Attention: Planning and Building Department

Dear Sir,

**RE: APPLICATION FOR RECONFIGURING A LOT – 1 LOT INTO 2 LOTS
LOT 62 ON SP108036, 24 JACINTA CRESCENT, MAREEBA.**

This application is for a Reconfiguring a Lot – 1 Lot into 2 Lots over land described as Lot 62 on SP108036, situated at 24 Jacinta Crescent, Mareeba is submitted on behalf of KATRINA ROSE KAZIM.

The application comprises of Application Form, SmartMap, Sketch Plan, Cadastral Overlay and this Town Planning Submission.

The Site

The subject land is described as Lot 62 on SP108036, Locality of Mareeba and situated at 24 Jacinta Crescent, Mareeba. The site is owned by KATRINA ROSE KAZIM who is also the applicant for the proposed development. The site is FreeHold, generally regular in shape, has an area of 1,404 m², contains frontage to Jacinta Crescent and encompasses a Dwelling House and associated structures. The site is access from the existing Road Network and is provided with all available services.

In relation to the current State Governmental Mapping the site is Not Mapped as containing Remnant Vegetation, Regrowth Vegetation and Essential Habitat nor is the site designated as including a Referable Wetland or Wetland Protection Area. The site is not located within 25 metres of a State Controlled Road or a Railway Corridor. It is considered that the proposal does not require Referral to any State Agencies.

The Proposed Development

The proposed development is for a Reconfiguring a Lot – 1 Lot into 2 Lots in the Low Density Residential Zone of the Mareeba Shire Planning Scheme. The site is located at 24 Jacinta Crescent, Mareeba and is more particularly described as Lot 62 on SP108036. The site is regular in shape, has an area of 1,404 m² and contains a Dwelling House and associated structures. No change to the existing structures is proposed with the Reconfiguration.

A Development Permit is sought to subdivide Lot 62 on SP108036 creating an additional Residential Allotment within the Mareeba East Residential Area. No change to the existing Residential nature or character of the Zone is envisaged with the Reconfiguration. The proposal will provide for additional Residential Allotment while maintaining the existing amenities and aesthetics of the site.

The proposal is to retain the existing Dwelling House and associated structures, developing the vacant rear portion of the site as an additional Residential Allotment. This Subdivision is created to ensure the protecting of the nature and character of Mareeba by providing additional Residential Allotment. The proposal will allow for future development opportunities over the vacant allotment.

The Reconfiguring a Lot proposes two (2) Residential Allotments described as proposed Lots 1 and 2. The proposed areas of the allotments are as follows:

Proposed Lot 1	600 m ²
Proposed Lot 2	804 m ² .

The site contains associated structures with the existing Dwelling House with the existing Dwelling provided with appropriate setbacks to the proposed new common boundary. However, the existing structures will be provided without setbacks to the proposed common boundary. As these are non-habitable structures, the proposed setbacks are considered acceptable in this instance.

The site gains access from the existing Road Network, being Jacinta Crescent via existing crossovers. No change to the existing is envisaged other than the formalisation of the existing gravel crossover toward the eastern boundary. It is accepted that each allotment contains the ability for safe provision of access to the existing Road Network, being Jacinta Crescent. The Subdivision provides for a Rear Access Handle of 5.0 metres in width and considered appropriate for the provision of Access and Services which are understood to be already provided within the proposed handle. The site is connected to all available and necessary services with the proposed Residential Allotments able to be provided with the same level of Urban servicing.

The proposed allotments meet the minimum area requirements of the Mareeba Shire Planning Scheme's Reconfiguring a Lot Code. The proposed allotments are considered to provide appropriate areas and dimensions for the provision of any future development for proposed Lot 2. It is not considered that the proposed Reconfiguration will be detrimental to the adjacent sites or adversely impact on the surrounding area. It is considered that the Performance Outcomes of the both the Low Density Residential Zone Code and the Reconfiguration of a Lot Code can be met in this instance.

The proposed Reconfiguration is located in the Low Density Residential Zone of the Mareeba Shire Council's Planning Scheme. Reconfiguring a Lot is a Code Assessable Use within this Zone. The application is Code Assessable.

Far North Queensland Regional Plan 2009-2031

Lot 62 on SP108036 is identified as being in the Urban Footprint designation of the FNQ Regional Plan Mapping.

