

Our Ref: R9-23

10 May 2024

Chief Executive Officer Mareeba Shire Council 65 Rankin Street Mareeba, QLD, 4880

Attention: Planning Department

Dear Sir/Madam,

DEVELOPMENT APPLICATION SEEKING A DEVELOPMENT PERMIT
RECONFIGURE A LOT – TWO (2) INTO THREE (3) LOTS
SITUATED AT 136 FANTIN ROAD, KOAH
FORMALLY DESCRIBED AS LOT 174 & 175 ON NR5801

We act on behalf of our client, Wong Lau Developments Pty Ltd in preparing and submitting the following development application which seeks a Development Permit to Reconfigure the subject allotment under the *Planning Act 2016* located at 136 Fantin Road, Koah to facilitate the proposed two (2) into three (3) lot subdivision.

The subject land is described as Lots 174 & 175 on NR5801, located at 538 136 Fantin Road, Koah. The subject properties cover a combined total of 403.465 hectares, with both allotments fronting onto Fantin Road for approximately 2.8kms. The property is located approximately 6.8km from the Kennedy Highway and approximately 30km from the CBD of Mareeba and is surrounded by mix of lot sizes within the rural zone, conservation zone and rural residential about 1km to the south along Fantin Road. The proposed development is compliant with the minimum lot size requirements within the Rural Zone and represents a suitable rural development for the area.

By way of this development application, the applicant is seeking specific approval to undertake the development as detailed within the attached planning report and approval of the plans. The report will include a complete assessment of the proposed development against the relevant assessment benchmarks within the Mareeba Shire Planning Scheme 2016. The relevant fees are listed as **\$1,961.00**. Please give our office a call to process payment.

Should there be any questions or queries please give our office a call.

Yours faithfully,

Ramon Samanes

Director, U&i Town Plan

Bachelor of Applied Science, Majoring in Environmental and Urban Planning

PLANNING REPORT

DEVELOPMENT APPLICATION FOR RECONFIGURATION OF A LOT – TWO (2) INTO THREE (3) LOTS

PROJECT LOCATION:

SITUATED AT 136 FANTIN ROAD, KOAH
FORMALLY DESCRIBED AS LOTS 174 & 175 ON NR5801

ASSESSMENT MANAGER: MAREEBA SHIRE COUNCIL, PLANNING DEPARTMENT

DEVELOPMENT TYPE: DEVELOPMENT PERMIT — RECONFIGURATION OF A LOT (CODE ASSESSABLE)

PROPOSED WORKS: Two (2) INTO THREE (3) LOTS

REAL PROPERTY DESCRIPTION: LOTS 174 & 175 ON NR5801

LOCATION: 136 FANTIN ROAD, KOAH

ZONE: RURAL ZONE

APPLICANT: Wong Lau Developments Pty Ltd c/- U&i Town Plan

ASSESSMENT CRITERIA: RECONFIGURATION OF A LOT (CODE ASSESSABLE)

REFERRAL AGENCIES: NO REFERRAL AGENCY.

STATE PLANNING: THE PROPOSAL DOES NOT TRIGGER ASSESSMENT AGAINST THE STATE

DEVELOPMENT ASSESSMENT PROVISIONS.

IMPORTANT NOTE

Apart from fair dealing for the purposes of private study, research, criticism, or review as permitted under the Copyright Act, no part of this Report may be reproduced by any process without the written consent of R&A Samanes Pty Ltd ('U&i Town Plan').

This Report has been prepared for Wong Lau Developments Pty Ltd for the sole purpose of making a Development Application seeking a Development Permit for Reconfiguration of a Lot on land at 136 Fantin Road, Koah (over Lots 174 & 175 on NR5801) for the purpose of subdividing the allotment from two (2) into three (3) allotments. This report is strictly limited to the purpose, and facts and circumstances stated within. It is not to be utilised for any other purpose, use, matter or application.

U&i Town Plan has made certain assumptions in the preparation of this report, including:

- a) That all information and documents provided to us by the Client or as a result of a specific search or enquiry were complete, accurate and up to date;
- b) That information obtained as a result of a search of a government register or database is complete and accurate.

U&i Town Plan is not aware of any particular fact or circumstance, which would render these assumptions incorrect, as at the date of preparation of the Report.

While every effort has been made to ensure accuracy, U&i Town Plan does not accept any responsibility in relation to any financial or business decisions made by parties' other than those for whom the original report was prepared for and/or provided to. If a party other than the Client uses or relies upon facts, circumstances and/or content of this Report without consent of U&i Town Plan, U&i Town Plan disclaims all risk and the other party assumes such risk and releases and indemnifies and agrees to keep indemnified U&i Town Plan from any loss, damage, claim or liability arising directly or indirectly from the use of or reliance on this report.

1.0 EXECUTIVE SUMMARY

This development application is seeking a development permit to Reconfigure the allotments under the *Planning Act 2016* at 136 Fantin Road, Koah to facilitate the creation of two (2) into three (3) lots located across Lots 174 & 175 on NR5801. By way of this development application, the applicant is seeking specific approval to undertake the development as detailed in this planning report and approval of the plans.

The conclusion of this report is that all the requirements set by the assessment criteria can be met and that the strategic level policy outcomes sought by the planning scheme and any applicable State planning instruments can be achieved. It is the opinion of the applicant that once all the policy requirements have been considered by assessing authorities and equitably balanced with the site constraints and benefits of the proposal; the assessment process established under the Planning Act will result in the approval of this development application and the issuing of a development permit subject to conditions. This opinion is based on the level of strategic and analytical justification provided in support of the proposal and the decision-making requirements imposed on regulatory authorities under the Planning Act.

2.0 SITE DESCRIPTION

The subject land is described as Lots 174 & 175 on NR5801, located at 538 136 Fantin Road, Koah. The subject properties cover a combined total of 403.465 hectares, with both allotments fronting onto Fantin Road for approximately 2.8kms. The property is located approximately 6.8km from the Kennedy Highway and approximately 30km from the CBD of Mareeba and is surrounded by mix of lot sizes within the rural zone, conservation zone and rural residential about 1km to the south along Fantin Road.

