**CODE ASSESSMENT FOR BUILDING WORK ASSESSABLE AGAINST THE
MAREEBA SHIRE PLANNING SCHEME 2017
35 RANKIN STREET, MAREEBA**

Background

The applicant has engaged the services of Emergent Building Approvals to lodge a code assessable application for Dual Occupancy assessed against the relevant Planning Schemes to Mareeba Shire Council on their behalf.

Under Part 5 Table 5.5.7 -Medium density residential zone, a Material Change of Use for a Dual Occupancy is identified as being Accepted development subject to requirements.

The proposed duplex design does not comply with one Acceptable outcome of the Accommodation activities code and therefore is elevated to Code Assessment.

Non-Compliance

If for Dual occupancy-

Accommodation Activities Code A07.1 – Where located on a corner allotment, each dwelling is accessed from a different road frontage.

The proposed development complies with all other acceptable outcomes of the relevant codes and the following report will address the non-compliance with AO7.1 only.

Assessment

Table 9.3.1.3A		
Accommodation Activities Code		
For accepted development subject to requirements and assessable development		
If for Dual occupancy		
<p>PO7</p> <p>Where establishing a Dual occupancy on a corner lot, the building is designed to:</p> <ul style="list-style-type: none"> (a) maximise opportunities for causal surveillance; (b) provide for separation between the two dwellings; and (c) provide activity and visual interest on both frontages. 	<p>AO7.1</p> <p>Where located on a corner allotment, each dwelling is accessed from a different road frontage.</p>	<p>The proposed Duplex is located on irregular shaped corner allotment which has two road frontages. One being Rankin Street which is a significant collector street with a higher volume of vehicles and the other Baxter Street which services the adjoining property.</p>

Considering a secondary driveway access to Rankin Street would cause further disruption to traffic flows along Rankin Street as well as vehicles exiting Stewart Street it seem appropriate in this scenario that both dwelling be serviced by on access from Baxter Street.

Casual surveillance of the property will not be affected if anything improved due to the 1800mm high fence along Rankin Street and less opportunity to enter the property via secondary accessway / gate from Rankin Street.

		<p>Separation between dwelling will be provided by internal screens fencing and individual vehicle access into each garage as per the driveway indicated on the site plan.</p> <p>Landscaping will be provided around the perimeter of the property to soften the fencing.</p> <p>There will also be a paved / gravel visitor park located inside the property near the entrance.</p>
--	--	---

Summary

The above report clearly shows the proposal is compatible with the performance outcomes sought for all relevant codes. It is therefore considered acceptable that the Local Government approve the proposal as it is suitably designed to complement the area and satisfy the acceptable measure of the relevant codes.