The proposal is considered to be a re-subdivision (infill/re-development) of an existing site. The Reconfiguration is within the Urban Footprint and results in the creation of greater densities without affecting the existing natural environment. The proposal is appropriate and acceptable while providing additional opportunities for within the Mareeba Township and the Mareeba Shire.

It is considered that the proposed Reconfiguration is not in conflict with the Intent for Urban Footprint designation of the FNQ Regional Plan.

Low Density Residential Zone Code

A Development Permit for a Reconfiguring a Lot – 1 Lot into 2 Lots is sought to provide an additional Residential Allotment within the Mareeba Residential Area. The site is designated within the Low Density Residential Zone and no change to the existing Residential Zone is proposed with the Reconfiguration. The proposal will maintain the existing amenities of the site and compliment the surrounding and adjoining Residential Areas.

The site is surrounded by Low Density Residential Allotments and Rural Residential Allotments to the rear of the site with no change to the existing nature, character and amenity is envisaged. The proposal is considered to comply with the purpose of the Low Density Residential Zone as the provision of Residential Allotments will ensure Residential Uses will be provided over the site now and within the future. The site will not affect the existing Rural Residential Allotments to the south of the site.

The site contains associated structures with the existing Dwelling House with the existing Dwelling provided with appropriate setbacks to the proposed new common boundary. However, the existing structures will be provided without setbacks to the proposed common boundary. As these are non-habitable structures, the proposed setbacks are considered acceptable in this instance. No change to the existing Residential nature or character of the Zone is envisaged with the Reconfiguration nor is any change to the existing Residential Uses of the site. The proposal is considered to comply with the purpose of the Low Density Residential Zone as the provision of Residential Allotments will ensure that the existing Residential Uses will be provided over the site now and within the future.

It is not considered that the proposal is in conflict with the relevant aspects of the Low Density Residential Zone Code. The proposal offers similar character and nature to what is existing whilst enhancing the existing character. The proposed Reconfiguration is considered acceptable and appropriate.

Airports Environs Overlay Code

The site is located outside of the 8km Bird and Bat Zone of the Bird and Bat Strike Zones and outside the Light Intensity – Mareeba Overlay Mapping. The proposed Reconfiguration is not considered to adversely affect the site, immediate vicinity or surrounds. The proposal is not for a waste disposal site. It is considered that the Airports Environs Overlay Code is Not Applicable to the proposed Residential Subdivision given the site being located outside the Light Intensity Zone and the 8km for Bird and Bat Strike Zones.

Reconfiguring a Lot Code

The proposal is for a Reconfiguring a Lot – 1 Lot into 2 Lots in the Low Density Zone of the Mareeba Shire Council's Planning Scheme. The proposal is sought to create an additional Residential Allotment within the Mareeba Residential Area. The proposed Subdivision follows the existing Fenceline of the property. The proposal also provides greater densities than existing, further consolidating the Urban and Residential Area. No change to the existing Residential nature or character of the Zone is envisaged with the Reconfiguration. The proposed Reconfiguration is to preserve the existing nature of the site and the immediate and surrounding amenity in accordance with the Mareeba Shire Council's Planning Scheme.

The minimum lot size in the Low Density Residential Zone's is 600 m² requiring a minimum frontage of 16 metres. Existing Lot 62 on SP108036 has an area of 1,404 m². The Reconfiguration of a Lot proposes two (2) Residential Allotments described as proposed Lots 1 and 2. The proposed areas and frontages of the allotments are:

<u>Proposed Allotments</u>	<u>Area (m²)</u>	<u>Frontage (m)</u>
Proposed Lot 1	600 m ²	16.00 metres
Proposed Lot 2	804 m ²	5.00 metres

Each proposed allotment contains areas greater than the minimum requirements within the Code. No change to the existing access is envisaged with the Reconfiguration with proposed Lot 1 retaining the existing access to the Dwelling House. A formalised access will be required from Jacinta Crescent for proposed Lot 2 with this Rear Access Allotment containing a Handle of 5.0 metres in width. It is accepted that each allotment contains the ability for the safe provision of access to the existing Road Network, being Jacinta Crescent. No new buildings or structures are proposed with this application and each proposed allotment will be/is provided with all available services of Reticulated Power, Telecommunications, Water and Sewerage.