A site summary is provided below:

Table 2.0: Site summary

Street address:	136 Fantin Road, Koah				
Real property description:	Lots 174 & 175 on NR5801				
Local government area	Mareeba Shire Council				
Tenure:	Freehold				
Site area:	Lot 174: 194.58 hectares				
	Lot 175: 208.615 hectares				
Zone:	Rural zone				
Current use:	Lot 174: Vacant				
	Lot 175: Vacant				
Road frontage:	Fantin Road				
Adjacent uses:	Surrounding Rural properties, Conservation Zone to the East				
	Rural Residential C approximately 1km to the south.				
Topography / Vegetation:	The site covers a large area at over 403.465 hectares combined, of which				
	the majority is covered in vegetation and is quite undulating with				
	hills/mountains and valleys throughout, extending through to the east of				
	the properties. To the west, the property adjoins the Clohesy River and tow				
	the east they back onto the Formartine Forest Reserve.				
Easements:	No easements that we are aware of exist on the properties.

3.0 DEVELOPMENT PROPOSAL

This development application is seeking a development permit to Reconfigure the allotments under the *Planning Act 2016* at 136 Fantin Road, Koah to facilitate the creation of two (2) into three (3) Lots. The proposed new Lots as part of this development are all over the minimum lot size of 60.5ha for Lots 1 and 3, whilst Lot 2 is still quite large at approximately 282.46ha. Building envelopes have been located outside of the areas mapped within the environmental significance overlay mapping identified as regulated vegetation mapping. The building envelopes have been carefully selected on-site to be located close to the road for access, within areas where clearing has occurred previously and/or the vegetation is more dispersed, therefore reducing the amount of clearing required to facilitate future infrastructure. Additionally the access crossovers have been situated to utilise existing infrastructure and access points into the site.

By way of this development application, the applicant is seeking specific approval to undertake the development as detailed in this planning report and approval of the plans.

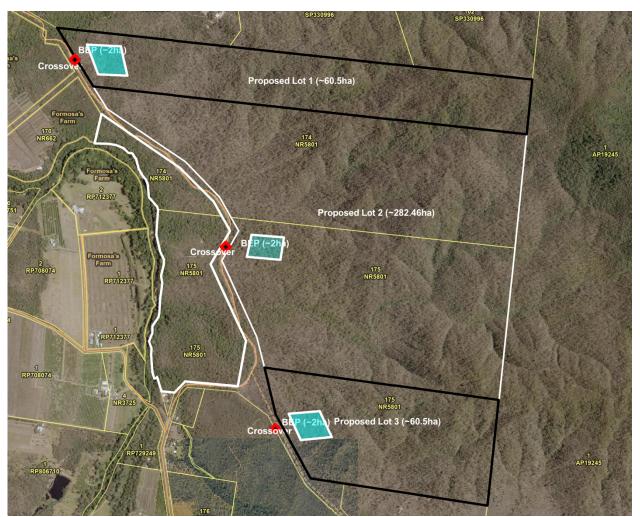

Figure 3: Extract from Development Plans (Prepared by U&i Town Plan.)

3.1 Development Definition

The proposal is described as a "Reconfiguration of a Lot" under the Planning Act and planning scheme. The proposal is defined under the Planning Act as follows:

reconfiguring a lot means—

- (a) creating lots by subdividing another lot; or
- (b) amalgamating 2 or more lots; or
- (c) rearranging the boundaries of a lot by registering a plan of subdivision under the Land Act or Land Title Act; or
- (d) dividing land into parts by agreement rendering different parts of a lot immediately available for separate disposition or separate occupation, other than by an agreement that is—
 - (i) a lease for a term, including renewal options, not exceeding 10 years; or
 - (ii) an agreement for the exclusive use of part of the common property for a community titles scheme under the Body Corporate and Community Management Act 1997; or
- (e) creating an easement giving access to a lot from a constructed road.

3.2 Lot Creation

The proposed new Lots as part of this development are all over the minimum lot size of 60.5ha for Lots 1 and 3, whilst Lot 2 is still quite large at approximately 282,46ha. Building envelopes have been located outside of the areas mapped within the environmental significance overlay mapping as regulated vegetation mapping. The building envelopes have been carefully selected on-site to be located close to the road for access, within areas where clearing has occurred previously and/or the vegetation is more dispersed, therefore reducing the amount of clearing required to facilitate future infrastructure. Additionally the access crossovers have been situated to utilise existing infrastructure and access points into the site.

The proposed reconfiguration will result in the following allotment sizes:

- Proposed Lot 1 60.50 hectares;
- Proposed Lot 2 282.46 hectares; and
- Proposed Lot 3 60.50 hectares

4.0 DEVELOPMENT APPLICATION DETAILS

This code assessable development application seeks a development permit to Reconfigure the Lots under the *Planning Act 2016* to facilitate the creation of two (2) into three (3) Lots. By way of this development application, the applicant is seeking specific approval of the following development permit to authorise the subdivision of the allotments as detailed in this planning report.

5.0 PLANNING JUSTIFICATION

This development application is made in accordance with the requirements of the *Planning Act 2016* and is for the Reconfiguration of the lot located at 136 Fantin Road, Koah to facilitate the creation of two (2) into three (3) Lots. The proposal is considered to satisfy the requirements set by the applicable assessment benchmarks from the planning scheme, specifically the Rural Zone Code and Reconfiguring a Lot Code.

5.1 Mareeba Shire Planning Scheme 2016

Given that the application is code assessable, the application is required to be assessed against only the relevant codes within the planning scheme where applicable to the development. In particular, the following sections of the planning scheme are considered relevant to this development:

- Rural Zone Code
- Reconfiguration of a Lot Code
- Landscape Code
- Parking and Access Code
- Works, Services and Infrastructure Code
- Bushfire Hazard Overlay Code
- Environmental Significance Overlay Code
- Flood Hazard Overlay Code

Accordingly, an assessment of the proposed development against the above listed codes has been completed. Where the requirements of an Acceptable Outcome were impractical or inappropriate to address, the Performance Outcome was addressed and satisfied. By satisfying the requirements of the Performance Outcomes, the overall "Purpose" of the code was inherently satisfied, as was the Strategic Framework for the planning scheme. In terms of the assessment documented in this report, should any part of the development not comply with any sections of the codes, the relevant sections will be adequately referenced and addressed in further detail to ensure compliance has been achieved.

5.1.1 Rural Zone Code

The purpose of the Rural Zone Code is to:

- a) Provide for rural uses including cropping, intensive horticulture, intensive animal industries, animal husbandry, animal keeping and other primary production activities;
- b) Provide opportunities for non-rural uses that are compatible with agriculture, the environmental features, and landscape character of the rural area where the uses do not compromise the long-term use of the land for rural purposes;
- c) Protect or manage significant natural resources and processes to maintain the capacity for primary production.

