Has the applicant advised on the approved form that the applicant does not agree to accept an Information Request? No

An information request **as detailed below** is made by the Assessment Manager. Regardless of this advice, any Referral Agency for the application may also make an information request.

---

Council requests further information as the Assessment Manager, pursuant to Part 3, Item 12 of the *Development Assessment Rules*, to facilitate the assessment of the development application, namely:

**1. Myola Zone Code - Section 4.125 Building Siting, Scale and Amenity**

Provide a detailed assessment of the proposed development against the Specific Outcomes and Probable Solutions (S1 to S4) contained in Section 4.125 of the Myola Zone Code. In particular, the subject land contains ridgelines (S2 and PS2.2) as identified on Planning Scheme Map N1.

**2. Far North Queensland Regional Plan 2009-2031**

Provide an additional detailed assessment of the proposed development against all the relevant provisions (applicable desired regional outcomes and land use policies) of the Far North Queensland Regional Plan 2009-2031. This additional assessment must include, but not be limited to, DRO1.1 Biodiversity Conservation.

Provide a supporting Water Supply Reticulation Analysis, prepared by a RPEQ, to determine the extent of works/upgrading required to reticulation mains, trunk mains, pumping facilities and storage capacity to facilitate connection of the proposed development to Council's reticulated water infrastructure.

The analysis must identify the proposed alignment of connection infrastructure and demonstrate that necessary tenure/land owners consent is provided for the proposed alignment.

**5. Stormwater Analysis**

Through the implementation of water sensitive urban design principles, this plan must demonstrate no net increase in the discharge rate of stormwater from the developed site. Stormwater drainage should be incorporated and designed as a landscape feature within the open space corridors/areas. Any minor stormwater drainage corridors not part of open space areas will be required to be incorporated into the individual allotments and restricted from development by way of easements.
