Byrnes Street Bins

Draft Designs - Community Consultation

Mareeba Shire Council has commenced a project to refresh the waste bins in Byrnes Street, Mareeba.

The fresh new bins will create a visual element to Byrnes Street. They will showcase the history of Byrnes Street with a heritage CBD image on one side of the bin while celebrating a selection of the Shire's natural attractions and tourism experiences with a bright modern image on the other side.

Draft designs have been created and residents are invited to have their say on the artwork available below.

The designs are numbered from 1 – 45, and Council invites all residents to complete the survey and give feedback on the designs.

The period for public comment will end at midnight on Sunday, 25 June 2023.

For more information, please contact Council on 1300 308 461.

Jack & Newell

The firm of Jack & Newell did a great deal to help develop the Mareeba area.

William Jack and John Newell started off as tin miners in Herberton in 1879. The following year William Jack, who had previously been a storekeeper, opened the first store in Herberton. John Newell married Jack's daughter Janet and became a partner in the store.

They branched out and opened stores all over the northern mining district and at one time they had 26 branches open for business.

Picture Theatres

Mareeba had two open air picture shows at different times.

The movies were silent and a pianist was engaged to provide the appropiate background music.

Coal burners were used to provide warmth in the winter and patrons had to take an umbrella along if it looked like it might rain.