Mareeba Shire Council's purpose of the Rural zone code is to recognise the importance of primary productions to the economy of the region and to maintain and strengthen the range of primary industries which contribute to the rural economy.

The purpose of the Rural zone code is to:

- a) Recognise the diversity of rural uses that exists throughout the region;
- b) Protect the rural character of the region;
- c) Provide facilities for visitors and tourists that are accessible and offer unique experience;
- d) Protect the infrastructure of the Mareeba-Dimbulah Irrigation Scheme Area from development which may compromise long term use for primary production;
- e) Maintain distinct boundaries between the rural areas and the villages, towns and urban areas of the region;
- f) Provide for a range of uses, compatible and associated with rural or ecological values including recreational pursuits and tourist activities;
- g) Prevent adverse impacts of development on ecological values;
- h) Preserve land in large holdings; and
- i) Facilitate the protection of strategic corridors across the landscape which link remnant areas of intact habitat and transport corridors.

The purpose of the Rural zone code will be achieved through the following overall outcomes:

- (a) Areas for use for primary production are conserved and fragmentation below economically viable lot sizes is avoided;
- (b) The establishment of a wide range of rural pursuits is facilitated, including cropping, intensive horticulture, forestry, intensive animal industries, animal husbandry and animal keeping and other compatible primary production uses;
- (c) The establishment of extractive industries, mining and associated activities and alternative forms of energy generation is appropriate where environmental impacts and land use conflicts are minimised;
- (d) Uses that require isolation from urban areas as a consequence of their impacts such as noise or odour may be appropriate where land use conflicts are minimised;
- (e) Development is reflective of and responsive to the environmental constraints of the land;

- (f) Residential and other development is appropriate only where directly associated with the rural nature of the zone;
- (g) Low-impact tourism and recreation activities do not compromise the long-term use of the land for rural purposes;
- (h) The viability of both existing and future rural uses and activities is protected from the intrusion of incompatible uses;
- (i) Visual impacts of clearing, building, materials, access ways and other aspects of development are minimised or appropriately managed;
- (j) Adverse impacts of development both on-site and from adjoining areas are avoided and any impacts are minimised through location, design, operation and management; and
- (k) Natural features such as creeks, gullies, waterways, wetlands and bushland are retained, managed, enhanced and separated from adjacent development.

Statement of Compliance:

The proposed two (2) into three (3) lot subdivision of Lots 174 & 175 on NR5801, seeks to create two (2) code compliant lots over the minimum lot size at 60.50 hectares, with the balance allotment in proposed Lot 2 remaining significantly larger at 282.46 hectares. Building envelopes have been located outside of the areas mapped within the environmental significance overlay mapping as regulated vegetation mapping. The building envelopes have been carefully selected on-site to be located close to the road for access, within areas where clearing has occurred previously and/or the vegetation is more dispersed, therefore reducing the amount of clearing required to facilitate future infrastructure. Additionally the access crossovers have been situated to utilise existing infrastructure and access points into the site.

The proposal is considered to satisfy the requirements set by the applicable assessment benchmarks from the planning scheme, specifically the Rural Zone and Reconfiguring a Lot Code. Based on the various reasons listed above and the proposed controls to be implemented, we consider that this development certainly has merit on solid planning grounds to justify and support the creation of an additional allotment within the rural zone, which we understand is compliant with 60ha minimum lot size. It is considered that this development in these particular and unique circumstances, meets the performance outcomes and purpose statements outlined within the Rural Zone Code and Reconfiguring a Lot Code.

5.1.2 Reconfiguring a Lot Code

The purpose of the Reconfiguring a lot code is to ensure that land is:

- (a) arranged in a manner which is consistent with the intended scale and intensity of development within the area;
- (b) provided with access to appropriate movement and open space networks; and
- (c) contributes to housing diversity and accommodates a range of land uses.

The purpose of the code will be achieved through the following overall outcomes:

(a) Subdivision of land achieves the efficient use of land and the efficient provision of infrastructure and transport services;

- (b) Lots are of a suitable size and shape for the intended or potential use having regard to the purpose and overall outcomes of the relevant zone or precinct.
- (c) Subdivision of land creates lots with sufficient area and dimensions to accommodate the ultimate use, meet user requirements, protect environmental features and account for site constraints;
- (d) A range and mix of lot sizes is provided to facilitate a variety of industry and housing types;
- (e) Subdivision design incorporates a road network that provides connectivity and circulation for vehicles and provide safe and efficient access for pedestrians, cyclists and public transport;
- (f) Subdivision design provides opportunities for walking and cycling for recreation and as alternative methods of travel;
- (g) Subdivision of land provides and integrates a range of functional parkland, including local and district parks and open space links for the use and enjoyment of the residents of the locality and the shire;
- (h) Subdivision of land contributes to an open space network that achieves connectivity along riparian corridors and between areas with conservation values;
- (i) Subdivision within the Rural zone maintains rural landholdings in viable parcels;
- (j) Land in historical townships is not reconfigured to be used for urban purposes; and
- (k) Residential subdivision and greenfield development is designed to consider and respect:
 - (i) topography;
 - (ii) climate responsive design and solar orientation;
 - (iii) efficient and sustainable infrastructure provision;
 - (iv) environmental values;
 - (v) water sensitive urban design;
 - (vi) good quality agricultural land; and
 - (vii) the character and scale of surrounding development.

ASSESSMENT RENCHMARKS

Douform on co		Droposal testification
Performance	Acceptable	Proposal Justification
Outcomes	Outcomes	
Area and front	age of Lots – Rura	l Zone
PO1.1	AO1.1 - N/A	Complies with the minimum lot size requirements.

5.1.3 Landscaping Code

The proposed reconfiguration of a lot which is seeking approval for a boundary realignment and easement for water is located within the Rural Zone. As such this code is not considered applicable to this development.

5.1.4 Parking and Access Code

The proposed reconfiguration of a lot which is seeking approval for a subdivision located within the Rural Zone. As such, this code is not considered applicable to this development in terms of controlling parking demands and requirements as part of a reconfiguration of a lot. However, it is noted that the existing access crossovers from Fantin Road and unnamed road will service the allotments and are considered to be consistent with the rural standards for access.

