ Will encompass no significant negative impacts to the existing nature and amenity of the area, instead enhancing the amenity and character as the Material Change of Use provides an attractive natural Eco-friendly service utilising the existing natural and physical features of the site, supporting the surrounding Townships and Mareeba;
- ✚ Is not in conflict with the Regional Plan's Regional Landscape and Rural Production Area Designation as the proposal provides a Nature-Based Use sympathetic to the Rural Landscape and Rural Production Area with the site and not impacting on the Good Quality Agricultural Land whilst ensuring to be enhance the nature of the site provided in an appropriate scale; and
- ✚ The proposed development is for the construction of Nature-Based Tourism Accommodation within the Mareeba Township ensuring additional Accommodation Activities to support the surrounding Township and environs.

Freshwater Planning Pty Ltd request that Council provide a copy of the Draft Conditions with sufficient time for review prior to issuing a Decision Notice over the site or tabulating any Item on the Agenda. If you have any queries, please do not hesitate to contact Freshwater Planning Pty Ltd.

DA Form 1 – Development application details

Approved form (version 1.3 effective 28 September 2020) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot)**, use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the *Planning Act 2016*, the *Planning Regulation 2017*, or the *Development Assessment Rules (DA Rules)*.
