PLANNING DISCUSSION

Accommodation Activities Code

Performance outcomes	Acceptable outcomes
If for Dwelling house	
PO6 Where a Dwelling house involves a secondary dwelling, it is designed and located to: (d) not dominate the site; (e) remain subservient to the primary dwelling; and (f) be consistent with the character of the surrounding area;	AO6.1 The secondary dwelling is located within: (c) 10 metres of the primary dwelling where on a lot that has an area of 2 hectares or less; or (d) 20 metres of the primary dwelling where on a lot that has an area of greater than 2 hectares.
	AO6.2 A secondary dwelling has a maximum gross floor area of 100m ² .

Comment

The proposed secondary dwelling will be sited approximately 142 metres from the primary dwelling and is therefore non-compliant with AO4.1 (b), exceeding the setback requirement by approximately 122 metres. The internal GFA of the secondary dwelling also exceeds the 100m² set by AO6.2 by 1m².

The proposed secondary dwelling exceeds the size limit by a mere 1m². The secondary dwelling will share the same access as the primary dwelling, with the occupants having to drive in between the existing dwelling and outbuilding to gain access. For this reason, it is likely the secondary dwelling will remain subservient to the primary dwelling. The proposed development complies with PO4.