5.1.5 Works, Service and Infrastructure Code

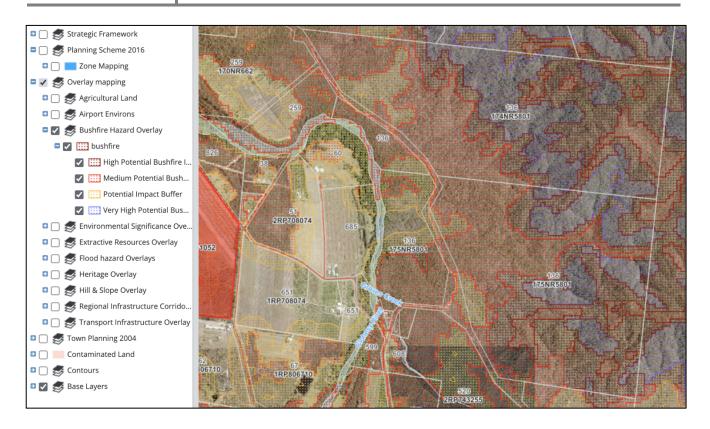

The proposed reconfiguration of a lot which is seeking approval for a subdivision located within the Rural Zone, and as such limited services and infrastructure are required to be provided. As such, it is considered that the proposed Reconfiguration of a lot development achieves compliance with the outcomes sought to be achieved within Works, Services and Infrastructure Code.

5.1.6 Bushfire Hazard Overlay Code

The purpose of the Bushfire hazard overlay code is to minimise the threat of bushfire to people and property. The purpose of the code will be achieved through the following overall outcomes:

- (a) Development in a Bushfire hazard area is compatible with the nature of the hazard;
- (b) The number of people and properties subject to bushfire hazards are minimised through appropriate building design and location;
- (c) Development does not result in a material increase in the extent, duration or severity of bushfire hazard; and
- (d) Appropriate infrastructure is available to emergency services in the event of a bushfire.

Statement of Compliance:

The site is mapped as containing areas of Potential Impact Buffer (100 metres), Medium, High, and Very High Bushfire Hazard towards Formartine Forest Reserve. In response to this hazard, the building envelopes have been strategically proposed to be located close to the road for access vehicles and the like in the event of a fire. Additionally, it is considered reasonable and relevant that Council impose a condition to ensure there are control measures in place to response the potential fire hazards that exist in the area. Fire management conditions may include built form controls to be provided at the time of future development applications for building works. This may be in the form of a suitably sized rainwater tank or other water source with a capacity of not less than 5,000 litres to be available for fire-fighting purposes.

Condition wording below provided to address the relevant fire hazard.

Bushfire Management

Any new dwelling erected on Lot 2 shall:

- be sited in locations of lowest hazard within the lot;
- achieve setbacks from hazardous vegetation of 1.5 times the predominant mature canopy tree height or 20 metres, whichever is the greater; and

• be provided with a source of water for fire-fighting purposes of not less than 5,000 litres. This may be satisfied by the provision of an accessible dam, swimming pool or tank. In the case of a tank supply, delivery of the water should be provided through a 50mm male Camlock fitting. The outlet from the tank water supply or the dam/pool shall be located within an accessible position within 40 metres from the habitable buildings.

5.1.7 Environmental Significance Overlay Code

The purpose of the Environmental significance overlay code is to identify and protect matters of environmental significance, which include matters of state environmental significance (MSES) as defined under the state planning policy.

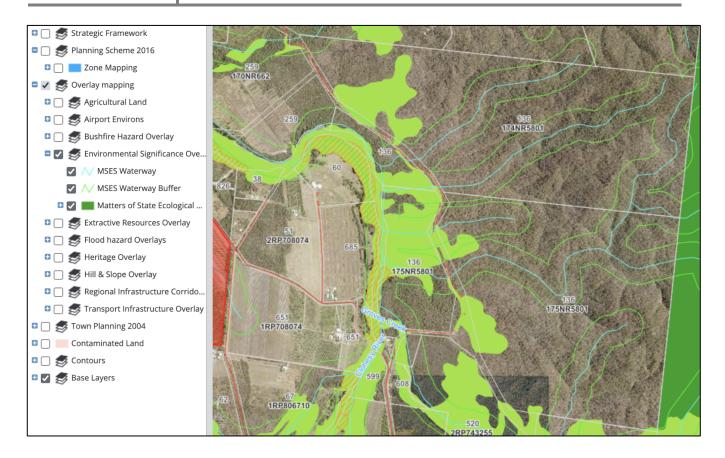

The Environmental significance overlay code ensures that:

- (a) waterways and high ecological significance wetlands are protected and enhanced to maintain ecosystem services and hydrological processes and provide aquatic habitat for flora and fauna; and
- (b) the environmental values of regulated vegetation, wildlife habitat, protected areas and legally secured offset areas are protected and managed.

The purpose of the code will be achieved through the following overall outcomes:

- the biodiversity values, ecosystem services and climate change resilience of areas of environmental significance are protected, managed, enhanced and rehabilitated;
- (b) the biodiversity values of protected areas and legally secured offset areas are protected from development unless overriding community need is demonstrated;
- (c) development is located, designed and managed to minimise the edge effects of development on areas of regulated vegetation and wildlife habitat;
- (d) areas of regulated vegetation and wildlife habitat are managed to minimise biodiversity losses;
- (e) development maintains, protects and enhances a regional network of vegetated corridors that assist in wildlife movement and contribute to the maintenance of habitat and biological diversity;
- (f) development is appropriately setback from waterways and high ecological significance wetlands to minimise direct and indirect impacts on water quality and biodiversity; and
- (g) riparian vegetation and vegetation associated with high ecological significance wetlands is protected and enhanced to improve water quality and natural ecosystem function.

Statement of Compliance:

The site is Mapped as containing areas of land considered regulated vegetation as shown in the image above. In response, we have strategically located the proposed building envelopes to ensure they fall outside of these mapped areas. Accordingly, the outcomes sought within this code are considered to be achieved as a consequence and no further assessment of this development is required against the Environmental Significance Overlay Code.

5.1.8 Flood Hazard Overlay Code

The purpose of the Flood hazard overlay code is to manage development outcomes in flood hazard areas identified on the Flood hazard overlay maps (OM-006ao) so that risk to life, property, community and the environment during flood events is minimised, and to ensure that development does not increase the potential for flood damage on site or to other property.

The purpose of the code will be achieved through the following overall outcomes:

- (a) Development in the 'Extreme flood hazard area':
 - i. maintains and enhances the hydrological function of the land;
 - ii. does not involve filling (earthworks) or changes to existing landform or drainage lines that results in a loss of the flood conveyance and flood storage capacity of the land;
 - iii. is limited to:

- A. flood proofed Sport and recreation activities;
- B. Rural activities where for Animal husbandry, Cropping or Permanent plantation;
- C. flood proofed Utility installations, Substations or Major electricity infrastructure;
- D. conservation and natural area management; and
- E. replacement of existing lawful development, including Accommodation activities where habitable rooms are elevated above the defined flood level and include freeboard.