The proposed layout is considered appropriate and acceptable providing sufficient area and dimensions for their intended use. It is considered that an acceptable provision of access will be provided to each allotment in accordance with the Mareeba Shire Council's Planning Scheme ensuring that the provision of safe, appropriate and acceptable access is provided to each proposed allotment. The proposed Subdivision is considered to result in a more appropriate outcome while protecting, maintain and enhancing the existing Residential nature, character and amenity of the Mareeba Township. It is noted that the proposal provides for future development opportunities for proposed Lot 2.

The proposed allotments meet the minimum area requirements of the Mareeba Shire Planning Scheme Reconfiguring a Lot Code. It is not considered that the proposed Reconfiguration will be detrimental to the adjacent sites or adversely impact on the surrounding area. It is considered that the Performance Outcomes of the Reconfiguring a Lot Code can be met in this instance.

Works, Services, and Infrastructure Code

The proposal is for a Reconfiguration of 1 Lot into 2 Lots in the Low Density Residential Zone. Each proposed allotment can be/is connected to all available a services being Reticulated Electricity, Telecommunications, Water and Sewerage and will be provided with an appropriate level of Stormwater disposal. The site gains access from the existing Road Network, being Jacinta Crescent with no change to the existing, other than the formalisation of the eastern access, is envisaged with the proposal. The proposed Subdivision will ensure that no change to the existing Uses and Residential nature of the site and surrounding area is envisaged.

No Excavation or Filling is proposed with the Reconfiguration other than site preparation however, if any significant Excavation or Filling associated with the proposed Reconfiguration is required than any resultant earthworks will be provided as part of an Operational Works Application. It is considered that the proposed Reconfiguration complies with the Intent of the Works, Services and Infrastructure Code.

Conclusion

It is considered that the proposed development being a Reconfiguring a Lot – 1 Lot into 2 Lots over land described as Lot 62 on SP108036 is appropriate. In particular, the proposed development:

- ✚ Can meet the Acceptable Outcomes and Performance Outcomes relating to minimum allotment size and dimension;
- ✚ No change to the existing Residential nature or character of the area is envisaged, and the Subdivision will ensure that the new allotments will remain to be used for Residential Uses;
- ✚ Can meet the Performance Outcomes and the Intent of the Reconfiguring a Lot Code for land included in the Low Density Residential Zone;
- ✚ Can meet the Intent and Objectives and Intent for the Low Density Residential Zone;
- ✚ Is not in conflict with the Far North Queensland Regional Plan, in particular the Urban Footprint Designation; and
- ✚ Provides an additional Residential Allotment within the Mareeba Township.

Freshwater Planning Pty Ltd request that Council provide a copy of the Draft Conditions with sufficient time for review prior to a Decision is provided. If you have any queries, please do not hesitate to contact Freshwater Planning Pty Ltd.

DA Form 1 – Development application details

Approved form (version 1.6 effective 2 August 2024) made under section 282 of the Planning Act 2016.

This form **must** be used to make a development application **involving code assessment or impact assessment**, except when applying for development involving only building work.

For a development application involving **building work only**, use *DA Form 2 – Building work details*.

For a development application involving **building work associated with any other type of assessable development (i.e. material change of use, operational work or reconfiguring a lot)**, use this form (*DA Form 1*) and parts 4 to 6 of *DA Form 2 – Building work details*.

Unless stated otherwise, all parts of this form **must** be completed in full and all required supporting information **must** accompany the development application.

One or more additional pages may be attached as a schedule to this development application if there is insufficient space on the form to include all the necessary information.

This form and any other form relevant to the development application must be used to make a development application relating to strategic port land and Brisbane core port land under the *Transport Infrastructure Act 1994*, and airport land under the *Airport Assets (Restructuring and Disposal) Act 2008*. For the purpose of assessing a development application relating to strategic port land and Brisbane core port land, any reference to a planning scheme is taken to mean a land use plan for the strategic port land, Brisbane port land use plan for Brisbane core port land, or a land use plan for airport land.

Note: All terms used in this form have the meaning given under the Planning Act 2016, the Planning Regulation 2017, or the Development Assessment Rules (DA Rules).
