Provide fencing along the site boundary with the railway corridor, in accordance with Queensland Rail drawing number QR-C-S3230 – 1.8m High Chain Link Security Fence Without Rails using 50mm Diamond Mesh General Arrangement.	Prior to submitting the Plan of Survey to the local government for approval for the relevant stage.

At all times.
3. Attachment 2—Advice to the applicant

General advice	
1.	Terms and phrases used in this document are defined in the <i>Planning Act 2016</i> , its regulation or the State Development Assessment Provisions (SDAP) version 3.3. If a word remains undefined it has its ordinary meaning.
2.	Pursuant to section 255 of the <i>Transport Infrastructure Act 1994</i>, the railway manager's written approval is required to carry out works in or on a railway corridor or otherwise interfere with the railway or its operations. In particular, the applicant should consult with Queensland Rail prior to constructing retaining walls and prior to removing existing fencing or installing new fencing along the site boundary with the railway corridor. All fencing and works (including retaining walls) including footings, should be located within the site and not in the railway corridor. Please be advised that this referral agency response does not constitute an approval under section 255 of the <i>Transport Infrastructure Act 1994</i> and that such approvals need to be separately obtained from the relevant railway manager. Further information about the process and fees for seeking such approvals from Queensland Rail, as well as contact details for enquiries, are available at https://www.queenslandrail.com.au/forbusiness/partnership-opportunities/new-rail-or-infrastructure-projects.