Where there is no increase to the number of persons at risk of flood and where development reduces existing or potential risks to life and property.

- (b) Development in the 'High flood hazard area':
 - i. maintains the hydrological function of the land;
 - ii. does not involve filling (earthworks) or changes to the existing landform or drainage lines that results in a loss of the flood conveyance and flood storage capacity of the land;
 - iii. is limited to:
 - A. flood proofed Sport and recreation activities and Club uses;
 - B. Non-resident workforce accommodation, Relocatable home park, Resort complex, Rooming accommodation, Short term accommodation and Tourist park uses where these uses comprise permanent on-site management and a flood evacuation management plan ensures the health and safety of persons during a flood event;
 - C. a Dwelling house only where the lot existed or had a lawful reconfiguring a lot approval at the commencement of the planning scheme and the land is included in a Residential zone or the Centre zone or where for minor intensification of existing Dwelling houses;
 - D. Rural activities where for Animal husbandry, Cropping or Permanent plantation;
 - E. Industrial activities and Commercial activities where it is accepted development that flood damage is incurred as an operational cost and where flood sensitive elements of the development or use are elevated above the defined flood level, including freeboard;
 - F. flood proofed Utility installations, Substations or Major electricity infrastructure;
 - G. conservation and natural area management; and
 - H. replacement of existing lawful development; Where there is no increase to the number of persons at risk of flood and where development reduces existing or potential risks to life and property.
 - iv. protects surrounding land and land uses from increased flood hazard impacts;
 - v. elevates habitable rooms for all accommodation activities (including where for minor building work) above the defined flood level, including freeboard.
- (c) Development in the 'Significant flood hazard area':
 - i. minimises risk to life and property from flood events;
 - ii. involves changes to the existing landform and drainage lines in this area only where detrimental impacts to the flood hazard risk of surrounding areas is avoided;

iii. is limited to:

- A. Sport and recreation activities;
- B. Industrial activities and Commercial activities where it is accepted development that flood damage is incurred as an operational cost and where flood sensitive elements of the development or use are elevated above the defined flood level, including freeboard;
- C. Rural activities;
- D. Accommodation activities, excluding Residential care facility and Retirement facility;
- E. flood proofed Community activities, excluding Child care centre, Hospital and Community use where a flood emergency evacuation plan ensures the safety of people during a flood event;
- F. flood proofed Utility installations, Substations or Major electricity infrastructure;
- G. conservation and natural area management;
- iv. locates habitable rooms for all accommodation activities above the defined flood level, including freeboard; and
- v. locates the minimum floor level for all buildings other than accommodation activities, industrial activities and business activities above the defined flood level.

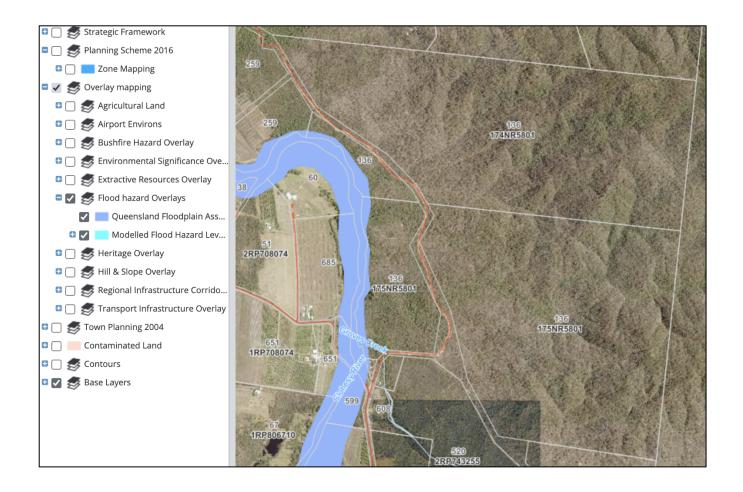

(d) Development in the 'Low flood hazard area':

- i. minimises risk to life and property from flood events;
- ii. locates habitable rooms for all Accommodation activities above the defined flood level, including freeboard; and
- iii. locates the minimum floor level for all buildings other than Accommodation activities above the defined flood level, including freeboard.

(e) Development in the 'Potential flood hazard area':

- i. maintains the safety of people on the development site from flood events and minimises the potential damage from flooding to property;
- ii. does not result in adverse impacts on people's safety, the environment or the capacity to use land within the floodplain;
- iii. locates habitable rooms for all Accommodation activities above a 1% Annual Exceedance Probability (AEP), including freeboard; and
- iv. locates the minimum floor level for all building work other than Accommodation activities above the 1% AEP flood level, including freeboard.

Statement of Compliance:

The site is mapped within the Potential Flood Level Hazard Area along Clohesy River. As noted previously, the proposal simply involves the creation of one (1) additional allotment, with building envelopes for each Lot all located outside the flood hazard area. As such, this will ensure that any future structures proposed to be built on these properties will be adequately positioned to ensure they immune from flooding and will be subject to any requirements for immunity at the time of building works applications and approvals. It is considered that the proposed subdivision complies with the Flood Hazard Overlay Code requirements and no further assessment is required.

5.2 State Development Assessment Provisions

The State Development Assessment Provisions (SDAP) set out the matters of interest to the state for development assessment. The SDAP identifies the matters of interest – where relevant they have been addressed by heading in this section. Where the State is a referral agency for a development application under the provisions, the state code applies.

In this instance, the proposed development does not trigger referral and therefore assessment against the SDAP codes is not required.

5.3 Far North Regional Plan 2009-2031

The site is located within the 'Regional Landscape and Rural Production Area Regional Land Use Category of the Far North Queensland 2009-2031. The Minister has identified that the planning scheme, specifically the Strategic Framework, appropriately advances the FNQRP 2009- 2031. Hence, compliance with the FNQRP is demonstrated through the compliance with the Planning Scheme (refer to this report and attachments for demonstration of this compliance).

6.0 CONCLUSION

It is considered that the proposed development being a Reconfiguration of a Lot – two (2) into three (3) Lots over land described as Lot 174 & 175 on NR5801 is appropriately designed to comply with the planning scheme requirements. In particular, the proposed development:

- Achieves compliance with the Performance Outcomes relating to the proposed subdivision;
- Achieves compliance with the Performance Outcomes, Purposes and the Intent of the Reconfiguring a Lot Code for land included in the Rural Zone;
- Satisfies compliance with the relevant applicable mapped Overlays;
- Does not conflict with the Far North Queensland Regional Plan 2009 2031, in particular the Rural Production Area Regional Land Use Category.

