Hi Norm and Ian,

Happy new year and great to meet you at Sandstone Point on Friday, Ian.

As discussed, I have created a quote (assuming 3 x medium tents and 1 x family tent). You can alter however you wish or let me know if you'd like me to change anything. I have assumed a cost for the 3 x Eco Tent tradesmen to mobilise and install the tents on your decks. We will confirm with them closer to date.

Here is a suggested plan that I would suggest:

- Utilise local trades (and/or Ian) to build the decks to spec (I have engineered deck drawings for you to copy). Suggest internal hybrid flooring inside and composite deck out front;
- Send Eco Tents trades (3 people) to site to construct the tents (approx. 4 days);
- Local trades or Ian to create internal stud wall to separate bedroom/bathroom;
- Install your preferred plumbing, electrical, furniture.

Specs on the medium tent would be 5.5m x 4.8m wide with a 7.3m x 4.8m roof cover. Your deck should be the same size however you can extend longer (suggested) so you have a larger outer deck area at the front.

Specs on the family tent would be 6.5m x 4.8m wide with a 9.7m x 4.8m roof cover. Deck would be the same size.

Please call or email me if you have any queries?

Thanks,
Dom.

Hi Norman,

Nice to chat via phone yesterday and thanks for considering Eco Tents Australia. We are an Australian manufacturer, and our tents are engineered and hand made in Brisbane for tough weather conditions. I

have attached our pricing guide as requested (please check your PC as some attachments don't appear on iPhone).

Our tent frames are designed to be attached to the side of a deck, to ensure that rain dissipates away from the structure. I can send you our deck drawings so you can arrange a local carpenter or handyman to build your deck to spec. The frame, tent, PVC roof cover can be assembled by 2-3 handy people on site. Alternatively we have access to contract builders who are based on the Sunshine Coast, and are a very good option if you would like them to do the entire job or just the tent assembly for multiple installations. We can enquire with them on availability and price if you would like to pursue that option.

If you would like a bathroom inside, we would normally ask the carpenters to install a simple stud wall onsite, to separate the bathroom and bedroom. You will see the wall in some of the photos below and attached.

Specifications on our tents:

- Canvas: Australian made DX12 Heavy duty canvas
- PVC: Commercial grade Architectural PVC for membrane roof and wall weather strip
- Screens: Commercial grade polyester Midgie mesh
- Zips: Heavy duty YKK zippers
- Structure is engineered to cope with Aus conditions (deck/footings/base dependant).
- Powder-coating of alloy frames for life -long protection.

We currently have a 10-12 week manufacture turnaround dependant on project loads.

Good luck with your Govt grant, and please call or email me if you have any queries?

Thanks,
Dom.

Testimonials

Thank you again for the professionalism & efforts made by Eco Tents Aus to deliver this project with us. She certainly is in a pretty special part of this world... Look forward to the next project!

Neil Lynch, Managing Director, Tasmanian Walking Co

Our safari tent supplied by Eco Tents has exceeded all expectations. They were professional, on time and a pleasure to deal with from start to finish. To be able to view the factory and display tent was a bonus. We cannot speak highly enough with regards the team of builders who installed our tent. Friendly and hard working. We are thrilled with the finish product and highly recommend.

Ian and Tara Wallace

Moogie Glamp @Lake Moogerah

We own a farmstay in the Scenic Rim and we were looking at options to expand the business into an eco friendly glamping experience. We did some research and were impressed with Eco Tents Australia's online presence and website. The eco tents are made and manufactured in Brisbane and we were keen to buy and support an Australian owned company.

We visited the head office in Hemmant and were delighted with the quality and workmanship of the eco tents. We wanted a strong and sturdy tent to withstand the range of extreme weather conditions. It has exceeded our expectations in more ways than one and we are incredibly happy with our new eco tent. We have no hesitation in recommending Eco Tents Australia to anyone considering an eco tent for business or personal use. The quality, workmanship and service is of the highest standard.

Good afternoon Benjamin,

Thank you for your response to my request.

Please find an attachment showing the area around a dam where the Council will give me permission to place platforms for tents providing I have clearance in writing from Ergon. The map is close to scale and the area is more than 100 metres from the easement.

I hope this map is sufficient evidence of my intentions.

Subject: RE: Development Application Referral Agency Enquiry Form - QLD - Submission Ref: 1171798

Good afternoon Norman,

Thanks for your enquiry. The following is noted regarding Energex's referral triggers over the subject site:

- The site is not located within 100 metres of an Energex substation; and
- The site is subject to **Easement A on RP734956**, granted in favour of Energex and containing overhead 22kV feeders. It is the responsibility of the Applicant/Developer to ensure the protection of electricity assets and compliance with relevant safety clearances at all times. It is recommended that the Applicant/Developer undertake a current title search to confirm the presence of the easement and the grantee. Compliance with the conditions of the easement will be required as part of any future development application/works, therefore it is recommended that the Applicant/Developer also acquire the relevant conditions applicable to the easement.

Referral in accordance with the *Planning Regulation 2017* may be required.

Disclaimer: Energex's easement records may not be up to date with recent easement registrations. The response above is provided as advice only, and it is the applicant's responsibility to undertake a title search to confirm the presence of easements and the grantee.