The applicant strongly believes that an assessment of the common material forming part of this development application in accordance with the decision-making rules established under the Planning Act will result in the approval of the development application and the issuing of a development permit subject to conditions.

The proposal is consistent with the "Purpose" of the Rural Zone & Reconfiguring a Lot Code and the applicable State level policy. The proposal constitutes works and a use of the site in a manner that meets the strategic outcomes sought by the planning instruments and the expectations of the community. The conclusion of this report is that all the requirements set by the assessment benchmarks can be met and that the strategic level policy outcomes sought by the planning scheme for the site and locality can be achieved. The common material provided as part of this development application contains sufficient justification to establish compliance with the assessment benchmarks. It is the applicant's opinion that the development application contains sufficient justification to warrant approval subject to reasonable and relevant conditions.

We request that Council provide a copy of the Draft Conditions with sufficient time for review prior to issuing a Decision Notice for the development. If you have any queries please do not hesitate to contact our office on 0411 344 110.

Ramon Samanes

Director, U&i Town Plan
Bachelor of Applied Science, Majoring in Environmental and Urban Planning

APPENDIX 1: DA FORM 1 – DEVELOPMENT APPLICATION DETAILS

DA Form 1 – Development application details

Approved form (version 1.4 effective 15 December 2023) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development** (i.e. material change of use, operational work or reconfiguring a lot), use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).

PART 1 - APPLICANT DETAILS

1) Applicant details					
Applicant name(s) (individual or company full name)	Wong Lau Developments Pty Ltd c/- U&i Town Plan				
Contact name (only applicable for companies)	Ramon Samanes				
Postal address (P.O. Box or street address)	PO Box 426				
Suburb	Cooktown				
State	QLD				
Postcode	4895				
Country	Australia				
Contact number	0411344110				
Email address (non-mandatory)	Ramon.samanes@gmail.com				
Mobile number (non-mandatory)	0411344110				
Fax number (non-mandatory)					
Applicant's reference number(s) (if applicable)	R9-23				

2) Owner's consent
2.1) Is written consent of the owner required for this development application?
∑ Yes – the written consent of the owner(s) is attached to this development application
□ No – proceed to 3)

PART 5 – REFERRAL DETAILS

17) Does this development application include any aspects that have any referral requirements? Note: A development application will require referral if prescribed by the Planning Regulation 2017.
No, there are no referral requirements relevant to any development aspects identified in this development application – proceed to Part 6
Matters requiring referral to the Chief Executive of the Planning Act 2016:
☐ Clearing native vegetation
Contaminated land (unexploded ordnance)
Environmentally relevant activities (ERA) (only if the ERA has not been devolved to a local government)
Fisheries – aquaculture
Fisheries – aquaculture Fisheries – declared fish habitat area
☐ Fisheries – marine plants ☐ Fisheries – waterway barrier works
Hazardous chemical facilities
Heritage places – Queensland heritage place (on or near a Queensland heritage place)
Infrastructure-related referrals – designated premises
Infrastructure-related referrals – state transport infrastructure
Infrastructure-related referrals – State transport corridor and future State transport corridor
Infrastructure-related referrals – State-controlled transport tunnels and future state-controlled transport tunnels
Infrastructure-related referrals – near a state-controlled road intersection
Koala habitat in SEQ region – interfering with koala habitat in koala habitat areas outside koala priority areas
Koala habitat in SEQ region – key resource areas
Ports – Brisbane core port land – near a State transport corridor or future State transport corridor
Ports – Brisbane core port land – environmentally relevant activity (ERA)
Ports – Brisbane core port land – tidal works or work in a coastal management district
Ports – Brisbane core port land – hazardous chemical facility
Ports – Brisbane core port land – taking or interfering with water
Ports – Brisbane core port land – referable dams
Ports – Brisbane core port land – fisheries
Ports – Land within Port of Brisbane's port limits (below high-water mark)
SEQ development area
SEQ regional landscape and rural production area or SEQ rural living area – tourist activity or sport and recreation activity
SEQ regional landscape and rural production area or SEQ rural living area – community activity
☐ SEQ regional landscape and rural production area or SEQ rural living area – indoor recreation
☐ SEQ regional landscape and rural production area or SEQ rural living area – urban activity
☐ SEQ regional landscape and rural production area or SEQ rural living area – combined use
☐ SEQ northern inter-urban break – tourist activity or sport and recreation activity
SEQ northern inter-urban break – community activity
SEQ northern inter-urban break – indoor recreation
SEQ northern inter-urban break – urban activity
☐ SEQ northern inter-urban break – combined use
☐ Tidal works or works in a coastal management district
Reconfiguring a lot in a coastal management district or for a canal
☐ Erosion prone area in a coastal management district
☐ Urban design
Water-related development – taking or interfering with water
Water-related development – removing quarry material (from a watercourse or lake)
☐ Water-related development – referable dams
Water-related development –levees (category 3 levees only)
☐ Wetland protection area

Matters requiring referral to the local government:				
☐ Airport land				
Environmentally relevant activities (ERA) (only if the ERA	has been devolved to local government,			
Heritage places – Local heritage places				
Matters requiring referral to the Chief Executive of the d	istribution entity or transmissi	on entity:

(if applicable).				
PART 6 – INFORMATION REQUEST				
ANT 0 - IN ONWATION NEGOEST				
19) Information request under Part 3 of the DA Rules				
 ✓ I agree to receive an information request if determined 	necessary for this development	application		
☐ I do not agree to accept an information request for this development application				

19) Information request under Part 3 of the DA Rules
☑ I agree to receive an information request if determined necessary for this development application
☐ I do not agree to accept an information request for this development application
Note: By not agreeing to accept an information request I, the applicant, acknowledge:
 that this development application will be assessed and decided based on the information provided when making this development application and the assessment manager and any referral agencies relevant to the development application are not obligated under the DA Rules to accept any additional information provided by the applicant for the development application unless agreed to by the relevant parties
Part 3 of the DA Rules will still apply if the application is an application listed under section 11.3 of the DA Rules.
Further advice about information requests is contained in the <u>DA Forms Guide</u> .

PART 7 – FURTHER DETAILS

20) Are there any associated of	development applications or o	current appr	ovals? (e.g. a prelin	ninary approval)
Yes – provide details below	or include details in a sched	dule to this d	evelopment appli	ication
⊠ No

Yes – Form 69: Notification of a facility exceeding 10% of schedule 15 threshold is attached to this development application				
⊠ No				
Note: See www.business.qld.gov.au f	or turther information about hazardo	ous chemical no	tifications.	

Clearing native vegetation
23.3) Does this development application involve clearing native vegetation that requires written confirmation that the chief executive of the <i>Vegetation Management Act 1999</i> is satisfied the clearing is for a relevant purpose under section 22A of the <i>Vegetation Management Act 1999</i> ?
☐ Yes – this development application includes written confirmation from the chief executive of the <i>Vegetation Management Act 1999</i> (s22A determination)
No Note: 1. Where a development application for operational work or material change of use requires a s22A determination and this is not included, the development application is prohibited development. 2. See https://www.qld.gov.au/environment/land/vegetation/applying for further information on how to obtain a s22A determination.
Environmental offsets
23.4) Is this development application taken to be a prescribed activity that may have a significant residual impact on a prescribed environmental matter under the <i>Environmental Offsets Act 2014?</i>
 Yes − I acknowledge that an environmental offset must be provided for any prescribed activity assessed as having a significant residual impact on a prescribed environmental matter No
Note: The environmental offset section of the Queensland Government's website can be accessed at www.qld.gov.au for further information on environmental offsets.
Koala habitat in SEQ Region
23.5) Does this development application involve a material change of use, reconfiguring a lot or operational work which is assessable development under Schedule 10, Part 10 of the Planning Regulation 2017?
 ☐ Yes – the development application involves premises in the koala habitat area in the koala priority area ☐ Yes – the development application involves premises in the koala habitat area outside the koala priority area ☐ No
Note: If a koala habitat area determination has been obtained for this premises and is current over the land, it should be provided as part of this development application. See koala habitat area guidance materials at www.des.gld.gov.au for further information.
Water resources
<u>Water resources</u> 23.6) Does this development application involve taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the <i>Water Act 2000</i> ?
23.6) Does this development application involve taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the <i>Water Act 2000</i> ? Yes – the relevant template is completed and attached to this development application and I acknowledge that a relevant authorisation or licence under the <i>Water Act 2000</i> may be required prior to commencing development
23.6) Does this development application involve taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the <i>Water Act 2000</i> ? ☐ Yes − the relevant template is completed and attached to this development application and I acknowledge that a relevant authorisation or licence under the <i>Water Act 2000</i> may be required prior to commencing development ☐ No
23.6) Does this development application involve taking or interfering with underground water through an artesian or subartesian bore, taking or interfering with water in a watercourse, lake or spring, or taking overland flow water under the <i>Water Act 2000</i> ? Yes – the relevant template is completed and attached to this development application and I acknowledge that a relevant authorisation or licence under the <i>Water Act 2000</i> may be required prior to commencing development

Marine activities 23.8) Does this development application involve aquaculture, works within a declared fish habitat area or

Quarry materials from a watercourse or lake				
23.9) Does this development application involve the removal of quarry materials from a watercourse or lake under the <i>Water Act 2000?</i>				
☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development ☐ No				
Note : Contact the Department of Natural Resources, Mines and Energy at www.dnrme.qld.gov.au and www.business.qld.gov.au for further information.				
Quarry materials from land under tidal waters				
23.10) Does this development application involve the removal of quarry materials from land under tidal water under the <i>Coastal Protection and Management Act 1995?</i>				
☐ Yes – I acknowledge that a quarry material allocation notice must be obtained prior to commencing development ☐ No				
Note : Contact the Department of Environment and Science at <u>www.des.qld.gov.au</u> for further information.				
Referable dams				
23.11) Does this development application involve a referable dam required to be failure impact assessed under section 343 of the <i>Water Supply (Safety and Reliability) Act 2008</i> (the Water Supply Act)?				
Yes – the 'Notice Accepting a Failure Impact Assessment' from the chief executive administering the Water Supply Act is attached to this development application				
No Note: See guidance materials at www.dnrme.qld.gov.au for further information.				
Tidal work or development within a coastal management district				
23.12) Does this development application involve tidal work or development in a coastal management district?				
 Yes – the following is included with this development application: □ Evidence the proposal meets the code for assessable development that is prescribed tidal work (only required if application involves prescribed tidal work) 				
☐ A certificate of title ☐ No				
Note: See guidance materials at www.des.gld.gov.au for further information.				
Queensland and local heritage places				
23.13) Does this development application propose development on or adjoining a place entered in the Queensland heritage register or on a place entered in a local government's Local Heritage Register ?				
☐ Yes – details of the heritage place are provided in the table below ☐ No				
Note: See guidance materials at www.des.qld.gov.au for information requirements regarding development of Queensland heritage places.				
Name of the heritage place: Place ID:				
<u>Brothels</u>				
23.14) Does this development application involve a material change of use for a brothel?				
Yes – this development application demonstrates how the proposal meets the code for a development application for a brothel under Schedule 3 of the <i>Prostitution Regulation 2014</i>				
⊠ No				
Decision under section 62 of the Transport Infrastructure Act 1994				
23.15) Does this development application involve new or changed access to a state-controlled road?				
Yes – this application will be taken to be an application for a decision under section 62 of the <i>Transport Infrastructure Act 1994</i> (subject to the conditions in section 75 of the <i>Transport Infrastructure Act 1994</i> being satisfied)				
No No				

Walkable neighbourhoods assessment benchmarks under Schedule 12A of the Planning Regulation 23.16) Does this development application involve reconfiguring a lot into 2 or more lots in certain residential zones (except rural residential zones), where at least one road is created or extended? Yes – Schedule 12A is applicable to the development application and the assessment benchmarks contained in schedule 12A have been considered **Note**: See guidance materials at www.planning.dsdmip.qld.gov.au for further information.

PART 8 – CHECKLIST AND APPLICANT DECLARATION

24) Development application checklist	
I have identified the assessment manager in question 15 and all relevant referral requirement(s) in question 17 Note: See the Planning Regulation 2017 for referral requirements	⊠ Yes
If building work is associated with the proposed development, Parts 4 to 6 of <u>DA Form 2 – Building work details</u> have been completed and attached to this development application	☐ Yes☒ Not applicable
Supporting information addressing any applicable assessment benchmarks is with the development application Note: This is a mandatory requirement and includes any relevant templates under question 23, a planning report and any technical reports required by the relevant categorising instruments (e.g. local government planning schemes, State Planning Policy, State Development Assessment Provisions). For further information, see DAForms Guide: Planning Report Template .	⊠ Yes
Relevant plans of the development are attached to this development application Note: Relevant plans are required to be submitted for all aspects of this development application. For further information, see <u>DA Forms Guide: Relevant plans.</u>	⊠ Yes
The portable long service leave levy for QLeave has been paid, or will be paid before a development permit is issued (see 21)	☐ Yes☒ Not applicable
	<u> </u>
25) Applicant declaration	

- By making this development application. I declare that all information in this development application is true and correct
- Where an email address is provided in Part 1 of this form, I consent to receive future electronic communications from the assessment manager and any referral agency for the development application where written information is required or permitted pursuant to sections 11 and 12 of the Electronic Transactions Act 2001

Note: It is unlawful to intentionally provide false or misleading information.

Privacy – Personal information collected in this form will be used by the assessment manager and/or chosen assessment manager, any relevant referral agency and/or building certifier (including any professional advisers which may be engaged by those entities) while processing, assessing and deciding the development application. All information relating to this development application may be available for inspection and purchase, and/or published on the assessment manager's and/or referral agency's website.

Personal information will not be disclosed for a purpose unrelated to the Planning Act 2016, Planning Regulation 2017 and the DA Rules except where:

- such disclosure is in accordance with the provisions about public access to documents contained in the Planning Act 2016 and the Planning Regulation 2017, and the access rules made under the Planning Act 2016 and Planning Regulation 2017; or
- required by other legislation (including the Right to Information Act 2009); or
- otherwise required by law.

This information may be stored in relevant databases. The information collected will be retained as required by the Public Records Act 2002.

Authority To Act of Behalf of Owners: 136 Fantin Road

Date: 9 May, 2023

To Whom It May Concern:

I, Alan Lau in my capacity and position as both Director and Share Holder of Wong Lau Pty Ltd, being the owners of 136 Fantin Road Koah Lot 174 and Lot 175 in the Mareeba Shire, hereby grant authority to the Directors of Made Wild Pty Ltd to act on our behalf and access information regarding the property in order to complete a feasibility study on the future highest and best uses for the land

Directors Names

Aphra Skye Hill Grant Hill

Made Wild has been engaged to undertake investigation and planning of several proposed, future business ventures and projects on the above mentioned property

As part of the scope of activity there may also be cause for the Directors of Made Wild Pty Ltd to request and obtain information regarding the property to ascertain future potential business and development potential

Sincerely

Alan Lau

Director

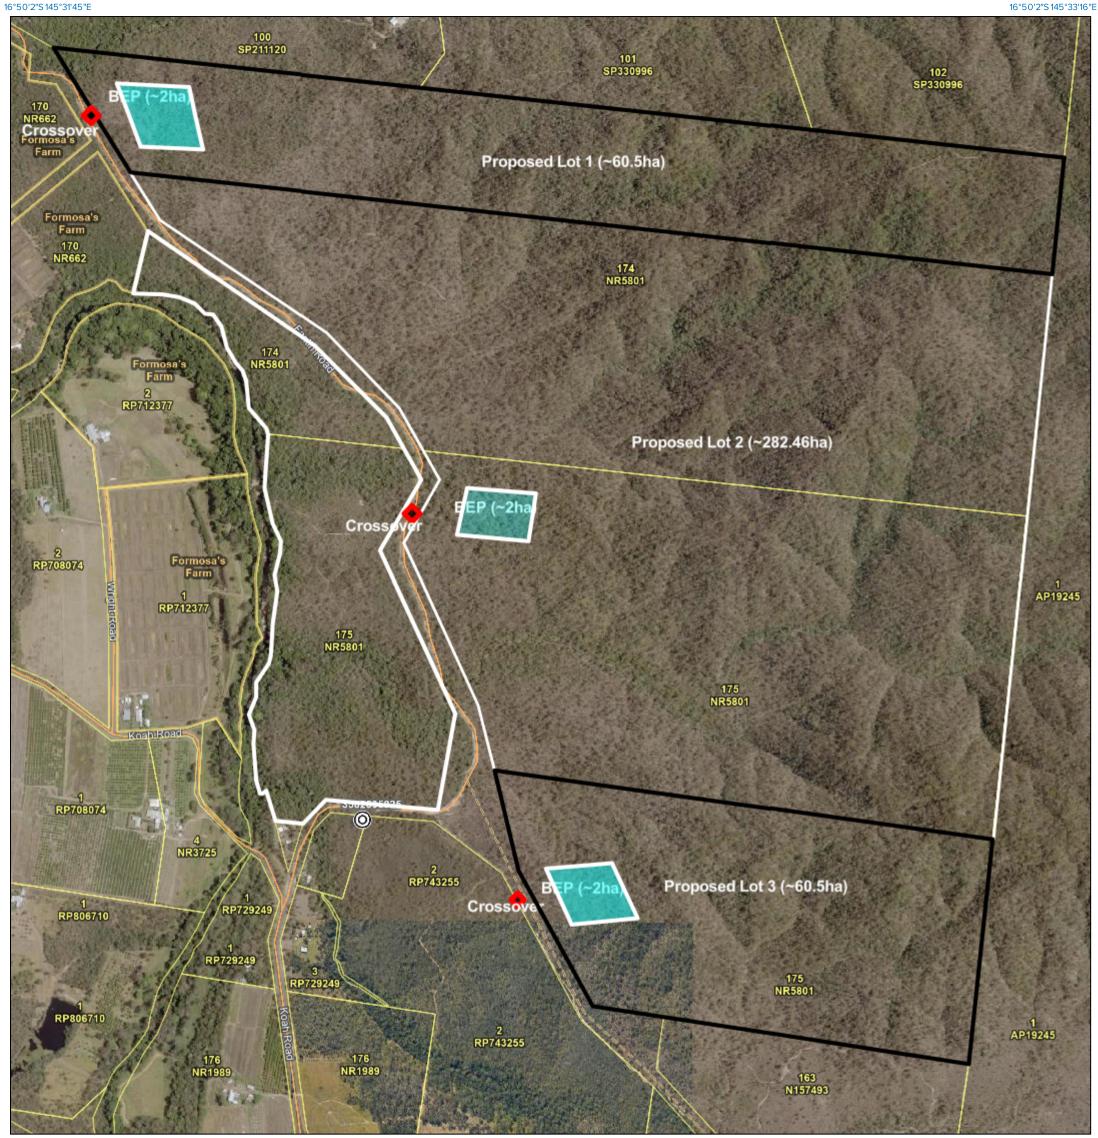

Wong Lau Pty Ltd
